

FACED DEATH

SAN FRANCISCO, April 26.—According to a confession made by

H. Shockley to the police last night an alleged conspiracy had existed here for some weeks to kidnap and murder P. H. McCarthy, president of the Bu...ng Trades Council and one of the labor leaders.

McCarthy expelled Electrical union No. 4 from the council because the members would not return to work during the last labor flurry. For this reason, according to the alleged confession he was slated to be killed.

Shockley implicated six members of the Electrical union. Three have been arrested. According to Shockley, McCarthy was to be spirited away from his house, taken to an empty building and killed, his body then to have been thrown into the water.

WEST SEATTLE BARGAIN

Two lots on Vashon Ave., 2 blocks from school and car line; view of sound; fine location for home; convenient to city by ferry or street car. Cheaper than anything in the vicinity.

PRICE, \$950.

It takes \$725 cash, but it's a snap. Address owner, Room 208 Barker Hotel.

The Man With Small Capital

As a rule does not have an equal chance or show with the man of large means.

Here's a case, however, where \$100 will make as large a percentage as \$10,000, and give you an equal interest and ownership in the best real estate proposition in the whole Northwest.

Surely you could not ask for better than 50 to 100 per cent. profit in a few months' time, with no risk attached to the investment!

Yet that is what is being offered by the Olympic Investment Company's Certificate of Ownership plan of selling the finest view addition to West Seattle—whereby \$25 cash and twelve monthly payments of \$6.25 makes you an equal partner in the profits of the whole transaction.

You also get many special privileges and advantages that need to be explained in detail.

Investigation costs you nothing and may be the stepping stone you have been looking for.

—you'll surely enjoy a visit to this store some Saturday evening—come in and look around and better understand the importance of this store to you—welcome.

now a little talk with you—

why our credit-giving plan is so popular

—because we make it the great feature of our business. We make a study of the requirements of the home furnisher and extend such terms as can be taken care of without inconvenience—in the easiest possible way.

—because we extend credit here willingly, gladly, with no annoying features, in a pleasant, simple, an easy and as well a dignified way.

—because we have confidence in the home furnisher and know that "his word is as good as a government bond," and welcome him to credit in the way he wishes it.

—because we absolutely make no price advances in any way whatever—the person buying for credit pays no more than the cash purchaser, and no interest is charged on deferred payments.

—we know our credit-giving plan will appeal to YOU as it has done and we doing to hundreds of others.

—always welcome.
