# DEMANDS THAT HUGHES SPEAK

BY GILSON GARDNER  
WASHINGTON, May 26.—After another visit to Oyster Bay and the progressive headquarters in New York, and a talk with Col. Roosevelt and George W. Perkins, I am convinced that the progressive party convention will balk at the nomination of Charles E. Hughes.  
This intent emphases less from Col. Roosevelt than from the delegates to the convention.  
Hundreds of letters have come to Perkins from progressives who are expecting to be delegates, and the tenor of them is the same.  
They say they have read intimations that the progressives would accept Hughes in place

# 'ARISTOCRATS OF THE LABOR WORLD' CALLED DECEPTION BY ROADS!

A national group of all railroad brotherhoods—engineers, firemen, trainmen and conductors—strike to win an eight-hour day. The railroads say the men's requests, if granted, would cost them ONE HUNDRED MILLION DOLLARS a year, and cause increased rates. President W. S. Carter of the Firemen's union has written a series of articles for The Star to show the men's demands are justified. This is the fifth article.—EDITOR.

BY W. S. CARTER  
President of the Brotherhood of Locomotive Firemen and Engineers

I have before me as I write one of the more than a million attempts of the public mind to prejudice against certain railroad employees in their present efforts to secure a reduction in their hours of service.

It is printed in bold type, in glaring red and somber black. It is entitled "The Aristocrats of the Labor World."

Perhaps you have seen it. It purports to show the monthly earnings of engineers and firemen employed on Western railroads, concealing the fact that the statement is based on the month of October, 1913, a month in which approximately ten per cent of the entire year's business was done; a year surpassing all its predecessors in traffic handled; a period during which the demands upon the men were greater than ever before.

It states the number of men who earned large amounts during this exceptional month, including therein all of the highly paid passenger men. No mention is made of the fact that in the present demands of engineers, firemen, conductors and brakemen for an eight-hour day men engaged in passenger service are EX-

PRESSELY EXEMPTED therefrom. To give emphasis to the assumed unreasonableness of the freight men's demands for an eight-hour day, it names 17 engineers and their earnings for the year ending June 30, 1914. EVERY ONE OF WHOM IS IN PASSENGER SERVICE.

There being no legal restrictions on length of continuous service of employees on Canadian railways, 18 and 20 hours a day are often exacted, with consequent increased compensation.

All these engineers and firemen are included in producing these high earnings. The reader is not presumed to know that NO CANADIAN RAILROADS ARE INCLUDED in the present eight-hour movement. Let us take some of these freight men who did work during the month of October, 1913, and whose earnings are included in this statement, but whose names are not published for the edification of the public:

E. J. Hayden, engineer, Great Northern. Earned \$12.95, worked 395 hours, an equivalent of 49.3 days of eight hours each. His wages equaled 53.9 cents per hour, or \$4.31 per eight-hour day.  
L. N. Snyder, engineer, Rock Island. Earned \$17.45, worked 405 hours, an equivalent of 50.6 days of eight hours each. His wages equaled 42.6 cents per hour or \$3.49 per day of eight hours.  
G. McElmurry, fireman, Chicago and Northwestern. Earned \$15.29, worked 412.7 hours, an equivalent of 51.6 days of eight hours. His wages equaled 32.8 cents per hour, or \$2.62 per day of eight hours.

Pages could be filled with examples like the foregoing. If employees in other industries would work like this, they would be called slaves or serfs. Railroads work their engineers and firemen in this manner, and then to discredit them in the minds of the public, have slurringly referred to them as "aristocrats of the labor world."

# MY TIRED FEET ACHED FOR 'TIZ'

Let Your Sore, Swollen, Aching Feet Spread Out in a Bath of "Tiz."

Just take your shoes off and then put those weary, shoe-crushed, aching, burning, corn-pestered, bunion-tortured feet of yours in a "Tiz" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "Tiz" bath. When your feet feel like lumps of lead—all tired out—just try "Tiz." It's grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions. There's nothing like "Tiz." It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture. Get a 25-cent box of "Tiz" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you desire.

# KENNY BEATON ARRIVES HOME

"Kenny" Beaton is back in town. Beaton is the man who, as a member of The Star editorial staff, began the Town in Review column in the Pink edition.

The style he adopted—sometimes just a word or two to a line, with stars between the lines—made an instant hit. His quaint philosophy and his kindly humor brought fame to the author of the Town in Review, and now he is one of the high-salaried men with the Hearst papers.

After leaving The Star, Beaton was on the Post-Intelligencer here for a short time. For the past 18 months he has been employed on the San Francisco Examiner, writing the same kind of column he first wrote on The Star.

He is now on his way to Chicago to cover the republican convention for the Hearst papers. "K. C. B." as he is familiarly known, arrived in town Thursday night, and was met by many of his old-time friends. Mrs. Beaton is with him. They will remain here for ten days. Friday night he will be the guest of George Hood at the Moore theatre to see Otis Skinner in "Cock o' the Walk."

Saturday night he will be the guest of the Press club at a stag reception. Beaton recently signed a five-year contract with Hearst, who will nationalize the K. C. B. humor.

of Roosevelt. They want to know by what authority anybody makes any such statement.

They ask, in addition, what is Justice Hughes' position on the progressive platform issues, as outlined January 11 in Chicago, and what Justice Hughes thinks of Americanism and preparedness. Even Col. Roosevelt, I find, anxious as he is for party harmony, feels that Justice Hughes ought to make known his position at once if he hopes for any indorsement from progressives.

The justice may be an ardent advocate of preparedness; then again, he may not. Nobody has assumed to speak for him, nor has anybody assumed to profess to know his mind on current issues.

Not even a hint has come from Justice Hughes to his most intimate friends as to what he thinks about the Wilson administration, the handling of foreign relations or how large an army or navy the United States ought to provide. If the justice will make his position public at this time—or have his views made public for him in any way which will be authoritative—they will be considered by the progressive leaders, including Col. Roosevelt, with a view to securing harmonious action by the two conventions.

Col. Roosevelt is anxious, I find, above all things, to have harmony and to heal the breach between the parties. He puts this result above any personal consideration and entirely above any possibility of his own nomination.

# BABY BORN AFTER DEATH OF MOTHER

JERSEY CITY, May 26.—Two minutes after her mother's death, a baby girl was brought into the world by Dr. Irwin Markowitz, a young interne in the city hospital, by a Caesarian operation.

# BEACON COAL

## YOU CAN OWN

An Interest in a Coal Mine

A Coal Mine right here at home—a Seattle industry, backed by Seattle people—and managed by conservative Seattle business men. A big 7-foot seam of Coal already uncovered, with over 600,000 tons of Coal above tunnel level. Coal is mined by gravity, which means low mining cost with corresponding large profits. Two shifts of men now working driving for our giant seam of Coal 17½ feet in thickness.

## This Is What You Can Do

You can investigate our property at small trouble and no expense. Our free auto leaves downtown sales office, 906 Second Ave., daily at 10 a. m. and 2 p. m. You can satisfy yourself as to what we have. Do not take our word for it, or anybody else's. Use your own judgment. Surely you can use your own judgment.

Over 200 stockholders have investigated and already bought stock. They will make money—no ifs or ands about it. They will make money. You can do the same.

You can buy stock today for only 75 cents per share. At close of business June 3rd the price positively goes to par, \$1.00 per share. Get in before the raise. Ask us about our easy payment plan. Call today.

# MEET TO DISCUSS LOGGED-OFF LANDS

State officials, professors, politicians and farmers are wrestling with the logged-off land problem on the University of Washington campus Friday at a conference called by the institution.

They are trying to point out ways that would eventually put crops in to the thousands of acres that are now idle and shorn of their timber.

Gov. Lister himself handled the gavel and set the experts to work Friday morning.

After President Suzzallo had pointed out that the university hopes to see progress made on the logged-off land proposition as the result of yearly conferences, Gov. Lister discussed the reforestation of the non-agricultural lands.

N. B. Coffman talked on the bringing of logged-off lands under cultivation and Prof. Henry Landes, state geologist, spoke on the physical features and ultimate use of logged-off lands.

After Prof. B. P. Kirkland had

# REAL PAINLESS DENTISTS

In order to introduce our new (whalebone) plate, which is the lightest and strongest plate known, does not cover the roof of the mouth; you can bite corn off the cob; guaranteed 15 years.

Gold crown.....\$3.00  
\$15 set of teeth (whalebone) \$6.00

# Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, soluble and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentation, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

# MME. RAPPOLD WILL SING HERE

Madam Marie Rappold, prima donna of the Metropolitan Opera company, will appear at a private recital before an audience of Seattle music lovers Wednesday evening, at the First Presbyterian church.

The fame of Madam Rappold's appealing soprano voice is far flung. Since 1905 she has been one of the leading singers in the Metropolitan Opera company in New York.

She is celebrated not only for her wondrous voice, but also for her great personal charm and beauty.

Madam Rappold is a Brooklynite. Since she came into prominence she has received numberless flattering offers from foreign opera companies, but she prefers America.

Several seasons ago the king of Rumania decorated her after she had added greatly to the brilliance of an opera season in Bucharest.

# MOST POPULAR GIRL

By more than 1,000,000 votes, this bright-eyed maiden was judged the "most popular girl in town" by patrons of movie theatres in Wilkesbarre, Pa., in a contest conducted by the Wilkesbarre Times-Leader.

Miss Brown works behind a counter in a department store. She defeated the daughter of a wealthy silk mill owner.

MISS MARY BROWN
