## ROW OVER GIRL STARTS HUNT FOR 2 OF DEUTSCHLAND CREW

NEW LONDON, Nov. 3.—Unless they succeed in rounding up two men said to be sailors from the German submarine Deutschland, involved in a stabbing affair today, the local police probably will demand that Capt. Koenig investigate and turn them over.

According to the authorities, one of the sailors forced his attentions on a girl in a restaurant, and when a waiter interposed, the latter was stabbed in the arm with a pocket-knife. Both men hurried away, and the police search of the Wilhelm, mother ship for the Deutschland, was unavailing.

The Deutschland cargo will be speedily unloaded, and the work of loading be hastened.

There are many bargains listed in Star Want Ads.

## 'FRESH CHICKEN' LAW MAY MAKE DIVORCE EASY

PHOENIX, Ariz., Nov. 3.—Phoenix, the capital of Arizona, may become a second Reno if a proposed amendment to the constitution is adopted Nov. 7. The amendment provides a statutory residence of six months and otherwise makes marriages almost as easy to break as "having a tooth pulled and far less painful," as one politician put it.

In addition to the regulation causes that are now on the statute books, the new law provides for a severance of marital relations when either party is insane; when either is addicted to the use of drugs; incompetent, diseased or cruel.

Attorneys say the provisions will let down the bars and make it extremely simple to establish a cause for action.

Very little attention is being given the proposed amendment.

The newspapers of the state are practically ignoring it and the only time it has been mentioned was at a meeting in Phoenix, at which one of the candidates called it the "Fresh Chicken" law.

There is a well organized campaign being waged by hotel men and others in favor of the amendment, and the proprietor of one leading hotel here has declared that with so liberal a statute, aided by the salubrious climate and "many other advantages," Arizona, and especially Phoenix, will soon put Nevada and Reno out of the running.

NEW YORK, Nov. 3.—Reports on betting odds varied widely today, with the Wall street wagers more in Hughes' favor than the up-town betters. Republicans reported that odds on Hughes were from 10 to 7 and 10 to 6, while democrats said the prevailing rate was 10 to 9 and 10 to 8 on Hughes. The amounts placed appeared to have fallen off. Commissioners estimated today only about \$25,000 was bet yesterday.

## W. L. Gazzam WILL VOTE FOR No. 24

I RECENTLY read an article, "The Psychology of Alcohol," by Prof. G. T. W. Patrick, of the University of the State of Iowa, and I wish every opponent of Initiative Measure No. 24 would read the article. Prof. Patrick, I think, has given the best answer to the question, why people use alcohol.

For the benefit of the voters of the state of Washington, that are really and truly interested in the work of bringing the people to temperance, I wish to quote here the conclusion reached by Prof. Patrick in his study of the liquor problem.

"To the psychologist it would appear that the method of SUBSTITUTION will have more satisfactory results in the end than the method of direct SUPPRESSION. Merely to suppress the sale of alcohol is like putting a lid on the tea kettle to prevent the steam from escaping. As long as the fire burns brightly beneath and there is water in the kettle, something will probably happen to the lid. If the lid is screwed down tightly enough, something will probably happen to the kettle. We must either provide some way for the steam to escape or else remove the fire. So we must either provide some substitute for alcohol, or else, by a different kind of education, or a different manner of social life, bring about such a harmony in the human personality as to make unnecessary the resort to temporary expedients."

"While the desire for alcohol is increasing with the complexity of society, it is actually true that drunkenness is decreasing, and it is possibly true that the number of total abstainers is increasing. These things are determined by custom, by individual environment and education, and by the power of self-control. But the steady increase in the desire for alcohol is shown not merely in the steady increase in its consumption, but still more in the fact that it increases in the face of PUBLIC and PRIVATE sentiment, LEGAL STATUTE and social effort."

Initiative Measure No. 24 appears to me to be drawn along the lines of SUBSTITUTION, as pointed out by Prof. Patrick. In short, Initiative Measure No. 24 is a substitute measure, which regulates the use of wild beverages in a rational and reasonable manner. The measure is such a big improvement over the present law that the two are not to be placed in the same class of temperance measures. The present law encourages the use of hard liquors, and the permit system is working out in such a manner as to increase intemperance, by aiding and abetting the unlawful traffic by the blind-piggers and bootleggers.

It looks to me as if the drift of sentiment is toward national temperance, and that the brewers have sensibly anticipated this tendency in preparing and submitting to the people a real and true temperance measure.

I have decided to vote for Initiative Measure No. 24, and I believe that every man and woman who believes in temperance should support and vote for it.

W. L. GAZZAM.

## CONGRESSMAN HOPE OF 'DRYS'

Lone Prohibitionist in House Looks for Others to Come

LOOKS LIKE FIVE

PROHIBITION VOTE 1912—250,000 approximate. 1914—500,000 approximate. 1916—1,500,000 estimate.

BY HONOR FANNING CHICAGO, Nov. 3.—The "loneliest man in congress," Charles H. Randall, only prohibitionist ever elected to the house of representatives, will have plenty of good company in Washington next March, if prohibition prophets are guessing right.

The "drys" in Minnesota, Kansas and California are confidently predicting they will elect congressional candidates November 7, and the political weseacars may not agree with them, the prohibitionists in Minnesota have strong hopes of sending W. G. Calderwood to the United States senate and leaving Frank R. Kellogg and D. W. Lawler behind at the post.

Here is the prohibition forecast as Virgil G. Hinshaw, chairman of the national committee in Chicago, makes it:

"Calderwood is drawing strength from many sources outside the prohibition party. Frank Day, who was prominent in the administration of the late John A. Johnson, is backing Calderwood."

"Kansas is putting up a stiff fight to elect the prohibition ticket—and the chances to elect Howard E. Kershner of Haviland are good."

"George L. Cleaver, in Imbler, Or., is another congressional candidate on whom we are pinning our hopes. When he ran two years ago he had 16,000 votes. If he increases the vote by 5,000 he will be elected."

"We have a strong congressional candidate in Illinois, Dan R. Sheen of Peoria, whom the prohibitionists sent to the state legislature a few years ago."

"But we are pinning our faith to Randall and Edwards of California, Lobeck of Minnesota and Kershner of Kansas."

"The prohibitionists expect to send five men to congress November 7. Re-election of Randall in the Ninth district in California—including the city of Los Angeles—is assured. He was elected on the straight prohibition ticket in 1914; this year he has the unanimous endorsement of progressives and democrats."

"We expect to elect James S. Edwards in the Seventh district in California. At the primaries his vote exceeded that of the incumbent, a democrat."

"In Minnesota State Senator E. Lobeck of Alexandria is making a splendid run for congress. A. L. Merkle of Minneapolis has the backing of all the 'dry' elements in his district."

## Willie Ritchie Wants Long Bout With Welsh; Would Put Up His Coin

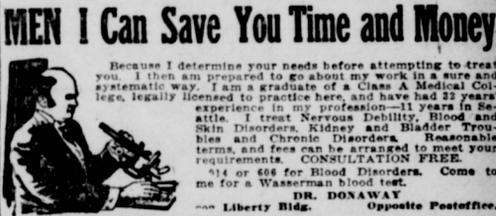

SAN FRANCISCO, Nov. 3.—Johnny Gratton of San Diego will confer in Los Angeles today with Willie Ritchie, who is en route to El Paso where he is to box Johnny McCarthy next week. He declares he is willing to meet the lightweight champion. He also says he is willing to help the promoters raise the \$26,000 Welsh has demanded for such a battle.
