

GIRL HELD IN ROADHOUSE FOR A WEEK

(By United Press Leased Wire)
NEW YORK, Aug. 14.—After a week's mysterious absence, Edna Gray of Brooklyn, who left her aunt's home here in an automobile with a strange man, returned today in a hysterical and excited condition.
The girl reached home in a semi-conscious state, and continually raved about a road house where she claimed to have been held prisoner. From all appearances she had been drugged.
At the time the young woman disappeared an automobile salesman of Brooklyn simultaneously vanished.

REBELS THREATEN

EL PASO, Tex., Aug. 14.—Six hundred Mexican rebels arrived at Palomas, opposite Columbus, N. M., today, where they threaten to cross the line and attack Americans. Troop D of the Third U. S. cavalry arrived at Columbus to reinforce the border patrol.
Reports received here say that 200 rebels were victorious over 200 federals yesterday near Ojinaga.

GRAND TRUNK HEAD COMING

President E. J. Chamberlin of the Grand Trunk Pacific system of railroads and steamship lines, with the leading officials of the company, men prominent in England and Canada, will be here August 25 on an inspection tour of the Grand Trunk's property.
The party is making a thorough inspection of all the company's property from Montreal to the Pacific. The new transcontinental extension will be inspected. The party will be in Seattle two or three days, going from here to Vancouver.

ANOTHER BANK ROBBER CAUGHT

(By United Press Leased Wire)
NEW WESTMINSTER, B. C., Aug. 14.—Chief of Police Bradshaw today sent Constable T. Walker and J. C. Fraser, a Pinkerton detective, to Toronto, to bring back Walter Davis, alias Walsh, and his consort, Alice Davis, alias Walsh, who were arrested there with \$9,630 taken in the robbery of the Bank of Montreal here, last September, in their possession.
Chief Bradshaw stated today he is confident he has the right parties, and that the man and woman, according to reliable information received by him, have long police records in New York city.

Washington.—An expert investigation of reported gold strikes in Modoc county, Cal., was ordered by the general survey department here today.

MOST REMARKABLE MATRIMONIAL BUREAU IN AMERICA

Father Dalton Has Received 7,000 Letters So Far This Year From Love-Hungry Men and Women

"Men Really ARE Looking for Good Wives."—FATHER WM. J. DALTON

But women want to marry money. They ask for rich city men. Of all the letters from men, only two spoke of money. One was a faker and the other was feeble-minded. "People may say I am bothering with something which does not concern me when I talk about family life and marriage, but I tell you it is the sublimest social problem. "I believe in marriages on small incomes if the young man and young woman face their venture as the most serious thing in the world. A rich marriage is usually unhappy, and a speedy marriage is usually a fool marriage. "It makes me boil when I get letters from girls who say they want a man who does not chew, drink, smoke or swear. As though these were the cardinal sins! She wants to inquire what he DOES DO. A man must have a safety valve, and I always suspect the seemingly perfect man of being a rascal."

BY WM. A. FEATHER
KANSAS CITY, Mo., Aug. 14.—Matrimonial bureaus are mostly fakes, but today, although not matrimonially bent, I paid a visit to the most remarkable marriage bureau in America.

That is—I visited the study of the Rev. William J. Dalton, at his church in this city—the Church of the Annunciation.
Dollars and cents cut no figure whatever in Father Dalton's Cupid establishment and that's one important reason why it is the most remarkable matrimonial bureau in America.

Dr. Dalton was peering at me over a huge stack of letters when I stepped inside the door. The envelopes bore postmarks from almost every state in the union. All large cities were represented, and many had been mailed in foreign countries.
"This is my morning's mail," explained the Father, his eyes twinkling.
"Since I opened my matrimonial guild the first of the year, I have received more than 7,000 of these letters from men and women in all parts of the world who are seeking helpmates. I've had to hire a stenographer to help me answer them. I'll tell you what all these heart stories have taught me."
Father Dalton stood up. He is of medium height, with a kindly face that might mark him as a banker or physician. He speaks with a charming touch of Irish brogue. Just approaching his 64th year, he already has left behind him 40 years of service to Kansas City. Today they say he knows more people here than any other man.

Because the young people of his parish were not marrying fast enough, he started a matrimonial school the first of the year. His classes, which meet once a week to listen to him discourse on this subject, have ranged from 50 to 100.
Fifteen engagements have resulted in those classes. And the publicity given to the venture has made the Father's study the busiest matrimonial bureau in the country. Already he is able to announce altogether 108 engagements and several marriages.
Among his correspondents are millionaires, judges, physicians, laborers, school teachers, nurses, etc.
"I am proud of my own sex than of the women," he said. "Men really are looking for good wives."

ROGERS MAKES STRIKING PLEA FOR DARROW

(By United Press Leased Wire)
LOS ANGELES, Aug. 14.—Denouncing District Attorney Fred. ericks for agreeing to a plan whereby J. B. McNamara's life was saved and John J. McNamara given a 15-year sentence in San Quentin and declaring that Clarence Darrow accomplished a great victory in the McNamara trial when he saved the life of J. B. McNamara after the latter had killed 21 men by blowing up the Times building, Earl Rogers, chief counsel for the accused attorney, continued his address to the jury in the Darrow bribery case today.
"I have called your attention to the fact that the only evidence against Darrow is that of Franklin," said Rogers in opening.
"According to the law, an accomplice has no corroborated. There has been no corroboration here."
"Did Darrow have a motive or an inducement to bribe Geo. N. Lockwood? We have shown you by testimony that no one has seen fit to contradict that Darrow, eight days before the bribery, had made plans to dispose of the case."
Rogers then took up Harrington's testimony, declaring that as an accomplice, Harrington's testimony is regarded with suspicion.
Reverting to Franklin, Rogers produced a huge placard, bearing the names of all the witnesses for the defense who contradicted the detective. Pointing to this, he declared:
"This whole list of men contradicted Franklin in the vital parts of his testimony."

A WHOLE YEAR OF GOOD TIMES AHEAD

(EDITOR'S NOTE—Here's the report of the president of the biggest commercial bank in the United States on the coming harvest and the business outlook. The Continental & Commercial National bank of Chicago handles a large part of the business of the country. For years its corps of investigators have reported on crop conditions at this season, and the bank's annual forecasts have always proved even closer than government reports—so that its figures are universally accepted as authoritative, and thoroughly reliable.)

BY GEORGE M. REYNOLDS,
President of the Continental & Commercial Bank of Chicago.

The soil is richly rewarding the toil of man this year. Reports from our investigators all over the country indicate the following estimated yields of the principal crops:

Wheat	650,000,000 bu.
Corn	2,800,000,000 bu.
Oats	1,200,000,000 bu.
Barley	200,000,000 bu.
Cotton	13,100,000 bales
Hay	60,000,000 tons
Potatoes	350,000,000 bu.

Present conditions justify an estimate of \$9,632,566,000 in new wealth to be produced from the soil this year, against an actual production of \$8,417,000,000 in 1911.
Taking the situation as a whole and weighing carefully the retarding influences, there is justification, judging from the advances in every line of trade, for the conclusion that there is ahead probably twelve months of good active business with moderate profits.

Business men throughout the country are acting with caution, but their attitudes indicate a clearly a greater degree of courage than is usually noticeable in a presidential year, despite the rather mixed political situation and the possibility of a reversal of many government policies through a change of administration. There is a noticeable disposition to disregard politics and attend strictly to business.
There is no section wherein all crops have failed. The production of the soil this year, in almost all things, is over the average. It is a bumper year when all products are considered.

The harvest will yield fully 20 per cent over last year. None of the breadstuffs will fall short of the need of the people—most of them will have a surplus. The feedstuffs for the animals promise large yields, and consequent recession in price, while the quantities produced will give a larger return to the farmer than the past two years.
Wheat, with a serious impairment of the winter seedling, will be in excess of last year, when the loss was in the spring sowings. The heaviest yield over the greater part of the region that has been experienced in many years.
Our correspondents show a winter wheat harvest around 380,000,000 bushels and a spring wheat promise of 280,000,000, a total of 660,000,000, which is 30,000,000 larger than a year ago.
Corn had a bad start. There has been a fair increase in acreage, and the yield now promises to be average. The Western and Southwestern states show good yields, against practically failures last year. The Southern states are suffering from too wet weather.
Oats will easily top the banner crop of two years ago, when 1,120,000,000 bushels were produced.
Potatoes will yield 25 per cent, more than a year ago. The garden vegetables are yielding plentifully. The cost of living should decline some with the larger production of table supplies.
Not only is labor well employed, but there is a noticeable scarcity of nearly all of the leading centers, both in skilled and unskilled. This clearly indicates a greater industrial activity.
Savings deposits in all banks are above normal.
Railroads through enforced curtailments have not been able to keep their equipment up to the requirements of a volume of business activity. Hence it would not be surprising if there is considerable congestion during the crop moving period.

WILSON APPROVES PASSING BILL OVER VETO

(By United Press Leased Wire)
SEA GIRT, N. J., Aug. 14.—Approval of the action of the house in passing the wool bill over President Taft's veto was voiced here today by Woodrow Wilson, the democratic presidential nominee. Wilson is in sympathy with the measure, and hopes the senate will take action similar to that employed by the house.
It was announced here today that

\$59,000 IS BANKED ON \$185 SALARY

(By United Press Leased Wire)
NEW YORK, Aug. 14.—How Police Lieut. Chas. Becker, held in the Tombs for the murder of Gambler Herman Rosenthal, could deposit \$59,000 in four New York banks since November last on a salary of \$185 a month is the problem confronting the members of the grand jury who have been probing into the murder and charge of police grafting here for several weeks.
In addition to the money in the bank, District Attorney Chas. S. Whitman asserts that Becker's real estate holdings are easily worth \$200,000.
Becker sits tight in his cell, asserting that he came by his money and real estate honestly, but flatly refusing to go into details. Whitman says he is in a position to show that Becker's wealth is his share of the \$1,400,000 yearly profit collected by police officials from New York gamblers.

SENATE WON'T PASS BILL OVER VETO

(By United Press Leased Wire)
WASHINGTON, Aug. 14.—That it will be impossible to pass the wool bill in the senate over President Taft's veto, as was done in the house, was the opinion expressed here today by leading democratic senators. President Taft and his followers in congress are wrought up because so many republican members were absent when the wool bill was passed in the house over his veto, and they are determined that no such condition shall obtain in the senate when the measure comes to a vote there.
It is generally believed that it will be impossible to pass any tariff legislation at this session of congress. The conferees are unable to agree either on the sugar or excise tax bills, and this is believed to mean that those two measures are doomed to speedy deaths.
Majority Leader Underwood announced today that hope of reaching an agreement in congress on the sugar bill had been abandoned. The house demands free sugar, but the senate stands unalterably opposed to such provision.
Artists say that the one thing a woman must never forget in her gown is the long lines, no matter whether she be tall or short.

YOUNG GIRL IS DROWNED IN LAKE

Anna Jaeger, 15, daughter of Joseph Jaeger, 1512 Corwin place, was drowned, and Mrs. George McCauley of Kenndale, almost lost her life attempting to save her when a pair of water wings, with which the young girl was swimming, collapsed.
Miss Jaeger, with her sisters, Mary and Eva, were visiting Mrs. McCauley and Mrs. E. Heimes, at Kenndale, opposite the south end of Mercer island. The five all went out in Lake Washington to swim.
Anna Jaeger put on the water wings to learn to swim. When she had got out over her head the wings collapsed. One of her sisters tried to grab her hand, but the girl sank. Mrs. McCauley then swam out and dived, trying to pull her up. Her efforts exhausted her, and she could barely keep afloat till help came. A rowboat arrived and the body was taken out and brought to shore. All efforts to revive her were in vain. The funeral was held at St. Mary's church at 2 o'clock this afternoon.

MRS. KINNEAR GETS \$1,000,000 FROM ESTATE

The will of George Kinnear, who died in Seattle July 22, has been admitted to probate. Mrs. Angie Kinnear, his widow, waived all rights to the estate, and by the terms of the will, was given one-half of the property. The remaining one-half of the estate, valued at \$1,000,000, was bequeathed to the two sons, Charles A. and Roy J. Kinnear. The half of the estate was devised to Mrs. Kinnear on the condition that she quit-claim her claims on the property. Judge Everett Smith issued an order dividing the estate according to the terms of the will and appointing Mrs. Kinnear and her two sons executors.
The condition of Miss Luella Davis, who was injured in the auto accident that resulted in the death of Dr. Rininger, is very serious. She was at first thought to have been injured only in the leg, but later developments have shown that she is injured on the head.

SHIP RUMORED BADLY HURT BY ICEBERG

(By United Press Leased Wire)
MONTREAL, Aug. 14.—Despite the wireless assurances of Captain Cook of the steamer Corsican, which struck an iceberg yesterday, it is rumored here today that the steamer is more seriously damaged than supposed.
It is reported that government signal service men learned that the Corsican is today near the spot where she struck the iceberg, and that the Canadian Pacific liner Lake Champlain is standing by.
Eckman and Richardson, of the Swedish Athletic association, went out with hooks and lines Saturday and got home Monday, loaded with fish.

JOB POEM

The hired man named Job,
Has got a pleasant job
The meadow grass to mow
And stow it in the mow.
At work he takes the lead;
He does not fear cold lead,
Nor is he moved to tears
When he his clothing tears.
