

Press Club Auditorium! Fifth, Near University! 3 P.M. Wednesday!

Every housewife in Seattle who can possibly come should be there. We want every man who can come to be there, too. A mass meeting is to be held at which the organization of the Seattle regiment of the Woman's Army Against Waste is to be perfected. Mrs. Austin E. Griffiths is going to talk on "Practical Food Saving." And J. A. Spangler, vice president of the Seattle National bank, will discuss "Men's Part in the War Against Waste."

The Star is particularly anxious that Seattle men hear Mr. Spangler. We know that if they do, they'll put a shoulder to the wheel and "do their bit" in this great movement. Dr. Carter Helm Jones will speak on "The Country's Need." Justice Reah Whitehead will be chairman. Remember, Wednesday at 3 p. m. at the Press club. Keep the afternoon open. BE SURE TO COME.

MARINE WEEK!

All over the land an effort will be made to recruit men for the U. S. marine corps next week. YOU might do as a soldier of the sea. Surely, you'll do something soon—we've been at war 64 days.

VOLUME 19 SEATTLE, WASH., SATURDAY, JUNE 9, 1917. ONE CENT PER COPY WHEN IN SEATTLE

NIGHT EDITION

Uncle Sam has decided to take a few more naval militiamen from the state of Washington. Recruits should apply at headquarters, 25th floor of the L. C. Smith building. Weather: "Partly cloudy tonight and Sunday."

KIDNAPERS MURDER CHILD

AMERICAN DIPLOMACY IS DEFEATED IN ORIENT

CHINA REVOLT TO UNITE ALL ASIA IN PLOT?

THE 64TH DAY OF OUR WAR

The 64th day of America's actual participation in the war on kaiserism was devoid of spectacular incidents. The announcement of the arrival of a second U. S. collier in French waters indicates that the plans for provisioning Gen. Pershing's first expeditionary force are progressing as planned. Gen. Pershing was received by King George, and after a half hour's private conference, presented his staff. The king predicted victory for our allies, and showed the same pleasure at Pershing's being on the job that the London press did. Gen. Goethals appointed aides in the Emergency Fleet Corporation to replace the two men dismissed yesterday for attacking his policy, thus clearing the decks for action. Secretary Daniels denied American warships in foreign waters had been engaged with enemy craft. A nation-wide slacker hunt, which will manifest itself in the coming Saturday night, was begun, as reports showed. Many states failed to register their full quota. Plans for the administration food control bill were complete and action is expected next week, which should promptly ease the pressure at home from high prices. The effect of Chinese revolt and the continued dissensions in Russia cast the heaviest clouds on the American war horizon.

167 MISSING IN BUTTE MINE AS FIRE KILLS 39

BUTTE, Mont., June 9.—Thirty-five bodies had been recovered from the blazing Speculator mine at 11 a. m. today. The fire, which has been raging since midnight last night, began when a power cable carrying a high voltage current struck the level, igniting some tar in the 800-foot level. The fire spread quickly to the other levels and resulted in the spreading of burning gases to the adjoining Diamond mine. Four hundred and fifteen men were at work in the Speculator mine when the fire broke out. Of these, 213 escaped through connecting levels of adjoining shafts, according to officials who are directing the rescue efforts, which leaves a total of 167 still unaccounted for. Little hope is held out for them. When the fire cut off escape from the lower levels, between 40 and 50 men managed to escape by working their way thru pitch-dark underground passages, into the higher mine adjoining, and coming out thru its shaft. Scenes about the mouth of the wrecked mine were heartrending. Tears came to the eyes of on-lookers when a miner, who had escaped the fire, and, arming himself with a helmet, had joined the rescue forces, brought the dead body of his partner and closest friend to the surface.

WE'VE GOT OURS! HOW ABOUT YOU?

The Star today subscribed for \$10,000 worth of Liberty bonds thru its local bank, the Union Savings and Trust company, and at the same time set aside another \$10,000 to finance the purchase of bonds by its employees. The Star's purchase of Liberty bonds, and its plan to assist employees to subscribe for bonds, is part of a general program of the Scripps newspapers thruout the country, by which approximately \$1,000,000 worth of Liberty bonds will be bought. Under the Star's plan, all employees who draw less than \$50 salary per week will be entitled to purchase Liberty bonds to an amount equal to ten times the employee's weekly salary. The Star will finance the purchase of the bonds and permit its employees to pay for them in fifty installments. The bonds will draw interest from the date of their issue and the employees will be entitled to the full interest on the bonds. The employees will be charged no interest on the money advanced by The Star.

ANNOUNCING ITS SUBSCRIPTION, THE STAR TAKES THE OPPORTUNITY TO APPEAL AGAIN TO ITS READERS TO SUBSCRIBE, ACCORDING TO THEIR INDIVIDUAL MEANS.

Tens of thousands of young Americans are to be called into service shortly in the world-wide fight for democracy against autocracy. You who have money should be as willing and ready to enlist your dollars in the cause of liberty. Do not delay. There is need for immediate action. Uncle Sam, banker for the world, stands behind the Liberty Loan. Every citizen of Seattle has his duty to perform. Whether your subscription to the Liberty Loan be large or small, you should respond instantly. Put your dollars on the firing line in support of your son, your brother or your friend who answers the call to the colors. And do it now!

BODY OF LOST BABE FOUND IN DEEP WELL

SPRINGFIELD, Mo., June 9.—The body of baby Lloyd Keet, the 14 months' old son of J. Holland Keet, who was kidnaped May 30, was found today in an abandoned well on the Crenshaw place, eight miles southwest of Springfield. The information which resulted in the finding of the baby's body was obtained from unannounced sources by Manny Simmons and Edward Conklin, friends of the father of the dead boy. A search of the abandoned house several days ago, resulted in the finding of a baby crib, bearing evidence of having been recently used. That the baby had been thrown

By Chester M. Wright WASHINGTON, D. C., June 9.—Union of half a billion Asiatics under one anti-democratic flag is the amazing possibility diplomats here see in the pro-Japanese, pro-German rebellion in China. One defeat for democracy already has been scored; Japanese diplomacy has triumphed over American diplomacy in a bloodless battle for direction of China's destiny. Democracy's single foothold in the Orient now is in the seven loyal southern provinces, where Dr. Sun Yat Sen, China's first president, is rallying his original revolutionary armies to the defense of democracy. Japan wants United Asia. While allied with the world democracies against Germany, Japan has swung China away from her declared purpose of joining America in the war, and prevented 275,000,000 people from throwing their great weight against Germany and autocracy. That Japan's aim is a united Asia, under control of Japan, seems certain. This would mean an autocratic unity of Japan, China, Siam, British India, French Cochinchina, Mongolia, Tibet and some lesser states. Diplomats point out that such a concentration of yellow and brown races, under an autocratic flag, might well put a new face on the whole world war, and surely would put civilization up against new and staggering problems.

SLACKER HUNT ON FULL BLAST

The free-for-all hunt for slackers began Saturday with the posting of the county registration lists in the hallway of the county city building. The lists for the 12 districts of the city will be posted Monday in the same place. If you have reason to believe that your neighbor "forgot" to register Tuesday, look on the list and if his name isn't there, call District Attorney C. E. Allen at Main 6101. He'll fix it up. The hunt for slackers by government, county and city officials is in progress. Every man reported to them as failing to register is being checked up. In most cases, the fault, the neglect has been pardonable, for one of several reasons, and the slow one allowed to sign his name to the manila card.

CARNATION MILK CO. BUYS \$250,000 OF LIBERTY BONDS

One of the biggest subscriptions to the Liberty loan thus far received in Seattle came Saturday afternoon, with the announcement that the Carnation Milk Co. has taken \$250,000 worth of the bonds. In addition, officials of the company have subscribed independently for large amounts, and arrangements are to be made, also to advance money to employees for purchase of bonds. The Carnation Milk subscription equals in size that, the other day, of the Pacific Coast Co. A Liberty loan roll of honor will be made public by the government as soon as the campaign for the \$2,000,000,000 bond issue is completed, June 15. The name of every firm and individual subscriber, together with the amount, will be furnished to the press in each district for publication. This information was received today by George Leib, Seattle representative of the federal reserve bank at San Francisco. 4,000 Subscribe Here According to Leib, about 4,000 individuals and firms have so far subscribed to the Liberty loan in Seattle. A total of \$681,000 was added yesterday to the bond subscriptions here, bringing the aggregate which

Pioneer Couple in Need; Can You Give Them Any Help?

Past 60 years of age, sick, a Seattle pioneer finds himself today without means of livelihood. His wife has been trying to get day labor, but has not succeeded in obtaining regular work. The couple have some acreage at Brewster, Wash., which they will sell for what they can get. They have lived here for 30 years. If you can help, call Ballard 1035, or at 1305 W. 64th st.

She Made a Great Dive, But Somehow the Rubber Broke

DENVER, June 9.—She went Annette Kellerman one better when it came to bathing suits. Her 1917 model bloomers were suspended around her supple waist with a single strand of rubber. Perhaps it is the war, responsible for the poor quality of the rubber. Or may be it was the vigor of her perfect "jack knife" dive. But they rose gracefully from the springboard at Berkeley lake—and hit the water separately. A youth with glasses rescued the diver—the rest of her suit while a hundred other bathers cheered.

Little Mother and Her Children Left Alone by Deserter

There is a little woman at 707 W. 58th st., mother of a girl 9 and a boy 7 years old, respectively, whose husband has deserted her. She is two months behind with her rent, her furniture is mortgaged, and there is nothing in the house to eat. She is a capable woman and has struggled bravely, but the odds are against her. The neighbors have appealed to Cynthia Grey to try to help keep the little brood together for a few weeks, as the mother has promise of work. Any one who can help may send his or her bit either to the above address or to Miss Grey, at The Star.

She Couldn't Fool Him

Eleanor Wells, prima donna in the "Flora Bella" company, at the Metropolitan, danced upstage, clasped her hands and cried: "Back, back to the sign of the Golden Call!" An old gentleman in the first row at the Met Friday night chuckled. "She means ca-fay," he informed his neighbors in a highly audible whisper.

INTEREST GROWS IN WASTE ARMY

BY MABEL ABBOTT (Waste Editor of The Star) Increasing interest in the work of the Woman's Army Against Waste is shown daily, as dispatches from Washington show more and more plainly the need for help of every citizen in the problem of saving America's food supply so far as possible. "He also fights who helps a fighter fight," says Herbert C. Hoover. NEIGHBORHOOD MEETING FOR TUESDAY, JUNE 12 With Mrs. W. H. Bishop, 305 Horn ave. N. at 5 o'clock. All women in that section of the city are asked to attend this meeting. The objects of the Women's War Against Waste will be explained, and ideas on food conservation exchanged.

national food administrator, who telegraphed his congratulations and appreciation to the Seattle regiment yesterday. And as a direct way of helping fighters fight, he recommends that Americans substitute, as far as possible, things that cannot be shipped to the allies for the staples that can—cornmeal for some of the wheat flour we have been eating, poultry and fish for some of the red meat, etc. From all indications, the sides of the Press club will bulge with the crowd that will attend The Star's mass meeting for the Woman's Army Against Waste, Wednesday afternoon. Come early. And send your enlistment in before then, as the roll must be tabulated and sent to Washington within a very few days.

LOSS OF LIFE LOW FROM EARTHQUAKES

NEW YORK, June 9.—Hope, based on cables since the first shock of the disaster, that the earthquake which wrecked San Salvador and surrounding towns for the sixth time in their history, did not take a heavy toll of life, is expressed by local agents of San Salvador firms here today. Since receipt of the message, "All well" from Day & Bloom, San Salvador bankers, by Bloom Bros., their fiscal agents here, no additional word has been received here. However, reports from the capital of the little republic indicate that heavy loss of life may have been suffered in the provincial towns, while the loss in San Salvador city was practically confined to property.

Victory Sure, King Tells General Pershing and Staff

Great Britain welcomes America's aid. His arrival is a reminder that (Continued on page 8) DENIES NAVY FIGHT WASHINGTON, June 9.—Secretary Daniels took occasion today to deny reports of naval engagements in which American vessels were involved and to state emphatically that the navy policy was to give full publicity to any disaster that may occur. IN FRENCH WATERS WASHINGTON, June 9.—The navy department was advised today of the arrival of the second American naval collier in French waters.

GOETHALS NAMES SHIPPING AIDES

WASHINGTON, June 9.—Gen. Goethals today appointed Admiral H. H. Rousseau as assistant general manager of the Emergency Fleet Corporation to succeed F. A. Estlin, who was discharged for alleged "disloyalty and misstatement of fact." Samuel L. Fuller was appointed to fill the position of F. H. Clark, a consulting engineer.

Bird Wakes Soldiers

There's a bird making its home in the woods out at Fort Lawton which the soldiers call the "bugle bird." It evidently has lived within call of the army bugles a long time, for, according to word brought to town by the soldiers, it has learned the first notes of the "reveille," and persists in sounding them every morning, between 3 and 4 o'clock, with the first hint of the coming dawn.

SLAV TROOPS IN SERIOUS MUTINY

BY WILLIAM G. SHEPHERD (London Special Correspondent) PETROGAD, June 9.—Four regiments of the Seventh Russian army refused to obey the orders of their officers today. One additional regiment was reported to have arrested its own officers. Minister of War Kerensky ordered arrest of all responsible for the incident. They will be court-martialed.

WEATHER TO HOLD BACK ROSE SHOW

Because of the lateness of the season, the dates for the annual rose

Bill Sunday Sure His Sermon Would Depopulate Hell

NEW YORK, June 9.—Billy Sunday's so sure his sermon would "get over with a wallow" in Hades that he believes he could empty hell in 15 minutes with one of them. "People," he yelled, "if God would let me go down to the infernal regions and preach a sermon, I could depopulate hell in 15 minutes."

show of the Pacific Northwest Rose society, set for June 18 and 19, may be set forward a week or 10 days, according to Charles A. Reynolds, president of the society. The exhibition will include all local and district rose shows, and will be held in the Arena.
