Otis Brave Soldier, But Worst Hated Man in the State of California

Twice breveted for meritorious service in the United States army, General Harrison Gray Otis, owner of the Los Angeles Times, carried his military tactics into a bitter fight against organized labor in Los Angeles, and was the most hated man in the Southern California. When the Times was established, 24 years ago, Gen. Otis, with bitterness against organized labor, refused to recognize it in his office, with the result that he started his own school to teach newspaper mechanics, and soon was established a Times "union" to fight the regular typographical union.

WAPPY OFFERED TO SHARE GRAFT WITH ME—THOMPSON

Col. H. H. (Jack) Thompson has openly accused Chief of Police Wappenstein with admitting that he took graft money from gambling houses and dives. Col. Thompson says that Wappenstein tried to induce him to enter into the Wappenstein combination, and to stop fighting the plans of the vice syndicate. Col. Thompson says he will go before any investigating committee and swear to his charges.

NON-UNION MEN QUIT MORANS HILLMAN SUIT THROWN OUT

Between 40 and 50 non-union men employed by the Moran company went on a strike for higher wages this morning. The men were working on the Puebla on the Hefferan dry dock. They were getting \$3.50 and \$4 a day for eight hours work. The demand was refused and the men all quit work. Striking machinists who are making a fight on the Morans consider this a big victory, as most of the non-union strikers were brought to Seattle at great expense by the Metal Trades association, for the purpose of breaking the machinists' strike.

DO YOU KNOW?

That John Sullivan, who is defending Juan Fiald, accused of murder in the first degree, used to be a postoffice clerk? That A. M. Harris, who was secretary of the John F. Murphy club in a Revolutionary soldier. In June, 1861 he enlisted as a private in the 12th Ohio infantry and was rapidly promoted. He was twice wounded and was breveted lieutenant-colonel. After the war Gen. Otis was official reporter of the Ohio house of representatives, foreman of the government printing office, chief of the division of the United States patent office, and special agent of the United States at the Seal Islands in Alaska. He established the Los Angeles Times 24 years ago. During the Philippine war he commanded a brigade of the Eighth army corps and led the brigade in the capture of Calocan, February 10, 1899, for which he was breveted major-general. CONDEMNED FOR SLAYING BABE HE NEVER SAW

(By United Press.) BARRIE, Ont., Oct. 1.—To be hanged on December 14, was the sentence pronounced by Justice Britton on both Mary Dolan and Thomas McNulty, convicted of murdering their illegitimate child and throwing the body into the water. It is a sentence without precedent in the annals of Canadian criminal justice, inasmuch as the male prisoner never saw, much less laid hands on, the babe he is condemned to die for murdering.

INSIDE STORY OF POLICE RAIDS

Max Wardall did not defend the twelve men arrested in the Waldon hotel raid last July. These men were defended by Hawkins, a negro lawyer. Max Wardall did go to Mayor Gill to ask why the Waldon hotel was raided. The real reason for the Waldon raid and the reason for all other raids of this character is—that the men must room and spend their money at Clancy's Detroit House. The men who were arrested in the Waldon raid were not driven out of town by the virtuous police. They were driven to Clancy's. Clancy's is the sanctuary of the undesirables. In Clancy's they can live in peace and comfort, so long as they pay Clancy's exorbitant rent and spend the required amount over the bar.

Statement From Unionist.

The following statement was issued by C. F. Grow, business agent of the Machinists' Lodge No. 311, International Association of Machinists: "I desire to state that the unfortunate happening at the Times plant caused the sympathy of every union man in the city of Los Angeles, for the loss of life and the injury to employees. That any man affiliated with the labor unions here could have anything to do with this explosion and fire, is out of the question. We make no war with bombs or other weapons than the usual propaganda. We fight the enemies of union labor under the received economic laws. Violence has always been condemned and we do not recognize that as a means of success. The unions here are ready and anxious to aid the police and other authorities by every means in their power to find the cause of the explosion at the Times building."

Suspects Arrested.

Two men were arrested as suspects shortly after daybreak. The police refused to reveal their names. Fuse Timed by Clock. The dynamite sticks were connected with the electric battery to which was attached an alarm clock. According to the police, it was one of the most ingenious infernal machines that ever was brought to the attention of the local department. The alarm was set to go off at 1 o'clock, the hour at which the explosion at the Times building occurred. The clock was so tightly wound, the police who took charge of the machine said, that the alarm was prevented from working, probably by the explosion.
