

### An Attractive Mouth Is More Than Half of Beauty

A CLEAN, well-formed mouth, with firm, even teeth, and the smile of confidence which arises from the knowledge of this—here is the better part of a handsome face—of physical beauty.

TEETH covered with tartar; broken or irregular or discolored teeth; artificial teeth badly matching your own; ill-fitting plates—these are detriments which will more than neutralize the good impression of fine eyes, regular features or clear complexion—serious disadvantages.

WHY allow the effect of bad teeth to mar your beauty and your very efficiency? Our "NATURE TEETH" built into your mouth to perfectly match the ones which grew there will remedy all your tooth and mouth defects. Let us examine you free.

### A Healthy Mouth Is More Than Half of Health

PERFECT health in the mouth, with the teeth sound and firm, and the perfect "bite" which permits of the proper mastication of the food; with the salivary glands in perfect working order and the breath sweet—here is the better part of stomach health—of general health, strength and efficiency.

TEETH covered with tartar, perhaps receding gums and pyorrhea; broken, decayed and missing teeth; ill-fitting artificial teeth; an unclean mouth and malodorous breath—these are disadvantages that will more than overbalance a naturally healthy stomach and a constitution originally strong. Dangerous defects!

WHY poison your stomach with germs bred in the mouth, starve it for want of properly prepared food? Why suffer the thousand ills that arise from an unhealthy mouth—and go on letting your case grow worse by procrastination? Take matters in hand at once and come to us today for free examination and advice. This will involve no obligation whatever.

REMEMBER that when we guarantee that you will not suffer the slightest pain or shock it is an absolute "moneyback" guarantee. And our work is guaranteed to remain in perfect condition for 12 years.
