

SEVENTY-SIX QUAKES HAVE OCCURRED

SCIENTISTS MAY REPORT ON EARTH DISTURBANCES SINCE DECEMBER 3—HURRICANES PREVALENT.

(Seattle Telegram Service.)

WASHINGTON, April 20.—Since December 3 there have been 76 big quakes and as many hurricanes throughout the world. Scientists in the government offices say 40 quakes have occurred in two weeks and 38 per cent of the shocks are being felt within certain belts.

One belt swings roughly east and west through the Mediterranean region, Asia Minor, Caucasus, Himalayas, East Indies, Central America and the West Indies.

The other circle embraces the Pacific Ocean, passing along the Andes to the west coast of North America, then across to Asia and down to New Zealand.

In the former belt there were 55 quakes and in the latter 44 per cent occurred.

WILL START FUND

Richard Saxe Jones, local attorney, in a letter to the health officer today agrees to subscribe \$100 to a fund for a better system of sewage and sanitation in the public schools in the event the board of education feels it cannot devote more money to the project.

He just approves the recommendations of the board of health made some time ago to the board of education regarding the employment of a competent physician as a supervisor of schools. He goes a little further than the board's recommendations and would have a specialist on eye, ear and throat diseases.

He cites an article in the Review of Ethics for April on the same subject.

COULD YOU WALK WITH PRESIDENT ON HIS FAST CLIP TO CHURCH?

HE STEPS OFF THREE-QUARTERS OF A MILE IN 12 MINUTES EASILY—TRY IT ON YOURSELF.

(Seattle Star Exclusive Service.)

WASHINGTON, D. C., April 20.—President Roosevelt always walks to church. He walks briskly. His speed is very close to four miles an hour. The average time consumed by him in going from the gate of the white house to the front door of the church is 13 minutes. When alone—as he is unless one of the little boys accompanies him—he frequently makes the walk in 12 minutes. He has been known to make it in 11 minutes and a fraction.

The distance from the white house to the Grace Memorial (Dutch Reformed) church is a little more than three-quarters of a mile. It takes 1520 of the president's steps, which are rather long. Taking the average step as 2 1/2 feet, the distance is 4050 feet. An even three-quarters of a mile is 3600 feet.

The president never misses church, and he never has been known to ride. Whatever the weather, he may be seen streaking along at about 10:40 a. m. over a regular route, first striking Lafayette square, along Madison place, then along Vermont av. past the Arlington hotel, then into 15th st. straight to P st., on the corner of which the church stands.

He does not wear an overcoat, even on the coldest day of winter. Almost invariably he wears a silk hat. The hat is varied in rainy weather by a slouch.

Three secret service men always accompany the president. One walks on the opposite side of the street, another walks 100 feet behind, and a third may be seen scouting, either ahead or in any direction where his judgment dictates. These men have to keep on the jump to match the president's strenuous pace.

The president always takes off his hat and bows to people met while on these walks. It is proper for all people to bow to the president on such occasions.

Hanford's Addition

The Name Stands for Straight Goods and Honest Value

The Chance of the Year for Home-seekers and Small Investors

Hanford's Addition was planned 25 years ago by the Hanfords, one of the good old pioneer families. The name stands for honesty and high achievement. Hanford's Addition is a part of their old donation claim. It is the choicest kind of property, or it would not have been acquired by the Hanfords. It is right and straight in every detail, or it would not be Hanford property. This applies to the title as well, which is absolutely free of the slightest imperfection, for the Hanfords number among their members able lawyers and distinguished jurists.

It is right in the midst of the location enjoying the greatest activity of any section of the city at this time.

For the homeseeker it is ideal—a few minutes from the business center, beautifully situated and commanding a pleasing view.

For the investor it is the best thing possible. Prices are way down, \$800, \$900 and \$1,000, on terms of \$200 cash and \$20 a month. Make it your business to have some one from our office show you this property before another day passes.
