TALKS ON TEETH

By the REGAL DENTISTS. WHAT IS OUR METHOD OF DENTISTRY?

Summed up in a few words, it is the highest achievement of dental science and most successful process ever discovered. By this process you can secure new teeth that are beautiful in appearance, and as satisfactory and serviceable as your natural teeth.

All that is necessary is that you have at least two teeth in each jaw. You may ask, "How can you find out whether our method is best?" We are prepared to show you in actual existence work in the mouths of our patients that is a revelation to the ordinary dentist; and, in fact, work that he stated it was impossible to perform.

If you will come in and see us we will send you to as many such patients here in the city as you may care to visit. We give you a guarantee that we will do everything we say we can do by showing you actual results.

If you are in need of dental work, the best is what you want, and if you will pay us a visit we will explain your mouth and tell you what we will do and what the work will cost you.

We will also satisfy you before you spend one cent that we can do more by our method than is possible for any other dentist to do. We have achieved such success that many of the dental profession have become alarmed, and, as a consequence, are doing everything in their power to discredit us.

We give a written guarantee with all work. REGAL DENTAL OFFICES, N. W. Cor. 2nd Av. and Union St. Across the street from the postoffice.

AN EXPLANATION

To the Editor of The Star: I wish to make a correction to the article published in your issue of the 10th by saying that I am not now, nor ever have been, in the employ of the Seattle Electric Co., nor superintendent of the James st. cable line, but was for eleven years the superintendent of the Seattle City Railway Co., operating the Yester and Jackson st. lines.

OUR DAILY BIRTHDAY PARTY

Rev. Anna Howard Shaw had the distinction of being one of the first woman Methodist ministers in this country, albeit she once was refused ordination on account of her sex.

But, next to being a Methodist, the Rev. Miss Shaw is a suffragist. And she certainly is stirring for that votes-for-women proposition. In fact, she was agitating for the ballot before most of the modern suffragists were born.

She is a lecturer, a writer, and does everything good that our guest is sixty-four years old today.

TODAY IN HISTORY

February 14, 1876, there were filed in the patent office at Washington two papers that have made both lawyers and inventors rich.

Sixty delegates, representing the Swedish Lutheran church of Washington, Oregon, Idaho and British Columbia, will be the annual conference today at the Swedish Lutheran church, Ninth av. and Stewart st.

The Taxpayers' League and the Seattle Federation of Improvement Clubs will hold a joint meeting Thursday afternoon at 3:30, in Friendship hall, Pioneer building, to discuss the report of a special committee, appointed to investigate the salaries of county officials.

Two hundred members of the King County Pharmacists' Society are expected to attend a Valentine smoker, to be held this evening in the banquet hall of the Odd Fellows Temple, Tenth av. and Pine st.

To fight the efforts of the Seattle Electric Co. and the residents of Laurelhurst to secure rights of way through the university campus plans were laid at a meeting held at noon today by the executive committee of the University of Washington Alumni Association at the Olympus cafe.

It is being intimated that Col. Matt Gormley and the coast artillery reserve corps will be made an exception in the report of the investigating committee of the legislature. All other field officers of the Washington National Guard will be recommended for retirement.

W. Leon Dawson, a Seattle ornithologist, is in California, where he will spend the next five years studying the birds. He is recognized as an authority on birds.

A heavy increase of travel to Alaska is expected during the coming summer as a result of the reduced joint rail and steamship rates which will be put into effect over the Southern Pacific and the Alaska Steamship Co. lines.

Racine, Wis.—Mrs. J. Talbot Rogers yesterday announced the engagement of her daughter, Helen Miles Rogers, to Ogden Mills Reid, son of Whitlaw Reid, ambassador to England.

The Alaska Steamship Co. yesterday announced a reduction of its rates to Fairbanks from \$194.70 to \$175.50, including passage by steamship to Cordova, by railroad to Chitina, and by stage to Fairbanks.

Sunnyside.—Mrs. L. Wallace, a woman farmer, has sold her 40-acre farm for \$4,000, after having taken from the land \$1,900 worth of hay and \$720 worth of stock feed, making a profit of \$6,220 in eight months.

The bill, pending before the legislature, providing that 10 per cent of all land to be hereafter plied shall be donated for park purposes, has been favorably acted upon by the committee on municipal affairs of the Chamber of Commerce, and will be before the chamber at today's meeting.

New York.—Dorothy Arnold is still lost to her family notwithstanding the personal advertisement inserted in a New York newspaper, presumably by George S. Griscorn, Jr., that he hoped to see Dorothy Arnold Tuesday.

A good program attracted a large attendance to yesterday's concert of the Ladies' Musical club, held in the auditorium of the Y. M. C. A. Mrs. William Hickman Moore is the new president of the club.

San Francisco.—The National Educational association will after all hold its convention in San Francisco, the Santa Fe railway removing the obstacle last night by declaring that tickets would be validated at San Francisco only.

J. W. Spangler, manager of the credit department of the Dexter Horton National bank, has placed his resignation from the presidency of the Credit Men's association in the hands of the board of trustees, who will take action at next Monday's meeting. Mr. Spangler, who has served as president for two years and a half, after two years of service as secretary, gives as his reason for resigning that he has too many duties to properly attend to the office of president. He is at present vice president of the national association.

Denver.—William McCrary, once a wealthy saloonkeeper here, entered the saloon of his brother yesterday, and turning his back to the bartender fired a bullet into his own brain. The bullet passed through his head and entered the brain of the bartender, Arthur Knowles. McCrary is dead, and Knowles also will die.

The steamship Cuzco, loaded with lumber and bound for the west coast of South America, was disabled in the heavy gale off Cape Flattery last Sunday night and returned yesterday with her deck load shifted and her steering gear disabled. She will repair the slight damage at Port Townsend.

Cordova.—Lewis Larsen, on arriving from Seattle yesterday, committed suicide early today by blowing off part of his head with a rifle. A bank book showed several thousand dollars deposited in Seattle. He had a hallucination that people were seeking his life.

All teachers, students and scholars will be admitted to Pepito Arriola's piano recital at the Moore theatre, 3:30 this afternoon, at half price, according to instructions given by Pepito to his manager, providing a proper voucher, signed by the teacher or principal, is presented at the box office.

Vancouver, B. C.—While off the west coast of Africa the British steamer Saint Ronaldo ran into a cloud of locusts, which swarmed aboard the ship ankle deep, and provided fuel for days to follow, saving tons of coal.

The electrification of the Madison st. line will be completed in sixty days, it is now predicted. The cars will run, coming from the lake, to 14th av. and Pike st. and follow Pike st. to the downtown district. The present cable line will run to Broadway from the waterfront and

TRANSFER TO THE ELECTRIC LINE, EAST ON BROADWAY. It is thought that the running time will be cut down from 30 minutes, as at present, to 20 minutes.
