

# LATE MOVEMENTS OF CAPT. DREYFUS

## It Is Now Believed That He Is Coming to the United States.

PARIS, Sept. 21.—The official journal today publishes President Loubet's decree of pardon for Dreyfus. Accompanying the decree is a note by Minister of War De Clerville, saying that while it is the first duty of all to respect judicial decisions, the president must respond to the wish of the country for pacification and quiet. Also this "supreme act of humanity" is more imperative on account of the health of the prisoner, and it is necessary to take into consideration the plain intention of the court-martial. The Dreyfus sentence should be regarded as already served on Devil's island.

Mme. Dreyfus left here this afternoon to join her husband at Carpentras. The children will follow shortly.

De Allifet, the minister of war, today issued the following order to be read at all parade grounds in France: "The Dreyfus incident is a military honor which we respect by all we have given a decision, which was unreservedly accepted, as we shall also the president's act, which was dictated by profound pity. There can be no question of reprisals, on any account whatever. I ask you, and, if necessary, I would order you, to forget the past and think only of the future. Heavily laden with you in the cry: 'Vive l'armee,' which belongs to no party, but to France alone!"

A dispatch from Carpentras, says Dreyfus has arrived there with his brother, and he is stopping at the home of his sister.

NEW YORK, Sept. 21.—It has been understood here in a quiet way for many weeks, that Dreyfus, after his liberation, would come to America. The London Times' announcement this morning is a European echo of this understanding. An almost absolute corroboration of the news is given by a dispatch which was sent to Dreyfus by Congressman Jefferson Levy, of this city, last night. This cablegram invites Dreyfus to make his home, when he arrives in America, at Monticello, Va., the historic home of Thomas Jefferson. Monticello is the summer home of Levy.

### Placer Ground Purchased

LEWISTON, Idaho, Sept. 21.—C. Q. Malloy, of Butte, O., in company with others, has purchased 1,199 acres of old placer ground in Florence basin, Idaho, and will work the entire claim with improved dredging machinery. This is some of the land from which, according to the statements of Wells, Fargo & Co., there was taken \$28,000,000 in gold dust nearly 40 years ago.

### A Convict's Conscience.

JACKSON, Miss., Sept. 21.—Charles O. Sumner, ex-Pinkerton officer and escaped convict, is again behind the bars of the Mississippi penitentiary. He returned from the Klondike and surrendered, because he said his conscience would not let him rest.

He made full restitution to the Southern Express Company, which he robbed at Meridian, Miss., and he also paid the state \$300 for the expense incurred in following him.

### THE FIRST LARGE SALE OF WHEAT

GARFIELD, Wash., Sept. 21.—R. C. McCroskey has made the first large sale of new wheat of the season. He sold to the Pacific Coast Elevator company 2,000 bushels of wheat yesterday. The price paid has not been made public, but a grain dealer who claims to know, told the reporter that the price is between 45 cents and 46 cents per bushel, sacked in the warehouse. Today local dealers are offering 47 cents for No. 1 wheat, sacked in the warehouse, and it is intimated 48 cents can be secured for extra good wheat in large quantities.

### Shot Daughter's Lover.

TEXARKANA, Ark., Sept. 21.—Ben Miller, a railroad man, was shot and probably fatally wounded this afternoon by Carl Winfrey.

Winfrey objected to Miller's attentions to his stepdaughter and forbade him entering the house. This afternoon coming home before his usual hour, he found Miller in the house and shot him. Winfrey is under arrest.

# DEWEY PARADE IS TO BE A MONSTER

## Already 34,000 Men Have Signified Their Desire to Participate.

NEW YORK, Sept. 21.—From now on there will be rapid approach to completion of the preparations for welcoming Admiral Dewey. Gen. John Philip Sousa has consented to lead his famous band as an escort to the men of the Olympia who will head the land parade. Gen. Roosevelt says that there will be at least 34,000 men in line and this number will increase as the day draws near and enthusiasm infects other military organizations the country over. After weeks of incision as to the route of the parade a final determination has been arrived at as the result of the attitude taken by Gen. Roe.

The route of the parade will be from Grant's tomb down Riverside drive to Seventy-second street to Central park, west to Fifty-ninth street, to Fifth avenue by the Dewey colonnade and arch at Twenty-fourth street and straight down Fifth avenue and through the Washington park to Washington park, where the disbandment will take place.

Gen. Rice has reported on the land parade. He figures that 34,000 men will be in line, divided as follows: Navy, 2,000; regulars, 2,000; National Guard State of New York, 15,000; visiting troops, 10,000; G. A. R., 1,500; ex-Federates, 1,000; veterans of the Spanish-American war, 2,500.

F. B. Fancher, governor of North Dakota, through his secretary, has declined the invitation to participate in the reception ceremonies on account of the expected arrival of the Dakota volunteers from Manila about the same time.

Gen. N. A. Miles has written Secretary Warren W. Foster, accepting the mayor's invitation to participate in the reception ceremonies.

Gen. Howard Carroll, in presenting the formal letter of President McKinley, announcing his inability to be present at the reception to Admiral Dewey, stated that the president had told him that as he was commander of the army and navy he would naturally take precedence in military and naval affairs even over Admiral Dewey, so he would stay away.

It was announced that the main pyrotechnic display would be off the battery. Permission to use Governor's island has been obtained and the fireworks committee has also arranged to make a display from Liberty street.

The famous Governor's Horse Guards of Georgia have asked for a place in the parade.

### SEATTLE MINING STOCK MARKET.

At the Seattle Mining exchange today, 2,000 shares of East San Hill went in a block for \$7. Standard was quoted at 45c, but an offer was made to put 1,000 shares in 60 days at 55c.

The merry war between the exchanges still goes on. It developed today that the share in the Seaside stock exchange which sold yesterday was put up again today at the same price. The Northwestern was jumped on still harder. Two shares of that stock, each of the par value of \$10, were offered for sale at \$2 and the other at \$1, but neither received a bid. It was claimed the stock could not be turned over at once, but the offers were viewed with suspicion.

### NORTHWESTERN STOCKS

The Northwestern Mining exchange today did some good business, bidding on some stocks was very low. Sales made were as follows: 1,000 Derby at 18c; 1,000 Keystone at 4c; 10,000 El Dorado at 20c; 200 Mountain Lion at \$1.10; 10,000 Pacific Coast Gold at 15c.

### CITY NEWS.

Alexander Waugh, age eight, died yesterday at Black Diamond. He was a son of Mr. and Mrs. David Waugh.

Elmanson Prutley, the three-month-old son of Mr. and Mrs. Wm. Prutley, died yesterday at the family residence, 108 Fifth avenue south.

Henry Melling, the two-month-old son of Maud Mrs. John Melling, died yesterday at the family residence, 2214 1/2 First avenue.

Geo. Lawrence, who suffered severe injuries while working in a sandpit in the Henry Clay company, near Black Diamond, has commenced suit for \$20,000 damages against the company.

A large sale of water-front property has been made through Crawford & Conover by Thomas Richardson, of Mr. York, to Kelly, Payne & Armstrong.

The teachers of the Seattle high school yesterday afternoon met and passed a set of resolutions upon the death of Prof. E. K. Hill. Prof. Hill, who died in the Assek river wilderness, formerly taught in this school.

The decision to raise the rate from the home-seekers' excursions to the regular passenger tariff on October 1 has been rescinded by the Northern Pacific Canadian Pacific and the Great Northern. This rate was placed last spring at \$25 from St. Paul to Seattle. Returning full fare was charged. These excursions have done much to bring in immigrants from the middle west.

James Coughlin was arrested last night by Officer Stuart for begging. He was fined \$50 and costs by Judge Cann this morning.

The case of G. A. Kelly, accused of being a disorderly person, was reported to the police Tuesday afternoon this morning until September 24.

Stratton & Goetz have petitioned the board of public works for an extension of six days, in which to complete bridge work on Jackson street between Fourth and Fifth avenues south.

The board of education of the city has received directions to vacate the old University building by September 26. The building is owned by the State university, and Dean Condon, of the law department, says that it is the intention to use it in future as a law school. At present the building is used by about 300 students of the city schools. F. R. Barnard, superintendent of city schools, said today that the city pupils would vacate by the 30th.

The mystery surrounding the disappearance of August Bush, who was reported to the police Tuesday afternoon, has been cleared up. The body was found floating face down, in Lake Union this afternoon, near the Western mill. The man, who was about 26 years old, had evidently committed suicide. He has been living in Room 18, McCombs block, corner of Seventh avenue and Pike street.

Two hundred people living north of Lake Union today petitioned the city to extend the supply water main to the city. They express the fear that the plans made in connection with the Cedar river system will absorb the funds, and that they will be shut out for a number of years. The petitioners pray that the terminus, instead of being as now, at Dexter avenue, be along the west side of Lake union to Kilbourne avenue, with a west branch to Ross and toward Ballard and east to Edgewater and Latona.

There is an urgent demand at the city employment office for a large number of able bodied men. The

books at the office show that several hundred are now needed to supply the present demand. Over 300 positions in the city were furnished to applicants yesterday, and the demand from outside the city is increasing daily.

"I can use all the men that apply," said Clerk James this morning. "You will see by the notices posted on the bulletin board that no one need be without employment for a moment."

Star reporter sauntered over to the bulletin board. There was a large crowd of men discussing the main issues of the day, scarcity of work, low wages, etc. Nearly were posted the following notices:

WANTED—100 laborers for railroad work.

WANTED—200 loggers for down-bound points.

WANTED—150 men for work at Palmer cut-off.

With the three above standing notices, day laborers need not be without employment.

Shipping men are looking for a heavy business from the north by the next St. Michael steamer to arrive, the Laurada and Alliance. There will undoubtedly be a big rush out from the Cape Nome district, and the Laurada alone made preparations for carrying about 400 people. The passages accommodations on the Alliance are not very extensive, and many who wish to come out on her will undoubtedly be disappointed. According to the last reports from Cape Nome, fully 1,500 people expect to come out of the inhospitable district this year.

Elwood Harshaur today brought suit against the Port Blakely Mill company in the superior court for \$1,999 damages. Harshaur claims that the company was to ship 12 horses to Skagway for him. A delay was caused and instead of the horses being landed in Alaska on February 22, they did not arrive until March 21, and their value was depreciated.

Edward Blakeley, while in an intoxicated condition early this morning, took two shots at the bar-tender in the Turf saloon on Washington street. No damage was done. Blakeley was locked up.

### Fire at New Albany.

NEW ALBANY, Ind., Sept. 21.—The Jennie DePauw Memorial Methodist church, valued at \$4,000, and six two-story frame tenement houses adjoining owned by the DePauw estate, valued at \$4,000, were destroyed by fire today.

The church was insured for \$1,000 and the buildings for \$2,500. A defective fuse started the fire. The church had just been refurbished at a cost of \$600. The household effects of six families were destroyed.

### FATALITIES AT A HOSPITAL FIRE

NORFOLK, Va., Sept. 21.—St. Vincent's hospital was burned to the ground this morning. One woman perished, a woman patient and an insane man are missing. It is almost certain that their bodies are in the ruins. Loss \$200,000.

Later—Those missing are: Mrs. Margaret McEwen, Mrs. Elizabeth White, Therry Hazenour, Miss Phippen, fireman Thomas Barrett.

From Andro.

STOCKHOLM, Sept. 21.—The Ardenblad says that the Norwegian cutter Martha Larbaek found an anchor buoy marked "Andrew Polar Expedition" north of King Charles Island, September 9.

Denny-Blaine Land Co.  
Dexter Horton Bank Building.

## "BIDDY" BISHOP IN SEATTLE

The presence in this city of G. W. Bishop better known in sporting circles as "Biddy" Bishop, is likely to result in the establishment here of another club devoted to the promotion of pugilism. Bishop claims to have the backing of well known Seattle sporting men, and if he concludes that this is a favorable field, he will arrange for two prize contests here every month.

Bishop is now managing the business affairs of such well known pugilists as the colored water weight Young Peter Jackson; Rufe Turner, who aims to be champion middleweight of the Pacific coast; Nick Hurley, and Jim Jeffords. The latter is now in Denver, training Mysterious Billy Smith. In the latter part of October he will go to New York to box 25 rounds with Gus Ruhfus, before the Lenox club.

Bishop is trying to shape his arrangements so he will not have to go East with Jeffords, but will stay here and make arrangements for Jeffords to meet some local boxer. Jeffords is one of the biggest men in the business, standing 6 feet 1 1/2 inches, and fighting at 205 pounds. He is expected to make a rough house of the local man who goes against him.

Young Peter Jackson is also looking for trouble, and wants to find a local man of 145 pounds. Rufe Turner, who is a brother of the one famous Charles Turner, is also ready for business.

On Nick Burley Mr. Bishop is willing to throw away weight. He is considered one of the best men in the country at 138 pounds, and will not bar a contestant of 175 pounds. He made a reputation for himself by fighting an eight-round draw with Sharkey and a six-round draw with Kid McCoy.

Biddy Bishop is a bright young fellow of 29 years, and has the energy and enterprise to make a go of his new project.

## Union Bakery.

W. I. B. NICHOLS & CO.  
61 and 62 Starr-Boyd Building

## COAL OUTPUT IS HEAVY

Coal mining is receiving a fresh impetus in all the districts of the state. Coal Mine Inspector Owen says the new mines of the Seattle & San Francisco Railway company are being extensively worked. They have three sections in which they have 800 feet of tunnel across two veins, and are starting to cross-cut in No. 4. They are now in 600 feet on the cross-cut tunnel. A 1,000-ton bunkie has been built and a new Robinson engine has been installed. The mine is to operate this winter. The mine is owned by Ohio and Pennsylvania people, who will put their coal on the San Francisco market, running their product over the Palmer cut-off to the Sound.

The old Lawson mine at Black Diamond changed hands last February, being sold by Lawson to the Pacific Coast company, which operates the Black Diamond and Newcastle properties. A new Cupell fan is installed, and the bunkers have been completed. The company is preparing for a good output during the coming winter.

Two mines at Black Diamond had an output of 2,400 tons last month, the largest run in any month in the history of the mine.

## WHEAT GRADE NOT CHANGED

TACOMA, Sept. 21.—These state boards of grain commissioners yesterday confirmed the grades of wheat, barley, oats and rye, made at the 1898 meeting. The board, consisting of W. H. Reed, of Tacoma, D. F. Anderson, of Seattle, and State Grain Inspector George P. Wright, met in the grain inspector's office. The grades established last year gave satisfaction. They will hold good for another year and are as follows: The same conditions applying to both club and bluestem wheat; Choice milling must weigh 60 1/2 pounds to the bushel. No. 1 must conform to the same conditions as choice milling and weigh 58 pounds to the bushel. No. 2 and 3 must weigh 56 and 54 pounds respectively, and conform to the same conditions as the others mentioned, though slightly graduated as to quality, etc. The same grades shall apply to red wheat and Pile. No weights are designated for barley, oats and rye, and the grades show no change from those completed last year. The definition of the words, "or shipping," to No. 1 brewing barley, so as to read: "No. 1 brewing or shipping barley shall be barley free from other grain, heavy, plump, sound, bright and free from broken or skinned grains."

## AN OAKLAND BOY MISSING

The friends and relative of Leonard Edgren, whose home is in Oakland, Cal., are very anxious to ascertain his whereabouts. A telegram from his father, Robert W. Engren, received by the Seattle police last night, states the young man has been in Juneau, Alaska, for some time. He arrived in Seattle September 8, and wired his relatives that he would start for home the following day. No further word has been received, and it is feared he has met with an accident. Whether Edgren had a large sum of money is not known. The telegram contained the following description: Age 19 years, six feet in height, smooth face, blue eyes and curly brown hair. The police are making a thorough search of the city for the missing man.

## Anniversary Celebrated

THE DALLAS, Ore., Sept. 21.—The fortieth anniversary of the founding of the Congregational church at this place was celebrated yesterday. A large number of pioneer members of the church were in attendance, and elaborate and appropriate services were held, in which the history of the church was recalled and its early workers commemorated.

## Inspected the Locks.

PORTLAND, Sept. 21.—The board of United States engineers, who are to report on the advisability of the condemnation and purchase of the canal and locks at the falls of the Willamette, yesterday spent the forenoon at the locks, and with the assistance of the surveys of the property, made by Assistant Engineer Ogden, looked over the ground and works, and familiarized themselves thoroughly with the whole. They will hold a session today to consider their report, which will be prepared and forwarded as practicable.

## BUILDING PERMITS.

Building permits have been issued to A. C. Jackson to build a cottage at 710 Virginia street to cost \$400; Fred Johnson to build a one-story frame residence in Fremont to cost \$700; Mrs. Lucy Young to build a one-story frame residence at Green lake to cost \$500; Fehr-Marven company to build a two-story frame residence at 223 Belmont avenue north to cost \$2,500; Mrs. Augusta Swanson to build a two-story frame residence at 1522 Broadway to cost \$1,700, making a total of \$6,850.

At the Seattle Stock exchange today business was not improved, and no sales were made. San Hill was offered as low as 45c, but only found a 45c bid. Weatherby Bonanza dropped to 15c without any bid.

## To Receive Volunteers.

WASHINGTON, D. C., Sept. 20.—The president will not go to New York to welcome Dewey and each cabinet officer who has been invited will decline.

It is said that official etiquette does not permit these officials to take part in such a demonstration to an officer of the army or navy. Members of the administration are somewhat apart from the common herd. Dewey must pay his respects to the secretary of the navy and the president before any official attentions can be bestowed on him.

According to the present plans, Admiral Dewey will reach Washington just about dark Monday night, October 2. He will be escorted to the reviewing stand at the treasury department, whence he will witness the parade and the illumination of the city. The main feature of the illumination will be red fire. It is planned to have 200 men dressed in white sailors' uniforms and caps stationed along the line of the parade on either side of the street, who will burn torches along the line of march, which will be in a continuous arch of fire. Aerial fireworks will be freely used, while the dome of the capitol will be illuminated in a fitting manner. Whether this will be done by throwing upon it the rays of numerous searchlights or whether it will be lighted up by some other means has not yet been determined, but the result is certain to be obtained.

## To Teach Spanish.

ASTORIA, Sept. 21.—The school board has decided that Spanish shall be taught in the high school in the future if any of the students desire to learn it. It will be optional to take it in place of one of the classics. Principal Payne, of the high school, is a good Spanish scholar.

## Farmer is Appointed.

OLYMPIA, Wash., Sept. 21.—Prof. F. H. Plumb, of North Yakima, has been appointed a member of the state board of education, vice F. A. Bikes, of Colfax, resigned. Prof. Bikes had been elected principal of the city schools of North Yakima, but resigned this position to take charge of a large wheat field in Milton, Ore.

## Smallpox at Salem.

SALEM, Ore., Sept. 21.—A case of supposed smallpox developed in the city here, and as a result, the lodging-house and residence are quarantined tonight. Mrs. William Battersby, who has been employed as a chambermaid in the lodging-house, is the victim. There is a sister one, but over 15 people are imprisoned in the two places, by order of a doctor employed by the health and police committee of the city council.

The local boiler-makers have a grievance, they claim, against the civil service commission. They have petitioned their protest by means of a letter addressed to that body. The matter in question is the riveting of the steel pipe from the Broadway reservoir. City Engineer Thompson placed a Mr. Glenn, from outside the city, in charge of this work. He is not a voter or resident, hence the petition of remonstrance. The civil service commission says that Mr. Thompson made this appointment with their permission, owing to the fact that no other competent man sought the position. On the receipt of the petition, the boiler-makers arranged for an examination for applicants for this job, said examination to take place on October 2. Applicants must register by next Tuesday. According to rule 1, of the civil service commission, the qualifications of residence are waived for this examination, and Mr. Glenn will enter on the same terms as all others.

DETROIT, Sept. 21.—The Sovereign Grand Lodge of Odd Fellows today voted not to admit Indians to the order, and it proposed a reduction in the per diem and mileage allowance.

# PRESIDENT WILL NOT ATTEND RECEPTION

## To be Given Admiral Dewey at New York Owing to Official Etiquette.

WASHINGTON, D. C., Sept. 20.—The president will not go to New York to welcome Dewey and each cabinet officer who has been invited will decline.

It is said that official etiquette does not permit these officials to take part in such a demonstration to an officer of the army or navy. Members of the administration are somewhat apart from the common herd. Dewey must pay his respects to the secretary of the navy and the president before any official attentions can be bestowed on him.

According to the present plans, Admiral Dewey will reach Washington just about dark Monday night, October 2. He will be escorted to the reviewing stand at the treasury department, whence he will witness the parade and the illumination of the city. The main feature of the illumination will be red fire. It is planned to have 200 men dressed in white sailors' uniforms and caps stationed along the line of the parade on either side of the street, who will burn torches along the line of march, which will be in a continuous arch of fire. Aerial fireworks will be freely used, while the dome of the capitol will be illuminated in a fitting manner. Whether this will be done by throwing upon it the rays of numerous searchlights or whether it will be lighted up by some other means has not yet been determined, but the result is certain to be obtained.

ST. LOUIS, Sept. 21.—Gov. Shaw, of Iowa, and Gov. Thomas, of Colorado, and Attorney General Taylor, of Indiana, were not present when the trust conference began its second day's session this morning. It is reported that these gentlemen took offense at the speech of Gov. Bismarck, delivered yesterday.

Today's session was devoted to the consideration of recommendations, and the following was adopted by the conference and will be sent to the governor of every state in the union:

"Resolved, That it is necessary for the states and the nation to enact laws during as criminal the attempt to monopolize or restrain trade, and providing punishment for the violators. Both the individuals of the corporation and the corporation should be punished, the latter by dissolution."

"Resolved, That laws should be also enacted by each state to prevent the entrance of foreign corporations, except on equitable terms with the domestic corporations. All of the capital of the corporations should be fully paid up in cash or property, or the shareholders should be held responsible for twice the face value of the stock."

Beginning with the first Monday in January, the city clerk's office will have use for about 20 registration clerks, and this number will increase as the municipal election approaches. The qualifications are rapid and good penmanship. Examinations for the positions will be conducted by the civil service commission not later than December 15.

Ernest Frank, recorder of Al-Ki lodge No. 7 A. O. U. W. of this city has ascertained that Erik is a member of that order. He communicated with Arthur P. Fisk, of Alliston, Mass., and is now asked for full information in regard to the paralytic case by Chas. E. Tilton, recorder of the A. O. U. W. at Leominster, Mass. Mr. Frank expects that all will be given Fisk by his own lodge in a very short time.

A marriage license has been issued to E. A. Green, of Seattle, and Ada Bell, of Latona.

America's cigarette exports for the Asiatic trade reach billions.

## PERSONAL MENTION

E. A. Sylvester, of Skagway, is at the Butler hotel. Mr. Sylvester was proprietor of the Alaska Searchlight at Juneau, and afterwards at Skagway. He is at present heavily interested in the latter city.

Mrs. W. C. Tuttle, wife of Commissioner Tuttle, of Alaska, left yesterday for Chicago via the Canadian Pacific.

C. J. Steple, district freight and passenger agent for the Rio Grande & Western railway, takes a trip to Whatcom today.

The Great Northern has announced a rate to the Seattle exposition for one fare plus 25 cents. The S. & I. and N. P. states that they will meet this.

London is importing ice from Norway. The regular supply has been exhausted because of the intense heat.
