**No Trouble to Remove Superfluous Hair**

(Toilet Tip)  
It is an easy matter to rid the skin of objectionable hair or fuza, if you proceed as follows: Mix a paste with some water and a little powdered delatone, apply to hairy surface, and in two or three minutes rub off, wash the skin and the hairs are gone. This method of banishing hairy growths is painless and does not mar the skin, but, to avoid disappointment, be certain to get real delatone.—Advertisement.

HAD  
A lady said to us last week: "Each day I read your ad." For some of them seem quite good. And others are quite bad.

We realize these poor-ads bring softening to the brain; We hope to much improve them. Let us may go insane.

And when we get most all the trade, we'll try to get more wise; We'll figure out the easier way That we may advertise.

Why should we not have all your trade? When we can save you more On every SUIT, COAT, DRESS and HAT At the FLORENCE UPSTAIRS STORE, SECOND AND UNION

**Trainmen Are Well Paid and Have Steady Employment**

The average wage paid to all trainmen in our service, from the lowest to the highest, is MORE than \$90 per month.

The average day for that average pay is ten hours and twelve minutes.

In addition to this wage EVERY trainman is furnished FREE transportation for himself and EACH member of his FAMILY.

More than half of the trainmen make MORE than \$100 per month.

The guaranteed wage to every trainman is \$65 a month and free transportation, which he makes even if he doesn't take out a car.

THESE FIGURES ARE TAKEN FROM THE PAY-ROLL of July 1 to 15, 1917.

A platform man qualifies to draw this wage in one week's training.

Skilled trades require from three to seven years' apprenticeship, and then the mechanic takes his chance on steady employment.

An accountant must go through a business college, and he then starts service at from \$50 to \$60 a month—if he can get a position.

A trainman has steady employment. The size of his pay check is usually a matter of his own industry.
