M' CABE ON GRAFTING

Bishop McCabe, better known as Chaplain McCabe, has a blunt way of saying things that makes for plain understanding.

In a recent interview he is quoted as saying: "Graft is treason—nothing else; treason of the deepest dye. We ought to call it so. It strikes at the vitals of American principles. The man who will graft on the government is worse than the highwayman who will sandbag a man up an alley. I tell you that every business man who is approached by a grafter should have spunk enough to expose him on the instant. For this practice must be stopped at any hazard. If it were left to me I would set up the whipping post. There are some things that need elemental punishment, and this is one of them."

While it may be doubted whether the noted preacher has suggested a remedy that would stop grafting, even were it adopted, which is not at all likely, there is a fine sort of sworn in his denunciation of grafters that rings true.

The grafter is indeed a traitor—and of the meanest kind. He takes advantage of a place, given him by the grace of the people, to rob the people. His philosophy that he is in public position to levy toll on public funds is the philosophy of a traitor. His practice of dividing up or taking money on the side is the practice of a traitor. And, as the bishop says, this grafting strikes at the vitals of American principles. It makes a government of the grafters, by the grafters and for the grafters.

It would surely excite some comment to witness the Honorable Ed Butler, of St. Louis, or the Honorable ex-mayor of Minneapolis tied to a post and given 50 lashes with the cat o' nine tails, but it would not stop the practice of grafting.

MEAD AT VANCOUVER

(Special to The Star.) VANCOUVER, Wash., Oct. 27.—A large crowd turned out last evening to hear A. E. Mead, republican candidate for governor, discuss the issues of the state campaign.

ONE FALSE ALARM

A false alarm was answered by the fire apparatus shortly before 2 o'clock last night. The fog was so thick that it was necessary to take every precaution to prevent accidents at crossings and where the streets were crowded. The alarm was turned in from Fourth avenue and Virginia street. The streets are torn up in that vicinity and this fact made it a difficult matter to get to the box at all.

THREE BOY RUNAWAYS

Three boys who left good homes in Ballard and this city to live in a hovel on the sandspit, were found and arrested yesterday afternoon by Patrolmen Peterson and Keefe. The boys are Johnny Henley and Paul Dowlin, scarcely in their teens, and Percy Church, who claims to be of age. Police Judge George this morning gathered from their tear-stained conversation that they left their homes a week ago and drifted from one place to another until they reached the sandspit.

When the patrolmen entered the shack late yesterday afternoon the boys were endeavoring to cook a rude meal upon a rusty Yukon stove. "Spuds" played an important part in the bill of fare. A number of cheap dime novels with thrilling titles were strewn about the floor, and as for beds the bare floor seemed to have been good enough.

The judge took the youngsters into his private office and after many questions decided that their lesson would be sufficient, and pending their future good behavior, the boys were turned loose. They promised to go home.

About a week ago the boys were seen on Washington street and the patrolman on that beat told them they would have to stay off the streets late at night. How they lived is a mystery to the police.

TUNNEL IS COMPLETED

Excavating crews come together near Seneca street.

The two crews working in the big tunnel the Great Northern is digging under the city met last night, at 11 o'clock, near Seneca street, completing the big boys. The work of digging the tunnel has kept about 1,900 men busy for a year. For the last week the men have been working night and day to complete the task.

TUNNEL IS COMPLETED

It is estimated that in two months more the tunnel will be completed and ready for trains. It will not be used, however, until the new union depot is completed. In point of area this is the largest railroad tunnel in the United States, though two or three others are longer. When finally completed two tracks will run for the entire 5,110 feet of its length.

TUNNEL IS COMPLETED

The point of meeting was directed under the offices of the independent Telephone company.

TUNNEL IS COMPLETED

Two desperate highwaymen, under the cover of the fog of last evening, held up and robbed H. E. King, secretary and treasurer of the Schaack Machine works on West-ern avenue, about 9 o'clock. Patrol-mer Potter was notified of the robbery soon after it occurred, but the men escaped. King lost \$5 and stated that the men were not armed, but that they choked him.

TUNNEL IS COMPLETED

The first man met him at the intersection of Western avenue and University street. At that point the street is very dark. King says he was asked for a match. When he complied he was seized from behind by a second man, who choked him and prevented an outcry while his accomplice went through his pockets. Both men ran rapidly away after securing the money.

Complaints were made that fraudulent certificates had been issued to Chinamen by United States consuls, and that by reason of them the Chinese exclusion act had been evaded in a number of instances.

TUNNEL IS COMPLETED

It is also alleged that army officers in the Philippines had made unfavorable reports of the consular service in China, and that McWade had been severely criticized. There was also talk of excessive fees.

TUNNEL IS COMPLETED

Third Assistant Secretary of State Pierce, who conducted the investigations, satisfied himself that the charges were well founded, and McWade's removal by the president followed. McWade was born in Ireland in 1850. He came to America as a young man and became a newspaper reporter and editor in Philadelphia. He always took a prominent part in Irish affairs, and wrote a biography of Chas. Stewart Parnell. He was appointed consul to Canton in 1900, and in 1902 was raised to the rank of consul general. He has received the decoration of the Order of the Double Dragon.

MORT STEVENS, ALIAS EARL BARRINGTON, GETS FIVE YEARS AT NOME

Mort Stevens, the thief and swindler whom the people of Nome were unfortunate in electing city assessor, has been tried, convicted of embezzlement and sentenced to serve five years in the McNeil's island penitentiary in this state, as well as to pay a fine of \$5,000. The fine will not be paid and will give the defaulter several years more at hard labor.

The news of Stevens conviction comes in a telegram from Nome. It is thought that the convict is being brought down from the north on the steamer Oregon.

Stevens, who is an all-around crook, was in Seattle three years ago and was then known as Earl Barrington. He worked on the local staff of a morning newspaper and left victims in that office when he decamped, leaving numerous unpaid notes endorsed by trusting friends.

Stevens was recently in Fairbanks and is wanted there for grand larceny. He stole some jewelry from a French woman with whom he was living.
