## LIBERTY LOAN QUOTA TO BE \$28,000,000

Uncle Sam will call upon Seattle and King county to subscribe \$28,000,000 to the Fourth Liberty Loan. Sale of these new war bonds, bearing 4 1/2 per cent interest, will begin September 28.

Seattle's quota on the Third Liberty Bond issue was \$11,420,000, but Seattle subscribed \$15,576,000.

Seattle's quota on the second issue was \$13,000,000, but \$15,576,000 was subscribed.

On the first issue, Seattle's quota was \$8,200,000, but \$9,083,800 was subscribed.

Altho the county and city quota for the fourth issue is approximately twice as big as any of her other Liberty Loan quotas, a determination is sweeping the city to over-subscribe the issue during Honor Week—the first week of the drive.

Every other interest will be set aside, in order to permit 100 per cent participation in the Liberty Loan campaign. Nothing else will count. Every man, woman and child is declared a member of the loan committee. Each is expected to do his utmost and to strive with every ounce of energy to see that all awaken to the call, and do their share.

Shipyard workers are already organizing to duplicate their splendid record of former loans. "Every man a bond holder" is the slogan. The shipyards expect to make every man Many are already eager to buy

## Banking by Mail With This Bank

NO MATTER where you live, you can deposit funds in this bank as conveniently as if you lived in Seattle. Our "Banking-by-Mail" department is perfectly equipped to efficiently and quickly transact any savings business, whether you live in Alaska, Maine, Florida or in Hawaii.

**"NOT IN THE TRUST"**

We are the only Abstract Company in Seattle not owned or controlled by the Abstractors' Trust. Recently the Trust secured control of the other independent company and immediately raised the price of Abstracts. The Trust now maintains 4 expensive offices, 3 of these are superfluous. The public must pay the expense to maintain them, hence the higher price of Abstracts. Our charges remain the same as before the raise.

Give us a trial. We will give you quick, neat, accurate work.

## SAVE LIVES

I have invented and patented a life-saving device which insures absolute safety and protection against the dangers of sea and ocean travel.

I invite the closest investigation thereof, and will cheerfully demonstrate its use at any time in any waters, salt or fresh, stormy or calm.

I have organized a corporation for its promotion, and to enable persons everywhere who travel by water to avail themselves of its benefits and safety.

To that end a limited amount of the capital stock is offered at par value of \$1.00. Inquiry can be made and arrangements perfected by mail, or by phone, or in person at the office.

## CAR DEAL IS UP TO COUNCIL NOW

For the first time since the city started negotiations to take over the traction company's system for \$15,000,000, the matter is being taken up in regular council meeting Monday afternoon.

All previous sessions have been conferences only with tentative results pending on no one. The mass of detail necessary to the transfer is being lined up Monday, and it is expected that committees will be appointed to handle various phases of the work.

## Dr. Baldwin Gets Army Captaincy

Dr. J. Blake Baldwin, commissioned a captain in hospital service, will leave Seattle Saturday, after four years' residence here. Dr. Baldwin came here from Chicago, where he had been city physician and lecturer at the colleges there. He was formerly physician in the navy service during the Spanish-American war.

# We Are Positive We Are Right

And, inasmuch as we know we are right, there isn't much room left for argument.

And in our opinion we are backed up by the best medical opinion of the day, when we tell you that decayed teeth are dangerous, unpleasant and a serious menace to the health.

If you only had to suffer a toothache from a bad tooth, that would be bad enough, of course—because nothing is more painful than an aching tooth.

DR. L. R. CLARK

But the ache is one of the least harmful things that comes from bad teeth. Poison gathers around the roots and slowly and insidiously it works its way into the system, gathering at some convenient place, a joint preferably, and soon causing swelling, inflammation and pain. This is often diagnosed as "rheumatism" when as a matter of fact if the bad tooth were put into a healthful condition the whole trouble would at once disappear and the unpleasant symptoms subside.

These poisons are also taken directly into the stomach in the course of the mastication of the food and many unpleasant disorders of the stomach and digestive organs result.

If you will ask your physician he will tell you that nothing is of greater importance to the general health than a good digestive apparatus.

Impaired digestion is at the bottom of more diversified human ailments than almost any other one factor. And nothing will make you feel more generally miserable, more "unfit" or less efficient than to have your stomach out of order.

Eye, ear, nose, throat, and even diseases of the spine, are now known to be very often caused by bad teeth.

If you have decayed teeth, are you going to allow them to persist? You are making a great mistake if you do so.

At this dental office you get the services of the graduate registered dentists—men of the highest standing in their profession. Every operator in this office has graduated from the very best dental colleges and passed the examination of the state dental board. And each and every one of our operators has his certificate from the state dental board hanging right on the wall in front of his dental chair, in plain sight of all.

Our prices are the very lowest—our workmanship is the best that any one can turn out.

We use only the best of materials. We guarantee all work. And, by the way, ours is a REAL guarantee, which means just what it says—if for any reason whatever your work does not give you entire satisfaction, come back to us and we will make it right. This guarantee is signed both by the operator who did the work and by L. R. Clark, D. D. S., owner and manager of this office, who is thoroughly responsible.

**FREE EXAMINATION**

We invite you to call and let an expert dentist give your teeth a thorough examination. He will quickly tell you just what is necessary to put your teeth into perfect condition and also just what the cost will be.

If you have prices quoted to you at the ordinary dental office, which do only an ordinary volume of business, you will have a pleasant surprise coming when you find how little it will cost you to have the work done here. For, remember that we do a very large volume of business, which permits us to take a smaller profit on the individual case than the ordinary office can possibly afford to take.
