

CENSUS WILL SHOW 300,000; WORK PROCEEDING RAPIDLY

TYPICAL PICTURE, SHOWING CENSUS MAN AT WORK, TAKING NAMES.

As a result of the efficient manner in which Director of the Census Hill has gone about his work, and due also to a great extent to the assistance afforded by the civic census bureau, the count of noses in Seattle is progressing with utmost rapidity and thoroughness. The indications are now that the census will show 300,000 people living in Seattle, but it is important that every one be counted. If you haven't any civic census blanks be sure and get one for each member of the family. Fill it out carefully and then place it in an envelope and hold for the official enumer-

LONDON GAMBLING ON RAW RUBBER

(By United Press.) LONDON, April 21.—Rubber gambling is tightening its hold on London. Raw rubber is selling at 12 shillings 10 pence (\$3.08) a pound for manies and purposes. The steady rise of prices to this unprecedented figure accounts for the prevailing mania. Certain authorities hold that a collapse need not be feared at present because the supply of rubber is below the demand. Others are convinced that the upward movement has nearly reached its height, and that a disastrous reaction is about to begin. A large part of the dealing is on the deferred payment plan, and contingent liabilities of the new rubber companies are estimated at \$2,000,000 pounds. When hard cash is demanded for fancy premiums, many expect trouble to develop on a scale hitherto unknown in history. The commercial boom is attended with riotous gambling. Sensational stories are current that revelations may be made at special settlements.

Soldier Boys Will Dance. The soldier boys will dance. Yes, and they will show out. Buttons and belt buckles will be polished.

Oh, yes, this grand review and military ball which will be given by the Seattle members of the National Guard at the Armory Friday night, April 23, will be some brilliant doings. White Wagner's band plays tripping music, beautiful women, brilliantly bejeweled and handsomely gowned in silks and satins, will vie for attention with men in gorgeous, bright uniforms, gold lace and dinky little swords.

New Improvement Club. Residents of East Ravenna park, Yesler, Laurelhurst and Pontiac, all situated in the northwestern part of the city, met and formed the Mamute Improvement club last night. The object of the club is primarily to secure good roads and to bring about improvements and better conditions generally in that section.

WILL LAY CORNER STONE AT MONROE

The board of managers of the state reformatory at Monroe met in Seattle yesterday and completed arrangements for a corner stone laying at Monroe May 28, which will formally inaugurate \$175,000 in improvements that have been started there. The managers have \$250,000 appropriated by the last legislature. Besides the board of managers, which includes Corwin S. Shank, Frank Jackson, M. A. Langhorne of Tacoma, Fred Reeves, Wenatchee, and C. B. Roe, several prominent men of the state will be present to give the Masonic ritual.

Teamsters Will Help. The Teamsters' union will back and aid and assist in every way possible the work horse parade which will be held July 4. "Three thousand teams will be in line," said F. E. Mills, at the meeting of the local union last night, "and we want to help the parade in every way." The union adopted resolutions giving the parade its unqualified endorsement.

FLORIDA, Fla.—S. G. Fromch, the chief living Confederate general, died here today, aged 52. Will pay cash or trade for second-hand bicycles. A. L. Hall, 1111 First av.

FURNITURE DRY GOODS **FREDERICK & NELSON, Inc.** Store Closes Daily at 5:30. **FURNITURE DRY GOODS**

Important Values in Tailored Suits at, Special, \$25.00

THIS timely special offering features a number of the season's most favored models in Tailored Suits at an unusually interesting figure. Every garment in the collection is marked by a distinctly high order of design and tailoring, and the materials and colorings are those in popular demand. The leading characteristics of the offering are briefly summarized below:

THE STYLES—The Coats are semi-fitting, 32 to 36 inches long, lined with good quality messaline. Some are severely tailored, others have shawl collar and fancy cuffs, and are finished with silk moire, narrow braid trimmings and buttons. Skirts are the popular plaited models.

THE MATERIALS—Good quality plain and diagonal serges, and smart novelty suitings, including shepherd's check effects.

THE COLORINGS—Gray, Tan, Reseda, Navy, Delft-Blue, Black and Wistaria.

Values of superior merit are apparent at, special, \$25.00.

Many new arrivals in the various lines of Women's Ready-to-Wear are in evidence, including Long Coats in shepherd's plaid and navy serge; Long Coats of natural pongee; Long Coats of Tussah silk; also new models in White Serge Tailored Suits.

Taffeta Silk Petticoats Specially Priced at \$4.50

The Petticoats involved are made of extra-heavy taffeta silk in a broad range of light and dark colors, attractive Dresden designs, and also in stylish black-and-white and blue-and-white one-inch checks.

These have deep tucked flounces, some strictly tailored, some trimmed with tucking and self bands, others strapped and plaited. Exceptional values are represented at, special, \$4.50.

TALKS ON TEETH
By the REGAL DENTISTS

His Teeth "Best Ever"

Every day adds some measure of fame to our method of restoring teeth without plates—and without pain. In a letter recently received from a patient, Mr. W. A. Jordan, formerly of Georgetown, but now living in Aberdeen, he pays a high tribute to the merits of this plan of restoring teeth.

"Gentlemen—I am very much pleased with the full set of teeth which your company prepared for me. At present I am able to eat any kind of food as easily as at any period of my life. Thanking you for this happy condition, I am, Yours truly, W. A. JORDAN."

There are some teeth that are very poor in the beginning—hardly worth the growing—and we wonder why Nature has been so unkind to the poor victim. She does not always do a good job, while, on the other hand, she will make a set of teeth that will be so perfect and beautiful that the fortunate owner is the recipient of congratulations during the whole of his or her life.

Mr. Jordan claims that with Our Method Teeth which we supplied for him, he can eat his food as easily as when he had his own teeth, then, must be better than the originals, because they went bad on him. He that as it may, we are constantly supplying teeth to those who have lost theirs through disease or ignorant dentistry, which rival the best that Nature has ever supplied, and which it is almost impossible to tell from natural teeth.

They are not only a comfort, but an asset of great value, as they improve the looks, and so make for success. The process of putting in these teeth calls for no boring or cutting into the gums, no surgery of any kind whatsoever; there is practically no pain or discomfort about the work from start to finish, and then when it is completed we tell our patients to go forth and use these teeth without fear or favor, exactly as they would use a perfect set of natural teeth—"Fletcherize" with them, and subject them to the hardest kind of use—but not to abuse. If your teeth need attention, or if many of them are missing, you need our services. This work is not to be had outside of our offices—there is nothing "just as good" or equal to it.

Therefore, beware of substitutes, which make extravagant claims which cannot be kept. We make a free examination of your mouth and will tell you exactly what the work will cost and how long it will take upon your first visit. We give a written guarantee with all work.
