WILSON TELLS CONGRESS OF ULTIMATUM HE HAS SENT KAISER ON "SUB" SITUATION

one interpretation. "That point has now unhappily been reached. "The facts are susceptible of but one interpretation. "The imperial German government has been unable to put any limits or restraints upon its warfare against either freight or passenger ships.

"It has, therefore, become painfully evident that the position which this government took at the very outset is inevitable, namely, that the use of the submarines for the destruction of an enemy's commerce is of necessity, because of the very character of the vessels employed, and the very methods of attack which their employment, of course, involves, incompatible with the principles of humanity, the long established and incontrovertible rights of neutrals and the sacred immunities of noncombatants.

"I have deemed it my duty, therefore, to say to the imperial German government that if it is still its purpose to prosecute relentless and indiscriminate warfare against vessels of commerce by the use of submarines, notwithstanding the now demonstrated impossibility of conducting that warfare in accordance with what the government of the United States must consider the sacred and indisputable rules of international law and the universally recognized dictates of humanity, the government of the United States is at last forced to the conclusion that there is but one course it can pursue; and that unless the imperial government should not immediately declare and effect an abandonment of its present methods of warfare against passenger and freight vessels, this government can have no choice but sever diplomatic relations with the government of the German empire altogether.

"This decision I have arrived at with the keenest regret; the possibility of the action contemplated I am sure all thoughtful Americans will look forward to with unfeigned reluctance.

Declares U. S. Is Spokesman for Humanity

"But we cannot forget that we are in some sort, and by the force of circumstances, the responsible spokesman of the rights of humanity, and that we cannot remain silent while those rights seem in process of being swept utterly away in the maelstrom of this terrible war.

"We owe it to a due regard for our own rights as a nation, to our sense of duty as a representative of the rights of neutrals the world over and to a just conception of the rights of mankind, to take this stand now with the utmost solemnity and firmness.

"I have taken it, and taken it in the confidence that it will meet your approval and support.

"All sober-minded men must unite in hoping that the imperial German government, which has in other circumstances stood as the champion of all we are now contending for in the interest of humanity, may recognize the justice of our demands and meet them in the spirit in which they are made."

SENATE VOTES FOR ARMY OF MILLION

WASHINGTON, April 19.—The senate last evening, in an electrical atmosphere caused by announcement of the joint session called by the president for today, passed an army reorganization bill which would give the United States a standing army with a peace strength of 250,000 men.

The bill provides for a reserve and militia force which will raise the army's strength in time of war to a million men.

The house is expected to immediately ask for a conference, the purpose of which will be to combine the senate bill and the Hay bill, passed recently by the house, into an army measure, upon which both branches of congress then will vote.

The senate made several amend-

ments to the army bill last night in the closing hours of debate.

Make Service More Inviting
Two of these contemplate making military service more pleasant and profitable for the enlisted man.

One, introduced by Senator Thomas, makes it a criminal offense for civilians to refuse admission to places of public entertainment to enlisted men in uniform. Another provides for vocational education of enlisted men, compelling instruction either in agriculture or the mechanical arts.

The various units in the army of a million are provided thus:

A regular standing army of 250,000 men.
A volunteer reserve corps of regular army men who have served their enlistments, estimated to aggregate 261,000 men.

A federalized National Guard with an estimated strength of 280,000 men.

A reserve corps to be organized among school and college youths in time of war or danger of war, which would recruit a force of trained young men, drilled under instruction of regular army officers, to the number of from 200,000 to 400,000.

The amendment which furnished the latter reserve body was introduced by Senator Hardwick.

It provides that every school or college in the United States which has more than 100 students of the age of 15 or over, if the faculty of such schools apply for instruction and the students consent, shall be furnished by the department of war with a commissioned regular army officer as drillmaster.

Will Be Subject to Call
Application for such training would be voluntary, but all students of 18 or over receiving training would be subject to call to the colors in time of war or peril during their training period.

The bill also provides an appropriation of \$15,000,000 for government plants for the production of nitrates, for use in the manufacture of ammunition.

AGE LIMIT TAKEN OFF IN CHARLIE CHAPLIN PARADE

More news about the Charlie Chaplin parade, next Saturday!

It has been decided that the age limit ought to be removed. John Hamrick, manager of the Rex, where Charlie is showing this week in his burlesque on "Carmen," is one of the promoters of the parade. John thought all boys participating should be under 16, and The Star so announced yesterday.

But now it has been decided that they can be any age.

So, if you can imitate Charlie, dig up a Chaplin costume and get in the parade. If you want to enter, you must leave your name and address, either at the box office at the Rex or with the photoplay editor of The Star. Send 'em in by mail if you can't call in person.

The parade will be held Saturday noon.

Charlie Chaplin will gather in front of the Metropolitan theatre at 11:45.

Twenty-five dollars in cash will be given for the best Chaplin, and a \$25 watch for the second best, and there will be other good prizes.
