Port Commission

First or Central District

Mr. Daub's Announcement

TO THE MEN AND WOMEN OF KING COUNTY:

I am a candidate for Port Commissioner because I have always taken a deep interest in the public development of our port facilities, which I regard as the foundation for our future prosperity and growth, and because I desire to be a public-spirited citizen.

From my fourteen years' experience in merchandising, and from my nine years' experience in Alaska transportation, I firmly believe that in the orderly development of our Port District and the businesslike handling of the facilities already constructed, we hold the key to a future of vigorous accomplishment and striking commercial success.

The prime demand, at this time, is for an energetic campaign for world shipping and additional business for our port properties in order that they may be put upon a self-sustaining basis at the earliest possible moment.

I favored the formation of the Port District. I believe in the public development and control of Port facilities by the Port district for the benefit of all the people. On the one hand, I am not a radical or a theorist. On the other hand, I have not now and never have had any business alliance which could in any way prejudice my position as a port commissioner. I believe I stand with the great majority of our people upon the broad middle ground of businesslike port development for all the people without fads or fancies, and without improper influence or control.

STATE OF WISCONSIN PLANNING TO SECRETLY STERILIZE 24 MEN

One divorce. Six children separated from their father. One \$10,000 law suit.

And, in spite of this startling example, the Wisconsin legislature, at the last session, slipped thru a law providing for the sterilization of "mental defectives," this law becoming operative this month.

Fearing legal action to prevent the operations upon the 24 men picked for victims, selected from among patients of the Chippewa Falls State Home for Feeble-Minded, the state board of control refuses to give to the public their names or the day set for the experiment.

In fact, there are few citizens of the state who are aware such a law is on the Wisconsin statutes. And of those few there are probably not more than a dozen who have heard of the tragic and appalling results of the sterilization of John Rehfeldt.

Rehfeldt is 36, and is THE FATHER OF SIX CHILDREN, three boys and three girls.

In April, 1910, he was committed to the state hospital for insane at Oshkosh and a year later was removed to the Appleton asylum.

Here, DESPITE EXCELLENT PHYSICAL CONDITION, he was sterilized at the recommendation of George Downer, superintendent of the asylum, by Dr. J. A. Canavan, a former mayor of Appleton.

In August, 1913, he was released from the asylum as CURED and returned to his wife and family STERILIZED.

Married life was impossible. Mrs. Rehfeldt asked a divorce. It was granted. And Rehfeldt, BROKEN IN SPIRIT AND HEALTH BY THE LOSS OF HIS FAMILY AND THE STERILIZATION, struggled against the inevitable until last June, when worry brought back insanity and he was returned to the asylum.

In the meantime, Rehfeldt has filed a suit for \$10,000 against Dr. Canavan and Downer.

Canavan died. Report was general that worry over the Rehfeldt affair had hastened his end.

Then, last April, Downer, worried to desperation, committed SUICIDE.

The children of Rehfeldt—all healthy and mentally as quick as most children of their ages—are now living with their mother on a farm near Appleton. And they, too, are INNOCENTLY paying the price.

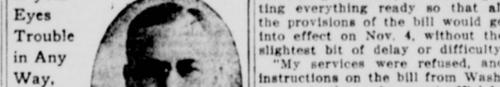

Now sterilization is to have still ANOTHER TRIAL.

Not one of the 24 men who are to be its victims could be proven incurable. Not one of the 24 men there who may not leave the mad house some day, like Rehfeldt, mentally cured—but STERILIZED.

TEN TRICKS TO TEACH YOUR DOG

Whose dog is the smartest in town? If you have a dog you can teach him all sorts of tricks, as explained in the lessons now being printed in *The Star*. Dogs have more intelligence than you think until you try them. If you have a smart dog, write *The Star* about him. The best letters will be printed, and the owner considered as having the smartest dog in the city. The best letter will be "shown them off" on the stage of the Empress theatre next Friday night. To the owner of the smartest dog a season ticket will be given; for the next smartest a ticket for six months; third, for one month; fourth, box at one performance.

NO. 4—HOW TO MAKE YOUR DOG "ROLL OVER." (PICTURE POSED BY "HECTOR.")

BY C. J. TRYON
The rolling over trick comes in natural sequence to trick No. 3. Your dog is lying "dead" on his side. Command him to "roll over" and at the same time roll him over by his fore paws.

Repeat till he begins to look up when you say "Roll over." You may then show more firmness, and without holding to his paws, slap him on the side to force him over. He will quickly learn to roll over at your command to avoid being slapped. It will be necessary to slap him only a few times before he will obey the command, "Roll over."

When he has learned to roll over once, make him roll over and over till you have given him some cue to stop, such as turning your back on him or calling him to you.

It's good policy to study the characteristics of your dog. Each dog has some characteristic or trait that is most pronounced, and his training should permit him to develop along that line. (Another lesson will appear tomorrow.)

RAPS UNCLE SAM ON SEAMEN BILL

Andrew Furuseth Declares Officials Try to Discredit Law HE MAKES A PROTEST

(Staff Special)
SAN FRANCISCO, Nov. 16.—Officials entrusted with enforcement of the LaFollette seaman's act have purposely bungled matters in an effort to make it generally odious.

So charges Andrew Furuseth, father of the act, and for over 20 years staunch proponent of such legislation.

He believes the purpose behind the muddling is to mould sentiment for the repeal of this seaman's Magna Charta, in the interests of the big shipping interests.

"The delay in putting into effect the seaman's act is blamable on the department of commerce at Washington, and on the ship-owners," said Furuseth.

"Three months ago I offered my services gratuitously to aid in getting everything ready so that all the provisions of the bill would go into effect on Nov. 4, without the slightest bit of delay or difficulty. My services were refused, and instructions on the bill from Washington to the various port officials, who are in charge of the local administrative power of the bills, were delayed in being sent out.

"As a result, on Nov. 4, when the bill went into effect, both government officials and ship-owners were in hysterics because they were unable to meet the requirements of the law."

Furuseth took particular exception to the ruling of General Supervising Inspector Usher at Washington, whereby seamen after one examination were compelled to take a separate one as to fitness for lifeboat service.

This, said Furuseth, is directly contrary to the sense of the law, which contemplated only one examination, a seaman's ability to handle lifeboats being implied in his general efficiency test.

The author of the act at once got into communication with Washington to file his protests and his views of the law.

ROTARIANS ELECT AMID EXCITEMENT

They had a regular riot Monday night during their annual meeting and election—the Rotarians, at the Washington Annex. There were speeches, and phoney telegrams, and a Rotarian newspaper, and all sorts of things.

Election result: President, H. W. Moulton, of Moulton Printing Co.; vice president, Clifford Wiley, of Lewis, Wiley & Morse; sergeant-at-arms, A. A. Gardner; trustees, J. J. Agutter, A. B. Clark, S. M. Cronk, H. J. Gille, A. J. Hamilton, M. J. Hennehan, Joseph Jacobs, F. L. McNally, J. J. Murphy and Claude A. Philbrick.

CATCHES FISH WITH HEAD LIKE A DOG'S

Acretus Willoughby reposes Tuesday in a pickling solution at the university, the possession of Prof. Trevor Kincaid, who says it is the third specimen in existence.

It is a fish, with a head like a dog, and was captured at Gig Harbor by Mrs. Mabel Weiler. The only other specimens are at the National Museum at Washington, D. C., and the other at the university. It is six feet long and scaleless.

TOOTH TALKS

On Filling Teeth
By EDWIN J. BROWN
D. D. S.
Seattle's Leading Dentist

705 to 715 First Ave., Union and Washington Blocks.

The Largest Dental Office in the World.

Imitated by Many, Equaled by None

The filling of teeth is one of the most vital necessities to human comfort and life. If every person gave their teeth proper care in cleaning and called on their dentist every six months after they were 6 years old, dentistry would be confined largely to cleaning, treating and filling teeth.

Fillings are made with gold, alloy or synthetic cement, which resembles the enamel so closely that it is almost undetectable from the natural teeth. Many fads and fancies about fillings have come and gone, but these three are here to stay, because they have stood the test and are the best, while other fillings, like porcelain inlays, have been used for a time as money-getters and then given up as failures.

I guarantee all fillings and cannot afford to use any but the best.

"I wonder why my back is so weak."

Every Picture Tells a Story

Be rid of that ache!

DON'T worry and complain about a bad back. Get rid of it. It's a sign you haven't taken good care of yourself—been eating wrong things and haven't had enough air, exercise and sleep. Probably this has put your kidneys a little out of order. Get back to sensible habits and give the kidneys something to relieve them. Then, if it's kidney backache, you'll soon be over it, and the dizzy spells, lameness, stiffness, tired feeling, nervousness, rheumatic pains and bladder troubles will go, too. Use Doan's Kidney Pills. Others have tried them and proved their worth. Plenty of cases right here in Seattle.

Seattle people tell how it's done

<p>Blewett Street S. D. Beardsley, retired carpenter, 120 Blewett St., says: "I was troubled greatly by my back and hips. I couldn't stoop over and I had a great deal of trouble from the kidney secretions. I used Doan's Kidney Pills for these ailments and they fixed me up in good shape. When I was helped so much, I publicly recommend Doan's Kidney Pills and now I am glad to praise them again."</p>	<p>Carleton Ave. (Georgetown) Mrs. C. E. Splak, 6624 Carleton Ave., says: "My back ached day and night and I couldn't rest. My back was lame and weak and when I tried to straighten after stooping, sharp pains often darted through me. I was nervous, had headaches and terrible dizzy spells. My kidneys acted too freely and gave me no end of annoyance. The first box of Doan's Kidney Pills greatly relieved me and with continued use the trouble soon left."</p>	<p>Forty-Second Ave. S. Guy Q. Robinson, plasterer, 4212 42nd Ave. S., says: "Hard work caused a terrible pain in my back. When I went to bed, my back hurt me so that I could hardly sleep, and it ached all the time. When I stooped, it was all I could do to straighten again. I had nervous headaches and often had to stop work. The kidney secretions passed too often and this weakness made me get up two or three times at night. Doan's Kidney Pills cured me and made me feel like a different man."</p>
<p>Fifteenth Ave. W. Eldridge Goding, retired sea captain, 3211 15th Ave. W., says: "I had considerable trouble with my kidneys. The kidney secretions passed far too often and obliged me to get up at night. Doan's Kidney Pills greatly relieved these ailments."</p>	<p>Brooklyn Avenue Mrs. M. E. Reveille, 4311 Brooklyn Ave., says: "For a long time I was troubled by rheumatic pains in my limbs. My back was lame and used to ache all the time. I didn't rest well at night. Morning I felt tired and worn out. I had severe headaches, too. Hearing so much about Doan's Kidney Pills, I tried them and they brought me great relief."</p>	<p>Woodlawn Park Ave. W. L. Baker, railroad conductor, 4103 Woodlawn Park Ave., says: "The first I noticed that there was something wrong with my kidneys was when my back began to ache. I had headaches and dizzy spells, too, and my back got lame and weak. My kidneys were very irregular in action. Doan's Kidney Pills soon relieved me."</p>

DOAN'S Kidney Pills

Every Druggist has Doan's. 50c a box. Foster-Milburn Co., Buffalo, N. Y., Mfrs.

Wrigley's couldn't be better if made for the crowned heads—

It's the smoothest, cleanest, most delicious chicle confection possible to produce. It has gained first place as the largest seller in the world—strictly on its merits.

Look at the sealed package. It guards the contents against air, moisture and impurity as carefully as men, machines and money can make it. Every buyer of Wrigley's gets what he's entitled to—a Perfect Product.

COMING ON THE RUN HUMPTY OVER THE GARDEN WALL!

FIRST AID TO THE INJURED!

ME FOR THE SCRAMBLES NOW!

LUNDY CHANGES HIS MIND ON DAM

Councilman Lundy Monday afternoon departed from a stand he has maintained consistently when he took sides with City Engineer Dimock in favor of appointing a board of expert engineers to study conditions at the Cedar river dam and report on the best methods of siting.

Heretofore Lundy has aligned himself with the city utilities committee in favor of trying out the siting plan before resorting to the board of experts.

The council went over Mayor Gill's veto of the ordinance appropriating \$25,000 for sealing a limited area of the dam.

TO TEACH SPEAKING

Carl E. Croson, attorney, will conduct a class in public speaking as a part of the evening work of the Y. M. C. A. The course will consist of 10 lessons, one each week for 10 weeks, and this will be succeeded by an advanced course of work and drill along special lines of public speaking.
