

STATE AND COUNTY POLITICAL NEWS

Whom are you going to vote for? Well, it really doesn't matter a particle if you haven't registered this year.

And the registration books are going to close on October 15. The books are now open until 5 p. m. every day at the Prefontaine building, Fourth and Yesler.

A year's residence in the state, 90 days in the county and 30 days in the precinct entitles you to a vote. If you have already registered this year for any other election you need not re-register unless you have changed your residence.

Ole Hanson is making a red-hot campaign in behalf of the progressive party in this state. Last week he traveled through Whatcom county. This week he is making votes for the progressives in Jefferson county and the neighboring territory. He spoke to over 250 last night at Anacortes.

Says Dr. Smith of that town by long distance telephone: "Congressman Humphrey, standpatter,

was over here 10 days ago. He got the great and magnificent crowd of 40 to hear him. Ole Hanson last night spoke to an audience that was more than six times as big in number and was infinitely greater in the enthusiasm for the speaker. Humphrey's audience was not only small but frigid."

Next Monday night, according to present plans, "Bob" Hodge, progressive candidate for governor; Dan Landon, candidate against "Trimmer" Humphrey for congress; Tom Murphree and Dr. Walter Christenson, progressive candidates for the legislature from the 42nd district, will speak in their home district, in the North end of the city, at Green Lake and in Ballard. At Green Lake, however, there is some difficulty in securing a hall large enough to accommodate the crowd and it may be decided to hold the meeting in a big tent.

Judge W. W. Black, democratic candidate for governor, claims that

the supreme court "test" case of his eligibility has been prompted by a desire to hurt his campaign. Judge Black says there is absolutely no doubt as to his qualification since his term as judge expires before his duties as governor would begin. He even goes so far as to assert that those seeking to injure him are hoping the supreme court would not decide the eligibility case until after the election.

Judge John F. Main yesterday took the oath of office as supreme court judge, succeeding the late Chief Justice R. O. Danbar. The term for which he is appointed ends with the election in November. Judge Main will be a candidate for re-election.

Senator Dan Landon, progressive candidate for congress, will speak at La Conner tonight.

Senator J. A. Pyleoner, progressive candidate for congressman-at-large; G. G. Milla, progressive candidate for attorney general, and W. H. Ford, candidate for secretary of state, are campaigning in Southwestern Washington this week.

The standpatters are becoming really desperate. Unable to make any headway in their own campaign they are resorting to the despicable tactics of circulating false statements that there is factional strife in the progressive camp. For example, they maliciously circulated a fabrication to the effect that Dan Landon, candidate for congress, is not in sympathy with the candidacy of Tom Murphree for the legislature from the 42nd district. As a matter of fact, Landon and Murphree are the closest of personal friends and have been working hand in hand for the progressive cause all the time.

Women ward organizations are being formed throughout the city and county by the progressive party. The seventh and tenth wards were organized yesterday.

The democratic campaign committee will attempt a like organization. Chairman Trenhome yesterday appointed a committee of seven women with Mrs. W. E. Myers, chairman, as members of the women's organization committee.

KIRKLAND FAIR

The Kirkland fair opens for a three-day season tomorrow and indications are that the busy little community will have a good exhibition. The committees in charge have been working on the fair for several weeks and have succeeded in lining up many attractive features. There will be a series of educational lectures in the afternoon and amusements in the evening.

Messenger Girls Are Latest Wrinkle

GRACE LONGFELLOW

Messenger girls! That's the latest in San Francisco, and so successful has the innovation proved that ere long one may expect to find all the work, or at least a very large share of it, being done by feminine Mercurys.

To Grace L. Longfellow of 305 San Jose ave., aged 17 years, goes the distinction of being the first messenger girl that San Francisco has ever boasted. Her employer is the Postal Telegraph Co., and while the experiment is young, Manager Jas. Coggins is enthusiastic.

There has been a great shortage of boys, last month as many as 20 lads deserting us, so I thought we might try girls for a change. We consulted with clubwomen of the city, to see if they had any objection to the plan, and when we received a negative answer went ahead and hired this girl for a trial. The Postal Co. has no district business, nor do we carry any notes, so that there is nothing particularly objectionable to a girl entering our employ. Incidentally, it may be the means of opening a new avenue for girls to earn a living."

It is a most ludicrous mistake, she imagined her wedding day was Wednesday, when in truth it wasn't to take place till the day after.

"Just like a woman. And everything went awry and the bridegroom gnashed his teeth, I suppose?"

"Well, hardly. In fact, everything turned out beautifully. By making the error unconsciously she was dressed in time and the ceremonies were pulled off according to schedule."—St. Louis Republic.

Mrs. Rosamonde Chatham, a resident of Seattle who has studied abroad for the last five years, made her initial appearance before a Seattle audience at the Y. M. C. A. last night. She was greeted by a large and appreciative audience who expressed themselves delighted with her voice.

SETS NEW RECORD BY THIS WONDERFUL SWIM

By Winning in Endurance Swim Which Many Men Have Failed. She Has Proved Herself Equal of Women's Swimming Record.

Nellie Schmidt, snapped at the finish of her record swim.

Nell Schmidt of Alameda, Cal., has long been credited as being the greatest woman swimmer the Pacific coast has ever seen, but her performance recently of swimming almost a mile round the Seal Rocks off the Cliff house, at San Francisco, fighting the tides and current rips all the way, and doing the distance in 34 minutes 59 seconds, is the best she has ever done. It is one of the greatest feats ever accomplished in aquatics by any woman in any part of the world.

Her swim conclusively proves the right of her claim of being the woman speed champion in open water. It is doubtful if ever Miss Vera Neave of England, holder of the world's record for the mile, could outdistance the Alameda wonder. The course was about 299 yards short of a full mile, and when it is

considered that it was covered in 34 minutes and 59 seconds, against strong tides and treacherous current rips, the merit of the performance is apparent, when compared with Miss Neave's world record for the mile of 51 minutes 41 4/5 seconds.

Although the distance around the Seal Rocks is not so far, it is a hard swim, on account of the tides that swirl about the rocks. Miss Schmidt got into a tide rip, just after rounding the northerly rock, and for five minutes she made no headway.

Practically the whole swim was accomplished with the double over-arm stroke, though many times she changed to the single stroke for resting purposes. Her arm strokes are strong and her kick terrific. She puts tremendous force into the leg action, getting more speed thereby than the usual swimmer.
