MISS MORTON DENIES TIMES STORY

TACOMA, Aug. 28.—Miss Marian Morton has issued the following statement: "In justice to Mr. Will H. Thompson and family I wish to deny the article published in the Seattle Times of the 26th inst., referring to alleged persecutions of myself by Chester Thompson. He did not hold any such conversation as stated in the Times over the telephone. I am also at a loss to know where the Times secured my photograph from which they made the cut appearing in its columns. MISS MARIAN MORTON, 924 South G. St., Tacoma, Wash."

CHESTER SUPPORTS HIMSELF

Chester is living quietly at Tacoma with one of the best families there. He is employed by the Tacoma News, and is also given work by the photographic supply houses developing photographs. In this way he is supporting himself honestly. "It is his constant effort to avoid any act which might embarrass Mrs. Emory, Miss Whittlesey or any one else with whom he has been in any way connected. His sole desire is to be left alone and given an opportunity of making something out of his life. But, in the face of such malicious hounding as the Times has been guilty of, it is hard for him to get a start. "He would like to leave Tacoma, but at present it seems the only place where he can support himself. We cannot insist that he leave the state when he has not money enough to pay car fare, to say nothing of any to give him a start in a new community. "But the promise that Chester will leave the state will be kept just as soon as it is possible for him to leave with a fair show for a useful life somewhere else."

MERTON STORY FALSE

The story of his telephone conversation with Miss Marion Morton of Tacoma, published in the Times of August 26, is just as baseless and malicious, as proven by a letter written to me by Miss Morton, who denies that any such conversation took place and speaks of Chester, whom she knows, in the highest terms. "The letter, which Chester wrote to Mr. Blithen, foolishly, I think, was also the result of the hounding of the Times. Chester tells me that he wrote the letter as a personal communication to Mr. Blithen and had no idea that it would be published. It was not meant as a defiance of public opinion, but was written merely to inform Mr. Blithen why it was that he had not left the state. He felt so hurt at the attacks of the paper that he was goaded into replying personally to Mr. Blithen, but not to public opinion. "Chester Supports Himself. "Chester is living quietly at Tacoma with one of the best families there. He is employed by the Tacoma News, and is also given work by the photographic supply houses developing photographs. In this way he is supporting himself honestly.
