INDIANS OPEN UP BY KILLING BALL

The Indians used their war clubs on Little Rock Allen yesterday, and when the fight was called off they were on the short end of a 9 to 5 score.

The Indians came through with a grand total of 15 hits, two of which were home runs. In addition to Allen's awful lugging, Mike's men, with the exception of Capron, Custer and Allen butted into the error column.

Every man jack of the invading horde pinked Allen for one or more safe awakes. Dode Brinker and Stevens took kindly to Allen's slants and each drew down three safeties.

Jensen, the opposing southpaw, lifted the ball over the fence with two on. The fatalities follow:

TACOMA MARATHON AN ASSURED SUCCESS SAYS ITS PROMOTER

Wallace MacDougall, promoter of the Tacoma Marathon race, is to run a week from today in the hall park at this city, is having trouble of his own; at least several runners have each done far better than he himself; more reputations than good sense imagine they are making trouble for him.

Arthur Burn, the Calgary runner, and Con Connolly of San Francisco have each wired him asking \$500 flat to participate in the race, win or lose.

MacDougall says he will simply laugh at these offers, and let the boys come to themselves. Neither Burn nor Connolly, while both are fair runners, has the reputation that makes it necessary to have him as a drawing card in the event, as there are at least two men entered that can and have done better time over the classic course than either of them.

Will Stanley and Con Hubbenets have each done far better than either Burn or Connolly, and have beaten men whom these fellows have lost to. MacDougall thinks that they will come around after they see that the bluff will not work. If they do not, he has plenty of entries already to insure success.

And the most unkindest cut of all happened when Sid Wheeler Jensen swatted one over the right barricade with two on.

Bill Lange is to play again

(By United Press.)

SAN FRANCISCO, June 29.—Big Bill Lange, known for a decade to followers of baseball in the big brush as "Little Eva," has consented once more to don a uniform and chase flies in the outfield. After refusing an untold number of offers to return to eastern fields, Bill has decided to get back into the game right here on the coast, and when the crack Transportation club teams leave Saturday for Yosemite for a series with Major Benson's soldier team, Lange will be among the boys, with his uniform checked in the baggage car ahead.

Ten years ago, while with Pop Anson's Chicago Nationals, Lange was the sensation of the baseball world. The big fellow was a demon ash-welder and was the peer of any living outfielder in patrolling his garden. Bill's girl has increased perceptibly since his halcyon days, and a special uniform is being prepared for him.

STRAIGHT DOPE FROM FIGHT FOLLOWERS

SAN FRANCISCO, June 29.—If nothing more was proven by the invasion of the Eastern so-called crackjacks than the fact that the native boys outclass them in every department of the game, the fight fans got their money's worth.

In Ernie the public was frosted with the biggest bank ever put over. Cross proved a different customer, as he had everything. For 41 rounds he stood a beating that would have made a less lion-hearted scrapper quit cold.

The strange part about the affair found the Easterners of unknown ability on the coast forced into favoritism. Local followers of the game did not pass up the chances of the natives, but such a wad of money was sent from the East that it was necessary to cut the price to meet the demand. Even at that Powell went begging 3 to 1. Poolrooms had a barrel of Ernie money, but few backers of Powell could be found.

Cross was backed with the same confidence, until he, too, was made a 9-10 choice over Hyland.

By reason of his victory over

the fans were dumb with amazement. A score was added to the Indians' collection because of the muff.

I wonder what the Indians will do to Gus Thompson. It's a cinch he will have to pitch his pretiest.

Dode Brinker, the Seattle boy who is playing center for Spokane, is at the head of the batting list. Dode, despite his size, is mighty fleet of foot and with the club he is a dangerous man all the time.

Stevens took an especial liking to Allen's offerings yesterday. A homer and two singles comprised his pluckings.

A lot of pepper was displayed by the fans yesterday. The Indians had a lot of roasters in the stand, and the festive retort was bandied on several occasions.

No one knew what Postmaster George Russell thought of the carriage, for he hurried from the grandstand when the curtain was lowered. It is rumored, however, that George was peeved.

Although George Capron dislikes to work against side wheelers, he succeeded in snatching two safeties from Jensen yesterday.

Lee Magee was on hand with a healthy two bagger yesterday, which figured in the run getting. Lee's larrup sent the ball against the left boards with a bang.

Only six men were struck out by Allen and Jensen combined. That just about gives some idea of the hitting which was recorded.

RACING SHELL TURNS TURTLE IN A STORM

(By United Press.)

POUGHKEEPSIE, N. Y., June 29.—A terrific rain storm swamped the shell of the Syracuse four-oared crew during practice today and compelled the occupants to swim. All were rescued by the coaching launch. The water-logged shell was finally towed ashore.

LOCAL RACES PROMISE TO BE GOOD SPORT

The track and stables at the Western Washington fair grounds, on East Madison st., present a scene of great activity these bright, cool mornings, while the harness and running horses are having their daily workouts in preparation for the exhibition meeting, which opens next Thursday. The track is getting in better shape every day and both running and harness horses are making fast trials that promise speedy racing and close finishes next week.

The association, while devoted mainly to the furtherance of harness racing, decided to include the drivers program in order to please lovers of both classes of the sport.

It has been announced by the management that in addition to the regular professional races a number of special events will be provided to be driven by local members of the Seattle Speedway club. These events will be for cups and other trophies offered by the association, and it is the intention to arrange at least one big inter-city amateur race in which the riding and driving clubs of Portland, Tacoma, Vancouver and Victoria have been invited to participate.

The Portland Hunt club has also been invited to make entries for the hurdle race, open to members of recognized hunt or paper chase clubs. Other special features will be added to the program from day to day.

LOCAL WRESTLER IS LOOKING FOR MATCH

Bruce Ashmon, a wrestler who hails from Cle Elum, is in Seattle looking for any old kind of a match in the 135-pound class.

Ashmon is a husky young coal miner and is built from the ground up. He has had some experience in various towns along the Coast, and comes to Seattle in hopes of getting a go with Virgil Venabla. He is, however, open to challenges from any man in his class.

Through their assistant manager the Ford company late today filed a protest against the Shawmut car.

E. H. Chapin of the Shawmut car crew swore this afternoon that the Shawmut car was held up and forcibly prevented from crossing the bridge at Fort Steele, Wyo., by a man named Hendy, agent of the Ford company. He said Hendy was accompanied by an armed guard, who said to Hendy's second, "This delayed the Shawmut car more than 16 hours. The Shawmut lost the race by about 17 hours. The station agent at Fort Steele said he could not understand why the bridge was closed to the Shawmut, as it had never been closed to any automobile before."

At the hearing this afternoon of the protest of the Shawmut company against the awarding of the prize to Ford car, 3 in the ocean-to-ocean race for the Guggenheim trophy and prize, Josiah Collins, named by the Automobile Club of America as its representative, presented the findings of himself and Mr. Robert Guggenheim residing in Kansas City, Mo., 2 car. They found that the axles of all the machines, including the Shawmut, were stamped alike, but the stamp differed slightly from the diagram of the original seal received from New York. As all are alike it is believed that the discrepancy in the diagram, as it is a copy of the original seal.

T. A. Pottingill, driver of the Shawmut car, then took the stand, and testified that the Ford car, 3 left New York with a black axle, that in Kansas City he noticed that it had a white axle, which is at the exposition grounds now has a black axle.

SOUTH PARK TEAM IS VICTOR OVER ISSAQUAH

The South Park Iroquois made it 14 won out of 15 played when they defeated the Issaquah on the home grounds yesterday, 8-4. The Iroquois are loud in their praises of the treatment accorded them, and state that it was the best over. The features of the game were the work of Williams and Thompson in doubles, and the batting of Kellogg, first baseman, who got 4 hits in as many whirrs. The Iroquois are looking for games outside of town July 4 and 5, and managers should call phone MA 5813 or write Manager Wolff, 5225 Dalles av., Station 8.
