HE WILL WAIT UNTIL MONDAY

Mayor-Elect Moore Declines to Make Any Statement Regarding the Action of Mayor Ballinger in Ordering Out Slot Machines.

"I will assume the office of mayor at noon on Monday next and I will then be prepared to handle any matters properly coming before me."

Beyond this statement Mayor-Elect Moore would say nothing regarding the action of Mayor Ballinger in ordering out, during the last week of his administration, all of the trade slot machines in the city.

Nothing to Say.

Neither did he desire to make any statement regarding his probable action in the matter of permitting the machines to operate during his administration. He would attempt to cross no bridges, he said, until he came to them and he hadn't yet arrived.

Throughout the city, in political and cigar store circles, the impression seems to be general that Mayor Ballinger was induced by persons anxious to embarrass Moore, to order the machines out.

No Urgent Demand.

"It was a matter that Mayor Ballinger could have very well let alone," said one man this morning. "He had only a week longer in office and inasmuch as 'playing back'

was being permitted in many of the cigar stores for some time prior to the promulgation of the order, there was no very urgent demand for immediate action."

The cigar store men are "up in the air." They have, of course, obeyed the order of the mayor and not a slot machine is in operation in Seattle today.

Small Fry Worrying.

Just what they will do in an effort to have them replaced upon the counters they do not know. The big cigar store proprietors are not worrying greatly as they are not as dependent upon the slot machines as are the proprietors of the smaller places that come to them through the operation of the machines.

"We will have to close up," said one of the small fry this morning. "If we are not again permitted to operate the machines."

About Playing Back.

It is understood that the cigar store men are willing in case they are again permitted to put the machines in play to assure the police department that they themselves will see that there is no "playing back." On this understanding the cigar store men profess to believe that they will have the machines back on their counters within a couple of weeks.

MINERS OFFICIALS' TAKEN TO CALDWELL

BOISE, Idaho, March 12.—President Meyer, Secretary Haywood and George A. Pettibone were taken from the penitentiary and removed to the Canyon county jail at Caldwell this morning. The change was made on the demand of the prisoners.

The jail is a small affair and considered unsanitary and unsafe. It has but four cells and now contains 13 prisoners, who are compelled to do their own cooking. Probably the governor will be asked to call the militia to guard the jail.

LOS ANGELES, Cal., March 12.—Six persons were slightly injured in a wreck, as the result of a washout on the Southern Pacific coast line near Burbank at 1:50 o'clock this morning. The entire train, with the exception of the chair car, was derailed.

NOME RATES WILL STAND

FIFTEEN DOLLARS PER TON TO BE BASIS OF RATES DURING COMING SEASON.

The traffic officials of the Nome steamship companies today decided that last season's freight rates, which were on the basis of \$15 per ton landed on the beach, would be the tariff this season.

From present outlook more freight will be handled than ever in the history of the Nome country. There are two great shortages at present in the district. Coal is practically exhausted, with the exception of that owned by the government, and lumber is all out.

Last year only approximately 4,000 tons of coal were shipped to Nome as against 20,000 the previous year. The lumber market was cleaned up by the fire, which occurred just prior to the closing of the season.

There will be many large shipments of machinery this year and operators are already getting rates. At present little interference is feared from outside shipping concerns in the matter of accepting Nome freight, and there is seemingly no possible reason for a break in freight rates.

EXAMINES OIL TRUST

KANSAS CITY, Mo., March 12.—The interstate commerce commission continued its inquiry of freight rates in the oil district today. Witness E. L. Wilhoit, district agent of the Standard Oil company, told how he and others in like positions paid railroad clerks to give details of independent refineries written upon plain paper and unsigned. He said the Standard kept track of every independent shipment from the refinery to a consumer.

The deal is one of the largest yet reported in Denny hill real estate and indicates that the big regrade of the hill will take place in the near future. The lots are technically described as lots 2, 3, 4 and 7, block 45, A. A. Denny's addition.

STRUCK BY AN ENGINE

Mike O'Hara had a narrow escape from being crushed to death under a Northern Pacific engine on the waterfront at the foot of University st. last evening. The engine was backing up and O'Hara failed to notice it in time to succeed in getting off the track.

The man was in the act of jumping his body together with the force of the collision with the locomotive, resulted in his being thrown to one side instead of to the front, in which case he would have been instantly ground to pieces under the wheels.

As quickly as possible the injured man was taken in charge by Officer J. T. Herpinck and sent to the Wayside hospital. His injuries are serious, but not necessarily fatal.
