

### Provision for Others

is the fundamental responsibility of human life, says President Wilson.

In these early days of the new year, it behooves every man to consider that his first duty is to provide for his own family, and that money is the prime necessity.

Earn more money if you can, but at least SAVE more money, and having saved it, deposit it in a strong, interest-paying bank like this.

### 'NOTHER POLICE CAPTURE; GETS 13 STUDENTS

Did you hear about the big police pinch?  
Thirteen bold members of one gang, inhabiting the University district, were captured late yesterday afternoon by one lone and daring special officer, who rushed and surprised the enemy before resistance was possible.

The booking room at headquarters looked like a "stag party" when Bert D. Rose, special officer, lined up his 13 charges, who are university students, and were arrested on the charge of playing baseball on the streets and trespassing on a parking strip.

The boys arrested were: R. E. Johnson, C. C. Hazlet, F. W. Dearborn, W. R. Hainsworth, W. B. Wood, A. M. Saunders, W. P. Valentine, B. L. Bressler, M. C. L. Dickson, R. E. Murray, W. R. Moulton, J. H. Siebenbaum and D. C. Reed.

### 'T WAS GOOD WEEK

Following the matinee performance of "Hamlet" this afternoon, Robert B. Mantell will end his present engagement at the Moore theatre tonight, in a repetition of "The Merchant of Venice."

"The second presentation of "King John" last night drew even a better audience than the opening night of the week. The Mantell visit has been marked with success at every angle.

### CAPT. WEST INDICTED

Friends of Capt. E. E. West, U. S. marine corps, well known in Puget sound naval life, were surprised to hear that he has been indicted in Atlanta, Ga., on a charge of attempting to kill his mother-in-law, Mrs. John E. Jones.

A what party will be given by Seattle hive, No. 8, Ladies of the Maccabees, next Thursday night, in W. O. W. hall, Fourth and Marion.

### Acid Test of Circulation!

Invariably the first questions asked by the advertiser are: "How much circulation have you got? How many papers do you print?" The answer to either of these questions is not important and does not mean anything to the advertiser.

The only limit to the number of papers a publisher may print is his press facilities and his ability to buy white paper and ink. The real circulation of any newspaper is indicated by the amount of money in the till from circulation receipts at the end of the month. No one will object to a boy leaving a newspaper at the house every evening as long as it does not cost anything, even if he does not care to read it.

Bundles of papers are to be found on corners in all parts of Seattle long after the time for delivery, with the strings intact. Generous advertisers are paying for this "Circulation" because they do not use the acid test.

All the evening publishers receive one-half cent a copy for nearly all their paid circulation. The mail brings a little higher rate. If the papers are all paid for and the circulation is all good, the cash books will show a little over five dollars at the end of the month for every thousand papers circulated.

FOR THE ENTIRE YEAR 1913 THE STAR'S CASH BOOK SHOWS RECEIPTS OF \$4.90 A THOUSAND FOR ALL PAPERS PRINTED, INCLUDING SPOILS, COPIES FOR FILES, EXCHANGES, AND FOR SERVICE.

Giving The Star the acid test proves that on the actual circulation claimed by The Star, the rate is nearly 100 per cent perfect.

You will never know the circulation rate of Seattle's other papers and their real circulation until you demand to see their cash book before advertising.

And if they show you their cash books, then you will do most of your advertising in "The Seattle Star."

### PHOTO PLAYS

"The Sword of Damocles," at the Dream starting Sunday, is the story of a discouraged composer who, through drink, sinks to the depths, and of a successful composer who shows the work of the discouraged genius as his, and of the terrible price he paid for the stolen honors. There are two other subjects.

"The Dangerous Experiment" is a story that abounds in mystery, and deals with the transition of souls. An athlete and a student both love the same girl. She favors the athlete. The student follows the occult, and works the transition of souls. The girl changes her love to the student. An Indian swami plays an important part. It is in two reels.

"The Mud Bath Elopement" features papa, the lovely daughter and her lover. When father takes a mud bath, things happen.

A Powers drama completes the program at the Class A, starting Sunday.

### DOWNTOWN THEATRES

Class A Sunday Until Tuesday Night

"The Dangerous Experiment," Victor two-part drama; "Trust Me Gets Trust," The drama; "The Mud Bath Elopement," Rex comedy.

### PARCEL POST MAP FREE

To All New or Old Mail Subscribers With a Six Months' Subscription to The Star

The Seattle Star has had a wonderfully useful map made up, showing all the various parcel post zones, and the shipping rates thereon.

This map is beautifully made up in several colors, and shows all the rivers, towns, cities, etc., in the State of Washington, together with giving the population of the various places, and the shipping costs from each postoffice. This map is so valuable that we have supplied the Seattle postoffice with several copies.

In addition to a large map of the State of Washington, a map of the United States is shown, and also a map of the world.  
The Star wants everyone of its small subscribers to be supplied with one of these maps, and in making the following offer: Every subscriber who renews his subscription promptly for six months or more will be mailed one of these maps, absolutely free.

# SHUSHANNA

## The New Alaskan Gold Discovery

**The diggings** **T**HE reports from Shushanna, the new Alaskan placer gold camp, are that these diggings will rival the Klondike from which nearly two hundred million dollars in gold has been taken out. In practically every creek within thirty miles of Shushanna gold has been found by men doing only their assessment work—the labor demanded of the discoverers by the Government before the patenting of claims.

There are many hundreds of men in and around Shushanna now awaiting the breaking up of the ice so that the actual development work may be done. The coming spring will see a stampede from the outside that will take 10,000 people into Shushanna, according to veteran miners and prospectors who know the conditions and the indications in the North.

**The property** The incorporation of "Shushanna Gold Mines No. 1" was undertaken by successful mining prospectors with wide experience in the Alaskan fields. The purpose of the company is to acquire and operate mining properties which indicate real values.

Shushanna Gold Mines No. 1 is organized under the laws of the State of Washington, U. S. A., Shushanna being in United States territory.

Having arrived at Shushanna soon after discovery and acquired property in the very heart of the diggings, the incorporators are in close touch with the operation of the various prospectors and in a position to secure properties of proven value at the best terms.

**The company** The property already acquired has proven up, gold in paying quantities having been taken out while the assessment work necessary to prove title was being done. Upon the breaking up of the ice and thawing of the ground in the spring, actual development work will be commenced, and the richness of the property will then be demonstrated.

Shushanna Gold Mines No. 1 is incorporated with a capital stock of \$1,000,000, divided into shares of a par value of \$1 each, fully paid and forever non-assessable.

The company is free from debt, has no preferred stock and no bonded indebtedness.

In addition to the property already owned, the company has taken over agreements and contracts entered into shortly after discovery and expects to acquire several properties within the next few weeks.

The company is under the management of practical mining men of many years' experience in the Klondike and the Yukon, and the operations will be entirely in the hands of men who thoroughly know the country and the conditions.

**The stock** As financial agents we are able to offer a small block of stock in Shushanna Gold Mines No. 1 at the first ground floor price of 10 cents per share (par value \$1). This small block will undoubtedly be taken in a very short time, as the excitement over the new camp is keen and increasing daily.

We offer this stock in blocks of from 100 shares up. We advise its purchase as a good speculation, not as an investment. Tremendous profits have been made in cases of this kind by men who have bought in on the ground floor.

This may be an opportunity to double your money many times over. The indications are all favorable, and we believe that this is the best mining proposition that will be offered to you from the new camp.

We recommend its purchase, however, as a speculation and not as an investment where the profits are already certain. Investments seldom pay over 5 to 10 per cent in dividends, but speculations of this nature frequently make great fortunes for those who enter into them.

Only the first block of stock will be offered at 10 cents. When this is exhausted a small additional block will be offered at an advance of 50 per cent in price. The opportunity to secure an interest at the ground floor price of 10 cents will not be available for more than a few days.

Should you desire to secure a ground floor interest in Shushanna Gold Mines No. 1, fill in coupon in right-hand corner below and mail at once with money order.

**What your money will buy** This is the first offering of stock in Shushanna Gold Mines No. 1. By placing your order today you can get in on an absolutely ground floor basis. The following table will show you what your money will buy:

\$10 will buy 100 shares	\$250 will buy 2,500 shares
\$25 will buy 250 shares	\$500 will buy 5,000 shares
\$50 will buy 500 shares	\$1,000 will buy 10,000 shares
\$100 will buy 1,000 shares	Fully paid and Non-assessable

If you wish you can buy on our easy payment plan, but not less than 250 shares will be sold on the easy payment plan:

250 shares cost \$5 down and \$5 monthly
500 shares cost \$10 down and \$10 monthly
1,000 shares cost \$20 down and \$20 monthly
2,500 shares cost \$50 down and \$50 monthly
5,000 shares cost \$100 down and \$100 monthly

This price is subject to change without notice. Your remittance will be promptly returned in case it reaches us too late.

A history of the new Alaskan gold fields and discovery of Shushanna as told by clippings from the daily papers of Alaska, Canada and the United States will be forwarded free on application. This book tells all about the new discovery, the amount of gold taken out, how to reach the camp, and the conditions of this new Klondike. To get the booklet, just fill in name on left-hand corner coupon below, cut off part and mail.

### GIRLS WIN CASE

The Alpha Gamma Delta sorority girls of the University of Washington won a victory in the case brought against them by J. R. McGinnis, asking judgment for \$595 as rental on a house after the tenants had vacated the premises. Judge Dykeman granted a motion for non-suit yesterday afternoon. The young women contended McGinnis was charging excessive rental.

### TEST LEGALITY

Superior Judge Albertson has issued an alternative writ of mandate, citing City Comptroller Carroll to carry out the city's order for seven Empire voting machines to be used in the primary and city elections or show cause on January 26 why he does not. The corporation counsel filed a test case against the use of the machines.

### TO ACCEPT ROAD

The acceptance of the Highland Park & Lake Burien railway by the city was recommended yesterday afternoon by the council finance committee. Corporation Counsel Bradford explained that all debts against the road had been liquidated.
