

STAGE COUPLE, MARRIED HAPPILY FOR 17 LONG YEARS, TELL THE SECRET OF WEDDED HAPPINESS—CONSIDERATION

Perkins Fisher and Wife, Vaudeville People, Explain How They've Succeeded.

BY MARION LOWE.

And now comes a couple of stage people who have been married—and happily married—for 17 years. "What is the secret of married happiness?" I asked Mr. and Mrs. Perkins Fisher, in their dressing room at the Majestic.

MR. AND MRS. PERKINS FISHER

"We have always done as we pleased," smiled Mrs. Fisher, "and it comes, we have pleased to please each other. Too many people think we or the other must always 'give in' that if they don't want to do the same thing, one must do what the other wants. We don't think so. If one personal plan or pleasure does not coincide, we go our separate ways, and it isn't serious, either. Nobody's heart is broken; nobody's unhappy."

"You see," started in Mr. Fisher, "to be drawn a breath to catch up, but that was where he lost out. "You," smiled on Mrs. Fisher, "we always agree on things that are important. We enjoy the same things, our tastes are very similar. We are both domestic, and both like outdoor pleasures."

He Starts Again.

"You see," started in Mr. Fisher again. "There's everything in learning to know each other," went on Mrs. Fisher. "You learn what to avoid and what not to avoid when you live with people. Too many married people don't try to learn each other and that's the cause of so many divorces. We enjoy each other more all the time."

"How do you know when it's the right one?"

And this is where Mr. Perkins Fisher got in.

Perkins Gets In.

"My mother's hired girl had the ugliest beau that ever lived," said "Perky," and mother said, "Hannah, how can you love that homely man?" "Oh, Mrs. Fisher," said Hannah, "if you could only see him through my eyes. And that's what it is," laughed "Perky." "It's 'seeing through my eyes.'"

Mr. Perkins Fisher, who had been wiggling around on one foot and smiling while his charming wife told all about it, now had the floor, and kept it.

Get His Orders.

"Oh, now, 'Perky,' you know all I say. Don't you think it's time to go to bed?" or something like that.

"Yes," said "Perky," "it's all right. When I start out in the evening, wife doesn't say, 'Now, come home early. She knows I may meet old

friends, and it wouldn't be polite to shake 'em. Maybe I have gone out to get a lunch to bring home, and instead of getting back at 11, I don't get home until 2, but I know it'll be all right. She'll be asleep, and not waiting for me at the head of the stairs.

"When you get the right one it sticks," called "Perky," who, with Mrs. Perkins, had followed me to the door.

King Cotton to Rule Bakery, Usurping Wheat King's Throne?

Texas Man Invents Process for Making Cottonseed Flour—Cottonseed Bread and Cakes Prove Toothsome and Nutritious—Cost of Producing the Flour Less Than Cost of Wheat Flour.

SOME COMPARISONS		
Foods.	Composition.	
	Protein.	Fats. Nitrogen.
Cottonseed flour	48.25	12.16 22.85
Wheat flour	11.69	8.60
Rice	8.00	0.30 79.00

DALLAS, Tex., June 10.—Unless King Wheat looks to his laurels he will be overcome and subdued by King Cotton, is the confident prediction of Jos. W. Allison, of Ennis, Tex., who is manufacturing and distributing cottonseed flour as a substitute for wheat flour.

Mrs. Dan McCarty, a bake shop proprietress of Ennis, is assisting in the practical demonstration of the new food product, and for more than a year has been selling cotton flour bread, cakes, ginger snaps, and many other tasty products of the oven. So successful have been her demonstrations that a large portion of the population of Ennis now has given up the use of wheat flour entirely.

Made Same as Wheat Flour.

Allison's experiments have attracted the attention of food and dietetic experts throughout the South. Cottonseed meal has long been used as food for cattle and horses, and has been recognized as

being rich in nutritive elements. Allison's process reduces the meal to flour in much the same manner as wheat flour is made, by screening and bolting it. Results of tests made by State Chemist G. S. Fraps show that cottonseed flour contains more than twice as much protein as wheat flour.

Over four times as much protein as eggs and about the same quantity of fat.

Over four times as much protein as wheat flour.

He declares that it is highly probable that the protein and fat of cottonseed flour have a high digestibility for man and that bread and cakes made with it are wholesome and desirable as food.

Some difference of opinion exists among chemists who have studied the new product. Prof. H. W. Harper, of the state university, recommends a long dietary test of cottonseed flour before it is ranked with wheat flour as a general food. He says that although analysis shows it to be high in nutritive value, the exact character of the nitrogenous compounds in it has not yet been determined, and some of these, he cautions, are insidious poisons.

Mrs. McCarty, who baked the first cotton flour bread, thus describes it: Substitute for Meat.

"The bread looks very much like whole wheat or brown bread. It is rich and sweet and has a heavy crust similar to graham bread. The ginger snaps I bake are crisp and snappy, the pudding and fruit cakes very rich in flavor. Both the bread and cake are heavier than wheat flour products, but they are not soggy."

Being rich in protein, the cotton flour's chief advantage as a food, according to the experimenters, is as a substitute for meats. Present diet depends very largely upon meats to supply proteins, but with the cotton flour bread meat could be largely dispensed with if desired.

Here is Mrs. McCarty's recipe for cotton flour bread: Three cups cottonseed flour. One cup wheat flour. One cup molasses. One teaspoonful soda. One and one-half pints sour milk. Dissolve soda in hot water, stir this into the sour milk, add the molasses, pour all onto the flour and salt and beat well. Put in four molds, holding a pint each, steam four hours, then put in oven without top, 20 minutes to dry out. Note: The wheat flour is necessary, Mrs. McCarty says, to make the cottonseed flour stick together.

GILL WILL FIGHT MUSEUM PLAN

Despite the arguments made by John P. Hartman and others in favor of giving the Museum of Arts and Sciences a site for a building in Denny park, Mayor Gill yesterday stated that he was more than ever determined to veto the ordinance which if signed would give the museum a lease on the site named. He suggested to Hartman and the others of the delegation that they go to the park board and get it to buy them a site.

HERE'S DEADLY DUEL—ALMOST

(By United Press.) HAVANA, June 10.—Francisco Martinez, chief of police, and Col. Manuel Aranda are suffering from wounds today as a result of a duel fought with swords. Enmity has existed between the men for some time, arising from charges of police corruption made by Col. Aranda. Chief Martinez has been suspended from duty pending an investigation of the duel.

COURT TO PASS ON FIVE-CENT FARE SUIT

On June 24 the Seattle, Renton & Southern railway must appear before Judge Gilliam and show legal cause for charging more than five cents fare within the city limits.

J. A. Denison, who brings the action, charges that although Taylor's Mill is now within the city limits, the street car company compels him to pay a 10-cent fare to reach it. A 5-cent fare is charged to Orchard Beach and an additional 5 cents to Taylor's Mill, two miles beyond the last named place. On the return to the city the same fare is charged.

The city contends that under the franchise the company can only charge a 5-cent fare for continuous passage between any two points within the city limits. The city also contends that although the city's boundaries have been extended since the granting of the franchise, the 5-cent fare provision still controls.

TEN NURSES TO GRADUATE TONIGHT

Ten young women will be graduated from the nurses' training school of the Seattle General hospital this evening, and diplomas for the completion of a three-year course will be granted to the following: Ella May Armstrong, Margaret Moffat Crozier, Elizabeth Dahlgren, Hortense Eugenia Marlon, Charlotte Melown, Mary Elizabeth McKay, Paula Hubbert, Helen Nelson, Marynah Thompson, Mary Isobel Wilson. Dr. Benjamin Young of Portland will deliver the commencement address at the exercises to be held at 8 o'clock at the First Methodist Episcopal church, Fifth av. and Marion st.

FRINK DENIES UNION CLAIMS

Francis G. Frink, secretary of the Washington Iron Works, has issued a statement denying the claims made by William Hannon, vice president of the Machinists' International union, regarding the extent and seriousness of the machinists' strike in Seattle. Frink declares that the statement that 175 machinists have gone out and that 19 shops have given in to the demand for an eight-hour day is exaggerated. The work day is nine and ten hours in machinery shops in the east, he says.

IOWA GOVERNOR TO BE STANDPATTER

(By United Press.) DES MOINES, Iowa, June 10.—Governor B. F. Carroll will be renominated by a majority of 2,500 over his opponent, Warren Garret, progressive republican, according to returns from 86 counties. The standpatters claim they will control the state convention by a majority of 150 delegates. The progressives assert that they will control the convention by 100.
