MOUNTAINEERS A-WALKING GO

WHEN the Mountaineers go walking on Sundays in King, Kitsap, Snohomish and Pierce counties they keep to the rough country as much as possible, but lately roads have been built everywhere, and the walkers are obliged to follow them for short distances. As they move along these roads they are compelled every minute or so to step aside to let a touring car pass, and the occupant of the car would do some hard thinking if he knew how the Mountaineers regarded him. They look on him with pity, as an animal that has lost the power of walking. They never envy him.

The Mountaineers extend a special invitation to automobile owners to take part in the free public walk next Sunday afternoon, six miles thru the beautiful woods, beginning at Cowen park at 1:30 and ending at Ravenna park at 5. Owners of cars, viewing the country from their seats, have feel it, the Mountaineers say. The Mountaineers, who love walking, wish to convert every outsider no idea of its beauty. They ought to step on it, to their way of thinking.

RABBI KOCH IS RIGHT

THE Jew as a Jew has no need to herd in Jewish political clubs," declared Rabbi Samuel Koch in a recent sermon, and he advised Seattle Jews to shun any club organized on such a basis.

The rabbi's advice can well be followed by other nationalities. There is no need of Irish political clubs, or Swedish political clubs, or German political clubs, or any other kind of hyphenated-American political clubs. This country needs plain Americans—and political clubs fail to exercise any beneficial influence if they are subdivided into racial or national groups.

UNFAIR

AN annual liquor tax of \$25 is levied by the state, in addition to the city license. The tax is levied in July. Last July, despite the fact that the state was going dry on January 1, all liquor dealers were required to pay the full amount of the tax, up to next July.

Seattle is requiring the saloon men to pay only to the end of the year. The state should do likewise.

A WARNING FROM THE MASSES

Victory for any of the warring nations will mean nothing to the working class of the victorious country.

This is the warning sounded by Mme. Alexandra Kollontay, the remarkable Russian woman, who hints that the great conflict ordered by Europe's royalty will be followed by a blaze of revolution.

Whether Mme. Kollontay knows of what she speaks or not, her warning should not go unheeded. The masses have been and are paying the price in human life and sacrifice. And what, after this most bloody of wars, will they have gained?

When the slaughter is to be ended, when the price has been paid, it is up to the makers of this war to give the millions of European workers a new recognition or face the inevitable.

A new era must dawn for the long oppressed masses or the royal war lords must pay with their crowns!

CUT IT OUT!

OUR opinion hasn't been asked, but if it was we would unhesitatingly voice disapproval of the program, reported to have been mapped out by Washington society, after the wedding of President

Wilson and Mrs. Galt, for an "unusually brilliant social season."

Leaving out the fact that the death of our president's former mate seems but a tragically brief space ago, the whole world is garbed in mourning for the war victims.

The United States is the greatest of the neutral countries; toward her the nations of the earth look as the future mediator.

In official Washington, which means social Washington, there are the diplomats of all the warring countries. It would seem in better taste were this country's capital to abandon its plans for "an unusually brilliant season."

DON'T CROWD, BOYS

R. W. HILL, who negotiated the "pork barrel" deal by which Uncle Sam got an inaccessible site for a postoffice, says the price of \$169,500 is dirt cheap and the patriotic citizens who sold it (including Frank Baker, who managed Congressman Humphrey's political campaign) lost money on the transaction.

Fine! Mebbe now there'll be all kinds of buyers to take the site off Uncle's hands.

Who'll offer Uncle Sammy his \$169,500? Step lively, folks!

Outbursts of Everett True

Observations

SPEAKING OF "pork barrel" what is Congressman Humphrey's alibi on his vote to grab from Uncle Sam \$1,200 as "traveling expenses" for a trip which he never even intended to take?

CATARRH GERMS EASILY KILLED

Only Way to Cure This Disease is to Destroy Its Cause. If you have catarrh and want to get rid of it, you must kill the germs which cause catarrh. Hymol disinfects, eliminates, sprays, creams, douches, etc., fall because they overlook this fact. They all help by giving temporary relief, but they do not reach the germ life that has found lodgment in your head, nose, throat, and could not destroy it if they did. The best known way of destroying the dangerous germs of catarrh, and consequently ending the disease itself, is to breathe into the air passages of your nose and throat the pleasant, penetrating air of Hymol (pronounced High-ome). Hymol is made from purest oil of Eucalyptus, combined with other powerful healing, antiseptic and germicidal ingredients. You breathe it through a little pocket inhaler which Bartell Drug Stores and other druggists in Seattle and vicinity are furnishing with every complete treatment sold. Every time you inhale the sweet, fragrant air of Hymol through this little device you are drawing into your swollen, inflamed, germ-laden membranes a medicated air which will not only reduce all the swelling and inflammation and open your clogged nose and stopped-up air passages, but will absolutely and positively destroy every trace of catarrh germ life it reaches. Druggists are so sure of the blessed, lasting relief that Hymol brings to catarrh sufferers that they sell it invariably on the positive guarantee that money paid will be refunded if successful results are not secured from its use. Get a Hymol outfit from your druggist today and begin at once to drive this dangerous and disgusting disease from your system forever.—Advertisement.
