What They Ask Cynthia Grey

Dear Miss Grey: I would like to answer the man who is father of the unnamed child by telling him of another man who was tempted and fell as he did.

This man is, or was, the owner of a large manufactory, employing hundreds of women and girls. The girl in this case was protected, and when the child was born it was at his home and adopted, by the consent of his wife, who was told that the shame was his, not hers.

It became my pleasure to meet and know this child, grown to womanhood, a beautiful woman, both in character and looks, and it became her pleasure to care for her father in his declining years.

This man's story is well known, but he was honored among men and women. The man lost nothing and gained everything by the sacrifice he made, and he prospered in every way. He was more like him and we will have fewer ruined lives among women. Give us more women like his noble wife and we will have fewer suffering men making failures of their business. Shame on the man who wrongs innocent womanhood and degrades her.

A.—No doubt you intended your answer to be good, sound advice, but according to my reasoning faculties your argument is one-sided and lame—in fact, no argument at all. May I ask what your standard is? You say, "Give us more men" like this man, who wronged one of the girls in his employ—a married man with a good wife, at that. You would do away with the few laws we have to protect women and girls and encourage, legitimize immorality, would you? I say we don't want any more men like him; the world is already overburdened with them.

Again, I must quote you: "He was honored among men and women. Lost nothing and gained everything by the sacrifice he made." Pray, what sacrifice did he make? None whatever. He only did his bare duty. His wife and the girl he wronged made the sacrifice. It is the old, old story—the woman always pays, pays for the man's wrong and her own. I don't honor such a man for doing his duty and atoning for his wrong in a measure. Simple duty does not claim honor, only deeds of valor, and if you think he did anything noble, I don't get your point of view.

You don't say anything about the girl who was wronged. Was she honored and respected because she gave up her babe to strangers? No, probably not.

More likely she was hounded about, and sneered at, and her spirit broken by sharp tongues ever ready to remind her that she was forever beyond the pale of respectability, while her victim, the poor man she tempted, basked congenially in the praise and admiration of his neighbors. Yes, it certainly is too bad about these poor men, who rear continually about their superiority over women—mentally, morally and physically.

Q.—You have given others such good advice that I will ask you to help me. I have been living with a man 12 years in this state, but we have never legally married. He has belonged to the Woodmen nine years and has taken out a policy for me as his wife. In case of his death would I have any trouble in collecting it?

A.—You would have no trouble in collecting the insurance unless you were called upon to prove that you were his legal wife. This state does not recognize common law marriages, so for the sake of everybody and everything, you should have a marriage ceremony performed.

Q.—Will you kindly tell me how to stiffen the crocheted little bon-bon boxes or baskets?

A.—Boll sugar and water together as you would for candy, us about three tablespoonfuls of sugar to one of water. Boll until the liquid will drop from spoon in long, thin, hairy strands. Remove from fire. Put the baskets in the mixture and stretch them to the desired shape. Remove and squeeze on a board to dry. If done correctly, they will be very stiff when dry.

Q.—I have a dark complexion, blue eyes and dark brown hair. Do you think I would be becoming to me? Please answer as I am an orphan and have no one to tell me.

A.—You should look well in navy blue, but unless your complexion is very clear you could not wear the lighter shades to advantage.

Q.—I am a competent stenographer and very anxious to obtain employment in Alaska, because I cannot afford to make the trip merely as a pleasure outing. I know of no one who has been to Alaska of any possible way through which I could get in touch with some one there who could obtain employment for me? Sincerely, "STENOGRAPHER."

A.—Cynthia Grey regrets that she cannot help directly in this circumstance. Please about the 20th letter I have received on this subject since the terminals for the Alaska railroad were decided upon. The girls already there, or those having relatives and friends there, have the choice of the positions open.

Q.—Kindly let me know, if possible, the cause of baldness. Is there any known cure for it? I tried a remedy several years ago and had good results, and I am now going to make another test. If I prove that I can grow hair on a head that has been bald, who should I do? Should I patent it? Kindly answer in your column and oblige. C. N.

A.—It would not be possible for me to print all the data on baldness, but as you are interested, it would pay you to look it up in encyclopedias, and you can no doubt find some books on Alopecia at the public library.

There are two distinct varieties of baldness, the idiopathic and the symptomatic. In the idiopathic variety that occurs before the age of 45 there seems to be no disease of the scalp or of the general nutrition to explain it. It is a gradual and progressive loss of hair, thinner and thinner hairs replacing those that have fallen out, until the follicle will not produce hair. The skin is usually left thin and hard.

In the symptomatic form, some general disorder, or a definite disease of the scalp is the cause. This latter is usually a scaly dandruff; the general causes may be scabies, tuberculosis, fevers, or in 21 destructive conditions. Dandruff is really at least three different diseases of the skin, but the general character is that of a general seborrheal dermatitis; that is, a mild inflammation, never fatal, fatty secretions. This is frequently due to digestive disturbances, and is closely dependent upon the general health of the entire body.

If you have really discovered an honest-to-goodness, never-fail cure for baldness, indeed you have struck a gold-mine, as the large number of hair tonics on the market proves the general inutility of all of them. It would be a good plan to get your remedy patented if it proves to be successful.

Q.—I have a dark complexion, blue eyes and dark brown hair. Do you think I would be becoming to me? Please answer as I am an orphan and have no one to tell me.

A.—You should look well in navy blue, but unless your complexion is very clear you could not wear the lighter shades to advantage.

Remnants and Dress Patterns of Silks and Dress Goods in an Extraordinary One Day's Sale—1/2 Price

THE tremendous selling of the past few weeks has left us with hundreds of desirable lengths of silks and dress goods—lengths which are suitable for gowns, waists, skirts and many other purposes. Many of the newest and prettiest of the season's weaves are included, in lengths ranging from 3 to 10 yards. Some of the materials included in this cleanup sold earlier in the season for as much as \$10.00 the yard.

We have taken all odd lengths of silks and dress goods, and regardless of former prices, reduced them for one day's selling to 1/2 price.

—First Floor.

The MacDougall-Southwick Co. Second Avenue and Pike St.

WHAT, HO! WE'RE GOING TO HAVE ANOTHER WEEK!

Cleanup week was not enough. Much was done—a great many lots were cleaned, a large amount of waste paper was run down and put in captivity, and all that, but there is yet something to do before the city is in readiness for summer visitors.

May Call Street Car Strike in Frisco

SAN FRANCISCO, April 12.—B. F. Bowber, general organizer of the Street Car Men's union, declared today that an ultimatum will be sent to the United Railroads tonight demanding that the employees be given the right to unionize. The company will also be called on to reinstate the men discharged for activities in behalf of the union.

Western Union to Fire Union Men?

CHICAGO, April 12.—President Newcomb Carlton of the Western Union Telegraph Co. today told the federal relations commission that it was becoming the wage policy of his corporation to discharge men for belonging to unions.

He declared the Western Union employed 40,000 workers.

In the opinion of President Carlton nothing should be allowed to interfere with the workings of an institution like the Western Union.
