GRAND RAPIDS BOXER ASPIRES TO HONORS.

ALFRED KUBIAK.
GRAND RAPIDS, Mich., Jan. 2.—One of the men who aspire to be heavyweight champion of the world is Albert Kubiak, the Grand Rapids expoliceman who sprang into the limelight in Philadelphia by beating several heavyweights of average ability. As the next stepping stone Kubiak expects to fight Jack O'Brien.

Kubiak's rise to a point where he may ask heavyweights of more

WILL HE LEAD SOX IN PLACE OF JONES?

BILLY SULLIVAN.

CHICAGO, Jan. 4.—Should Fielder Jones decide that his oil wells and the money he has piled up since he entered big league baseball will keep the wolf from the door for the rest of his days, it is probable Charley Comiskey will appoint Billy Sullivan manager of the White Sox next season.

Sullivan is one of the brightest stars in baseball. Admittedly the greatest backstop in the American league, he showed that he was the equal, if not the superior, of John Kling in the championship series three years ago, when his wonderful backstopping practically won the title for the American league team from the Cubs.

A strategist of the first quality, Sullivan possesses every requisite that goes to make up a leader. He is popular with the players, who have petitioned Comiskey to make him manager should Jones really quit the game.

than ordinary ability to meet him was sudden. Born and raised in Grand Rapids, he joined the police force when he had reached his majority, but became dissatisfied with a police judge's decision in a case and left the force. As he had been somewhat of a wrestler, he took to the mat game, making a creditable record.

Gradually he fell into the fighting game and went to Philadelphia, where he beat Fred Bradley, George Gonsler and Jim Stewart, and fought no decision bouts with Jack O'Brien and John Wille.

Game for W. S. C.
PULLMAN, Jan. 4.—Manager Holcomb of the Washington State college basketball team is negotiating with Manager Hahn of the Los Angeles Athletic club quintet for a game here soon.

NEW AIRSHIP READY FOR TEST

Pacific Coast Inventor Believes He Has Eliminated the "Running Start"

KASBER AND THE ZEPPELIN AIRCRAFT.

LOS ANGELES, Jan. 4.—By U. P.—Prof. J. S. Zerbe of this city is preparing for a test flight of a new aeroplane which, he declares, will make a record never approached before. The aeroplane is ready for the test at Bimini baths except for a higher gear to connect the engine with the wheels that run the big propeller.

The aeroplane which Zerbe has just completed, after five months of labor, is a new type in that the fan, or propeller, is in front and the machine is expected to raise itself without the "running start." There is an air surface of 500 square feet and the weight of the aeroplane is 500 pounds. The power will be supplied by an eight-cylinder, 40-horsepower engine. When the engine is set in motion it causes the fan to revolve, throwing a powerful air current back upon the 12 planes, which are horizontally placed.

Something Is Greater Than Nothing

Some people hesitate to begin saving because they feel they could save only a little and it wouldn't be "worth while." A wrong idea.

No matter how small your savings they are something—and something is vastly greater than nothing. The moment you begin to save something you are rich as compared with the time when you saved nothing.

One little try-out of the Savings Habit will convince you of the wisdom of it—for the small sums as well as the large sums. This bank invites small deposits; it welcomes accounts as low as \$1.00. It is everybody's small deposits that make the bank's big total; your steady savings of a little on every payday will in time make a big total for yourself.

No doubt about it. Right here in this bank we have watched many a savings account grow large from very small beginnings.
