

PAINLESS TEETH CORRECTION

This Office Will Be Open From 9 A. M. Until 8 P. M.

Now that our Modern System of Scientific Dentistry has been perfected, we can treat patients without the slightest pain—without shocks—without discomfort—without any after-effects—without using dangerous drugs or sickly gases.

Our methods are positively safe and harmless—each operation being conducted by duly qualified and efficient dental surgeons—men whose work and conscientious efforts are continually bringing us scores and scores of new patients.

Despite the present condition of your teeth and gums—despite those gaping cavities and abscesses—we guarantee to restore your mouth to a clean, wholesome condition, and this while you sit and smile.

The small cost of this important service will astonish you—come in for a free examination and estimate. No obligation whatever.

Our "Natural" Teeth on our Double Suction Expression Plates are the extreme limits of Plate Perfection. Full upper or lower set, guaranteed for 10 years **\$10**

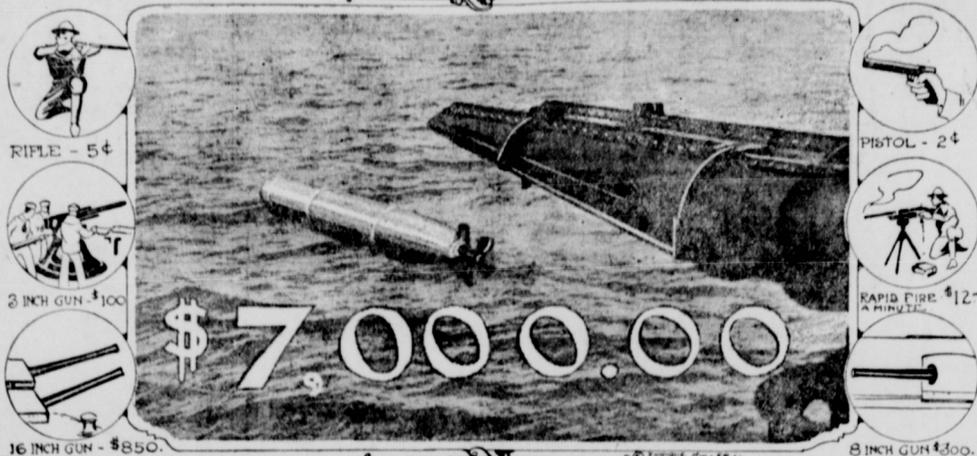

These Plates are all made in our own Laboratories.

ELECTRO PAINLESS DENTISTS

Southeast Corner First and Pike

For Ten Years in Same Location—Dixionally Across From Public Market. Laboring People's Dentist. All Work Guaranteed. Lady Attendant. J. R. VAN AUKEN, Mgr.

ZIP! WHEN TORPEDO BARKS, IT'S \$7,000

Photograph shows how a torpedo is launched—coughed from the tube by compressed air.

Every time Uncle Sam fires a torpedo, ZIP! ZIP!—two houses and lots!

Eleven men must work a year at the average American wage to pay the price thereof. A single broadside from the dreadnaught Arizona means the income of the average workman for 25 years! That's the way our money

will be shot away in case of war with Germany. A 14-inch shell weighs 1,400 pounds and costs \$700. A 12-inch shell, already considered one of our "smaller" shots, costs \$500. The Arizona has 12 14-inch guns, all of which, together with some of her smaller cannon, can be fired at once—at a cost of \$15,000.

Biff—\$7,000. Ten 14-inch shells or one torpedo are counted on to sink a battleship. The cost is the same for ammunition—\$7,000. But the torpedo is the cheaper way because of the lessened expense of firing; also the lesser risk. Compared to a torpedo, a wrist watch is as delicate as a coal wagon.

Copper and nitroglycerine are what make torpedoes costly. There are cannon shells that cost more than torpedoes. The German 42-centimeter shell costs \$9,000. A rifle cartridge costs a nickel. That shows the relative importance of the rifle in modern war.

Clerk Gets His When They Get a Divorce

WAUKEGAN, Ill., April 6.—It looking ahead is essential in business, that is probably the reason Lew O. Brockway, circuit clerk of Lake county, is a successful man. A young couple went to the court house here to secure a marriage license. The county clerk was at home, so Mr. Brockway telephoned for him, and made the young people comfortable until he arrived. "We very much appreciate your

Can't Close Bars on Sunday, So Ban Hits the Grocer

BUENOS AIRES, April 6.—Having tried and failed to close the saloons on Sunday, the Buenos Aires city government is making a similar experiment with the grocery stores. The idea is to give the clerks a day's rest a week. It is not a religious movement. Most grocery stores really do keep their front entrances shut, which the saloons never did, but they do a tremendous side-door trade.

A TREATMENT FOR NERVES

Woman Tells How Lydia E. Pinkham's Vegetable Compound Helped Her. West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all their help, so it shows that I stand it real well. I took the compound when my ten-year-old daughter came and it helped me a lot. I keep it in the house all the time and recommend it."—Mrs. Dewitt Sincelbaugh, West Danby, N. Y. Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound. This famous remedy, the medicinal ingredients of which are derived from choice roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

Two Good Remedies

WORKING TOGETHER, PRODUCE MARVELOUS RESULTS. For instance, Hood's Sarsaparilla, the standard blood purifier, is recommended for conditions that are scrofulous or dependent on impure blood. Peptiron Pills, the new iron tonic, are especially recommended for conditions that are radically or characteristically anemic and nervous. Many persons suffer from a combination of these conditions. They are afflicted with swellings of the glands, bunches in the neck, various eruptions, and sores on different parts of the body, limbs and face, and are besides pale and nervous. If these patients take both Hood's Sarsaparilla (before meals) and Peptiron Pills (after meals) they are reasonably sure to derive four-fold benefit. These two great medicines supplement each other, and the use of both, even in cases where only one may appear to be indicated, is of great advantage. Get them from your druggist.

Messenger Boy of 72 is Full of Pep

PITTSBURG, April 6.—There is a messenger "boy" in Pittsburg who has three grandchildren. He is William Jones, aged 72 years, who "runs" messages for the Postal Telegraph company. But altho he has passed the three-score and ten years allotted by the Psalmist, his employers wish they had more like him. For, rain or shine, he may be seen hurrying thru the streets with all the vim and dash of his youthful fellow-workers.

"Spooning" Pair Are Robbed on Honeymoon

FORT ATKINSON, Wis., April 6.—Andrew Ritzman, returning from Chicago with his bride, was so busy spooning en route that he did not notice until his arrival in the metropolis that his pocket had been picked of \$20.

Takes Knife Blade From Jaw of Mexican

ST. LOUIS, Mo., March 6.—A jackknife blade, over two inches long and an inch wide was taken from the right jaw of Marion Chavis, a Mexican, in St. Mary's hospital. The surgeon who performed the operation said the blade appeared to have been embedded in the jaw for five years. The patient has been unable to talk sufficiently to explain how it came there.

Uplifted by the Sea

UNIONTOWN, Pa., April 6.—Three unidentified men saved the lives of 75 passengers on a Buckhannon and Northern passenger train the other night, when they stopped the train by lighting matches. A 20-ton bowlder had rolled onto the track.
