NEGRO DANCE ENDS IN FATAL SHOOTING

In a fight over a woman, George Brown, 4714 13th ave. N., shot and killed Art Walden, negro dock worker, at 4 a. m. Sunday, after an all-night dance at 1214 Jackson st.

Brown walked into police headquarters after the fight, explained what had happened, and was locked up. He said he shot in self-defense. The police immediately rounded up a dozen witnesses.

The woman in the case, however, got away before the police arrived and has not been booked.

All were negroes, and the dances are said to have been regular Saturday night affairs there.

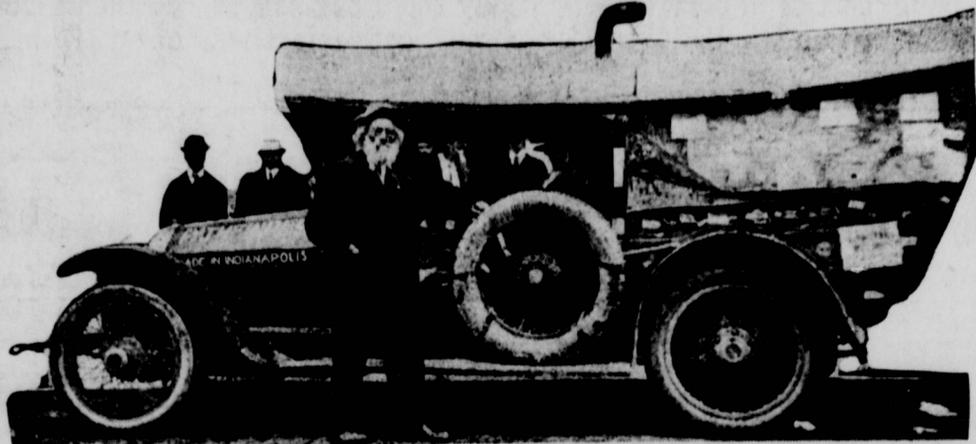

HENRY SCHMITZ, son of Ferdinand Schmitz, Seattle banker, left Saturday for St. Louis, where he has a botanical scholarship.

DAN PULLEN, former university football star, has been elevated to the rank of captain in the United States army, at West Point.

MEEKER ARRIVES OVER OLD OREGON TRAIL

FRENCH WOMEN SAVE IN DRESS

Wear Old Clothes So As to Help Swell War Fund

RUSSELL SEES EFFECT

By CHARLES EDWARD RUSSELL PARIS, FRANCE, SEPT. 18.—WHAT DO YOU THINK OF A PARIS OF PLAINLY DRESSED WOMEN, WITHOUT STYLE AND WITHOUT DISTINCTION? YOU DON'T THINK OF IT; IT ISN'T THINKABLE. YOU MIGHT AS WELL TRY TO THINK OF HOT ICE, BOILING SNOW, WALKING ON THE SKY, BREATHING A VACUUM.

"THE POOREST SHOP GIRL IN PARIS, RUNS THE OLD SAYING, 'DRESSES WITH ART AND STYLE.'" Plainly dressed French women would be like an intelligent congress or an unselfish politician. Nature, you say, produces no such things.

Sees New Marvel Yet I have looked upon that marvel of marvels—exactly that.

The men of this extraordinary nation have astonished the world on the battlefield and in the managing of their government.

Its women have been just as wonderful in their household and personal affairs. For the average French woman to sacrifice her artistic taste in dress is like asking her to give up her soul immortal, but she has done it now.

To such an extent that on a Sunday you can drive all day in the avenues and parks and scarcely a Frenchwoman not dressed with extreme simplicity and pinching economy.

Wear Old Dresses They wear their old dresses and old styles. In the department stores they raid the bargain counters for such cheap stuff as formerly they would not look at.

What is more, they did all this on their own motion. No government had to lecture, to exhort or even to ask them to save. They seem to have felt, all of them, that when the life of France hung in the balance there was no time to be thinking of dress, and they put the clamps down hard on every expenditure, big and little.

The whole nation is doing it. Thrift was always a pre-eminent French virtue, but since the war began these people have found new wrinkles in it that make their old-time thrift look like extravagance.

Fight War on Stockings M. Ribot, their financial genius, says they are fighting the war on their stockings, meaning their savings. But the amazing thing is that as fast as they empty the stockings, and all, she is in the best condition, and the least likely to get hurt when the thing is over.

For this reason (with some others) France is far and away better off than any other country in the war. High prices and all, she is in the best condition, and the least likely to get hurt when the thing is over.

DOUBLE FUNERAL Mrs. Margaret Cunningham, 72, mother of Frank Cunningham, and Mrs. George White, 62, mother of Mrs. Frank Cunningham, who died Friday within three hours of each other, were buried in the same plot at Calvary cemetery Monday.

The double funeral service was held at the Church of the Sacred Heart. Mrs. Cunningham was married 46 years ago and is survived by four sons. She came to the Northwest in 1870. Mrs. White has been in the city for 26 years.

COLUMBIA S. C., Sept. 18.—President Wilson today brought to Columbia the body of his sister, Mrs. Annie E. Howe, to be buried in the church yard where the bodies of his father and mother have rested many years. The funeral party reached Columbia shortly before noon.

The city refrained from formal public marks of sympathy, but there were many persons at the train when the president, Mrs. Wilson and others of the party arrived. The absence of ceremony was in obedience to the wishes of the family.

Driven by a kerosene motor, a motorcycle has been invented that carries four persons seated ahead of one another and is controlled by the man on the back seat.

One Berkshire, Mass., man buys shoes so large that they fit either foot. He also buys trousers large enough so in case he gets them on wrong side to, he will suffer no discomfort.

AIR SQUADRON IS VICTORIOUS

French Birdmen Swoop Down on Trenches of Teuton Soldiers

GUN CREWS DESERT

BY HENRY WOOD U. P. Staff Correspondent PARIS, Sept. 18.—For the first time in the history of the world, the French used an aeroplane squadron to lead the successful attack on the village of Bouchevignes, north of the Somme, it was learned today.

Twenty fast armored aeroplanes, each mounting three machine guns, one pointing forward and two downward, charged the German lines before the French infantry left their trenches.

Flying high above this charging air column were French aviation officers who directed the attack several hundred feet below in much the same manner that an officer directs an infantry charge from a sheltered dugout.

The French flyers swooped low over the German lines as the artillery lifted and raked the German trenches with a murderous fire. Prisoners report that this form of attack had a remarkable effect upon the Germans who had survived the artillery and were awaiting in their half-ruined trenches the coming storms of French infantry.

They flew along the trench and in some cases caused machine gun crews to desert their posts. As the French infantry came on with a rush, the air chargers drove forward to the second phase of their work, turning their machine guns on German reserves being brought into action along the roads leading to Bouchevignes.

BUILDING GRAFT CHECK IS MADE

Prosecutor Checks Up on Man Who Robbed Mrs. Carstens

\$60,000 IS THE AMOUNT

Books and accounts kept by Charles Drake, as superintendent in charge of the construction of the Luzerne apartments, Soren ave. and Pine st., were being checked over Monday by Prosecutor Ellis, who says Drake has confessed to a conspiracy by which Mrs. Ida M. Carstens, widow of Ernest Carstens, has been defrauded out of thousands of dollars.

The exact amount of the alleged frauds, Ellis says, cannot be determined until accountants have finished with the books.

Drake is in the city jail on a charge of grand larceny, together with Earl Baumgartner, timekeeper, who was arrested 10 days ago for padding payrolls.

Mrs. Carstens' suspicions were aroused some time ago, it is said, when she realized that the building, the cost of which was estimated at \$60,000, was actually piling up to over \$100,000. Ellis says it will total close to \$120,000.

In his confession Drake is said to have admitted that thousands of dollars' worth of materials and labor was diverted to other jobs and charged against the Luzerne apartments.

Drake formerly was manager and superintendent of construction for the Central Realty Co., and had charge of all the building operations of that company, including the Luzerne.

SHORT NEWS

KILBOURNE & CLARK CO., Seattle manufacturers of wireless telegraph instruments, will be reorganized to increase the capital stock from \$100,000 to \$1,000,000.

J. D. HOGE, Seattle banker, leaves shortly for the Chicago conference of the republican national committee. Later he will attend the American Bankers' association convention.

Portrait of Dr. M.O. Sipes, D.D.S., with text "M.O. SIPES, D.D.S."

FREE PAINLESS DENTISTRY

Today marks the beginning of the eighteenth week of Dr. Sipes' remarkable free demonstration of one of science's most precious gifts to humanity—genuine painless dentistry.

The wonderful new anesthetic is no longer an experiment but a demonstrated fact, as the several thousand grateful patients who have been treated at the Boston Dental offices during the free demonstrations have good reason to know.

In not one single case in all this great number did the patient feel even the slightest sensation of hurt or pain.

Unlike any other method heretofore used, there are no unpleasant after-effects; no nausea or dizziness, no headaches.

The new discovery is so simple that medical men marvel at its work. Just a little of it applied to the gums and every tooth in the head could be extracted at one sitting without a bit of feeling.

Dr. Sipes and the Boston Dental staff are the only dentists in Seattle, if not on the entire coast, possessing a supply of the precious, harmless fluid that is bringing relief to countless thousands throughout the world.

The free demonstrations will continue all this week. All are welcome to test its marvelous powers without one penny of cost. No charge whatsoever will be made for extracting teeth—no matter how many—and you don't have to order other work. Dr. Sipes' own faith in the new painless method is evidenced by the fact that he is spending hundreds of dollars of his own money in conducting the free demonstrations.

Come any day, between the hours of 9 and 5 o'clock. If your time is limited to certain hours, a special appointment card will be given you so that you can come at a time most convenient to you.

Remember, every operation is absolutely painless at the Boston Dental offices—this we guarantee. Specialists in all departments do the best work ever turned out of a dental laboratory at very moderate cost. Gold crown and bridgework, and artificial teeth that cannot be detected from your natural teeth, etc.

The Boston Dental offices were established in the present location—1420 Second avenue, opposite the Bon Marche—more than fifteen years ago. It is one of the biggest, busiest dental establishments in the United States.

VARSITY NOTES

Hamilton Wolf, artist, and son of the famous wood engraver, has arrived to take charge of the art classes at the state university.

Miss Margaret Chinn, age 23, is the first Chinese woman to matriculate in the state university. She will take drawing, design, Spanish, botany and English.

Greek letter fraternities on the campus pledged 170 freshmen during the first week of college. Sororities, by their own rules, are not permitted to pledge until the end of two weeks.

"The test of a college man is his willingness to serve the state unselfishly." President Suzzallo told the men at the Freshman Riot Saturday night.

The awakened interest in Spanish, as a commercial language for Americans, was noted at the university last week, when 540 registered for instruction. This is about 100 more than ever before.

U. S. CHIEF TOURS WATERS OF SOUND

More aids to navigation in Puget sound will probably be recommended soon by Dr. E. Lester Jones, chief of the U. S. coast and geodetic

survey, who was here cruising around on inspection Monday morning. He came from Washington, D. C., and was taken out by Capt. Charles Basford, veteran sound navigator of the state fish commissioner's cruiser, Gov. Elisha P. Ferry.

HOLD DANCE MAN

John Brodin, committeeman in charge of the Drove club dance, at Strand hall, Fourth ave. and Pine st., Sunday night, was arrested by the police for violation of the ordinance against conducting Sunday night dances for revenue. Police say he let them in free, but charged 50 cents for hat checks.

RAID GAMING DEN

Police swooped down upon Ah Sam's Chinese gambling game, at Weller st., Sunday afternoon, and arrested the alleged proprietor, Ernest Stone, B. Peterson and A. Gunderson for being in the place.

Benetol

For Mosquito or Other Insect Bites. Removes danger of infection. See full directions in booklet packed with each Red Carton. For sale at all druggists.
