## ITALIANS CAPTURE 10,000 AUSTRIANS

By JOHN H. HEARLEY  
United Press Staff Correspondent  
ROME, Aug. 21.—Italy's prisoners, in the greatest of all drives her troops have made in the world war, reached a total of 10,000 today.

Semi-official estimates placed the Austrian losses in dead and wounded at a minimum of this figure.

On the three fronts today—the Julian, Carso and Isonzo—Gen. Cadorna's drive was continuing in a fierce combat of men and of guns that resounded over nearly 100 miles.

Italian airmen reported desper-

ate attempts by the enemy to re-inforce breaches in the line already achieved by the attackers.

Prisoners declared hurry calls had been sent for reinforcements from Prussia. The unprecedented fury of the attack is believed to be undermining the morale of the Austrians.

Gen. Cadorna's great offensive started, peculiarly enough, at the very moment when Austrian airmen were carrying out a vigorous campaign for peace. They were dropping thousands of printed messages, urging Italian "comrades" not to fight.

British monitors joined in the offensive today, shelling Austrian positions along the Gulf of Trieste.

## COLLEGE HEAD TO BOSS COAL OF THE NATION

By United Press Leased Wire  
WASHINGTON, Aug. 21.—Announcement of a coal controller of the United States is expected today. There is talk that President Garfield, Williams college, recently named chairman of the new wheat price fixing board, was the man the president has asked to assume the work.

Garfield knows the coal situation thoroughly, from long experience as attorney for coal operators and coal carrying railroads in Ohio.

## PRODUCERS TO OPERATE OWN CONDENSORIES

Co-operative condensories may be the next step in the development of the Washington dairy industry.

Because existing privately owned condensories are paying the farmers on the theory that their milk contains only 3 1/4 to 4 1/4 per cent of butter fat, while the farmers declare they are actually furnishing milk that runs from 4 1/2 to 5 per cent of butter fat, the producers have determined to enter the field for themselves.

At a meeting in Burlington Saturday, 700 dairymen of Whatcom, Skagit and Snohomish counties, representing 50,000 cows, voted a fund of \$200,000 for the condensories project. At the head of the movement is John Hill, a dairy farmer of Mount Vernon.

## Flowers Bloom on Vimy Ridge Among Strips of Dead Heroes' Uniforms

By WM. PHILIP SIMMS  
United Press Staff Correspondent  
WITH THE BRITISH ARMIES IN THE FIELD, Aug. 21.—Vimy Ridge is covered with flowers. A few weeks ago it was a gory battlefield with the gory battlefields with their artillery and mines, turned it into a seething, boiling mound of fire.

Today old Lady Nature has completed her miracle. Vimy Ridge is green.

Poppies, cowslips, cornflowers, purple thistle-mops, daisies and belated speedwells mark the gory battlefield with color, while rank grass hides the smaller shell craters.

But one explanation is possible for this change, for all manner of vegetation and seed were burned to ashes and buried many feet deep in the mud during the storming of Vimy's heights in April. Nature has worked some wonder, as if ashamed of the ugly hill, and wanted to cover it over and hide it out of sight.

Vimy Ridge runs from just west of Lens almost due south toward Arras. Notre Dame de Lorette is a great ridge running generally east and west, the eastern slopes ending west of Lens, where Vimy begins.

From the top of Notre Dame, Lens can be plainly seen, about four miles away. The whole flat plain to the north and northeast is dominated by this great hill. It also dominates the south and west. Small wonder the two ridges were ordered by the German high command to be held at all costs, for so long as they were held, the British and French were powerless from Arras to Ypres.

So the French stormed Notre Dame and won it. The whole ridge was drenched in blood, the ground was shattered, and it seemed that this spot would ever be barren of the slightest growing thing.

Today I found flowers everywhere. At times grass reached almost to my waist. I stumbled into abandoned trenches and comparatively recent shell holes, now hidden under vegetation. Now and then one tripped over concealed entanglements of barbed wire, or kicked a skull accidentally with the toe of one's boot, or trod on some forgotten soldier's pack, or rifle, or bayonet.

Under rank growths of daisies, one comes across strips of German uniforms with whitening bones lying about, and German boots with everything from the knee down still in them. Canteens, battered and pierced iron ration tins, hand grenades, shrapnel cases, cartridge clips, unexploded shells, all manner of equipment, are still there—only they are now hidden under a tangle of wild flowers.

## FRENCH HURL BACK GERMAN ASSAULTS

By United Press Leased Wire  
PARIS, Aug. 21.—German picked troops were flung violently but vainly against four points of the French fighting line last night. At three places on the Chemin des Dames, special troops battled to loose the French grip, and around Verdun Gen. Petain's fighters repulsed assaults of the most violent nature.

All French ground was held, the official statement declared today.

"At Cerny plateau, the Germans attacked at three points twice," the report asserted. "They were repulsed and fumbled back to their trenches with heavy losses."

"German attempts at Hurbise likewise failed."

"On the front north of Verdun, the Germans carried out an energetic riposte blow. There were counter attacks of the most violent nature, notably at Avocourt and Caucieres wood, which were all broken up in the fire of the French troops. We kept all our gains, which we are now organizing. The Germans lost heavily."

"Yesterday over 5,000 un wounded prisoners and 116 officers were captured."

German aviators bombed the French rear, especially a camp of German prisoners.

French aviators bombarded stations in Belgium and at Roulers and other points. French flyers dropped bombs over the Verdun region and at Brieuil, Fleville and the Bantville ammunition depot.

At the last named place an ammunition depot was set afire. On August 20 French pilots brought down 21 machines, nearly all of which were utterly destroyed."

Similar dispatches today laid emphasis on the ferocity of the German counter blows. They were delivered, apparently, with every resource of guns and of men that the German war chiefs could muster. Specially picked trained men fought madly.

## 8 ARE KILLED WHEN TRAIN HITS AUTO

By United Press Leased Wire  
NEW LONDON, Aug. 21.—Eight persons are dead today, and a little girl is in a hospital here, in a serious condition, following the destruction of their automobile early today, when it was struck near Saibrook by a New Haven train.

Robert Rohloff, 29, New Haven, and Gustave Weyall, New Haven, father of Louise Weyall, the child, have been identified. Others dead include a woman and five children, one of the latter an infant of three months, whose body was lifted from the locomotive pilot.

## FAIL TO CATCH JAILBREAKERS

With posse scattered throughout the county, but no new clues for them to follow, Sheriff Stringer continued his search, Tuesday, for four county jailbreakers who have successfully eluded capture since Saturday.

Freight trains are being searched.

Outskirts of fields and woods are being watched.

The searchers are working on the theory that the escaped prisoners may still be in hiding, and have not yet gotten out of the county.

A thorough investigation of the manner in which one of the prisoners, E. G. Brown, got the 22-caliber revolver which the jailbreakers used to keep Jailer Allan Stark at bay while they escaped, is being made.

Jailer Norman Schellberg predicts sensational arrests will be made.

The revolver was concealed in a package and taken into the jail by a visitor, says Schellberg. Whether it passed thru the hands of a trusty the officials do not know. They also are in doubt as to whether the man who carried the package knew what it contained.

## NAVAL ARMEN IN RAID ON GERMANS

By United Press Leased Wire  
LONDON, Aug. 21.—British naval aeroplanes at midnight last night dropped many tons of bombs on the ammunition dump at Middiekerke and the Germans works at Bruzeuse, an admiralty statement announced today.

**BALLARD LIBRARY ROBBED**  
The Ballard library was entered by thieves Monday night and \$2 in cash was stolen from the cash drawer, according to a complaint sent to the police Tuesday by Librarian Judson T. Jennings.
