

GET BUSY!

This is Christmas shopping week in Seattle. Less than a month remains before the winter holiday of the year—the first in five years to witness peace between Germany and her allies, and the entente. Seattle merchants are appealing for an early shopping, which will get Christmas goods off the shelves and into the homes without sales staffs being subjected to a last few days' rush. Store managers declare the customers should not consider early shopping a mere convenience for the stores alone. Customers, they say, will benefit to an even greater extent than the clerks by securing better choice in their purchases.

**SOLDIERS AND SAILORS ROUT SOCIALISTS**

NEW YORK, Nov. 25.—Screaming women decorated with scarlet flowers, scratched at soldiers and sailors battling red-tied socialists in Madison Square Garden last evening at the conclusion of a socialist meeting. One thousand men in uniform broke thru lines of police, guarding the hall where leading socialists, ostensibly speaking in behalf of Tom Mooney, made vigorous appeals for the liberation of political prisoners. Soldiers and sailors decrying Bolshevism surrounded the hall early in the evening, but failed to penetrate the police lines until the crowd came into the street. Scores were injured in the fight between the uniformed men and the socialists. Several carrying red flags were arrested. As the mayor's edict had prohibited red flags, the majority of the audience wore red in other forms—the women wore flowers and the men red ties. The police, after restoring order in less than an hour, declared there would have been no disorder were it not for the uniformed men who provoked the disturbance.

**Five Wives Mourn Death of Husband**

Joseph Fielding Smith, who died at the age of 89 in the famous "Beehive House" at Salt Lake City on November 19, was the sixth president of the Church of Jesus Christ of Latter Day Saints (Mormons). Born Nov. 12, 1838, at Far West, Mo., the son of Hyrum Smith, brother of the Mormon founder, Joseph Smith, he suffered a paralytic stroke five months ago from which he never rallied. Coming across the plains with his widowed mother at the age of 8, Joseph F. Smith at 14 went as first missionary for the church to the Hawaiian Islands and from then on was closely identified with the sect. He was the youngest man ever called as an apostle by the Mormons at 28. He had five wives and 32 children, with three sons in the U. S. service. Heber J. Grant, presiding over the 12 apostles of the church, will succeed to the presidency of the Mormon church because of his seniority in the quorum. U. S. Sub Chasers Are on Way Home QUEENSTOWN, Nov. 25.—A flotilla of American submarine chasers, with their parent ship, the Bucknell, left for the United States today.

**WAR WORKERS REGISTER FOR NEW POSITIONS**

Former business men, ranging from 20 to 50 years, salesmen, bookkeepers and accountants, are rapidly enrolling for office positions at the United States Employment Service, 110 Cherry st., after being released from war work in shipyards and spruce divisions. Registration for office help began Monday. Service is free for the applicant and the employer. Its establishment does away with the necessity for parting with half or more of a first month's salary as demanded by many private employment bureaus. Examinations of a brief nature are given applicants in their special lines of office work. The employee is considered as well as the job seeker, and employment officials have both interests in mind. "It is just another protective arm of the government reaching out to care for those who left regular work for patriotic duty," said local Superintendent R. P. Duncan, Monday. "We must have the co-operation of all business men to make this employment office a permanent branch of the government employment bureau."

**State Federation of Labor Asks Wilson to Dismiss Burleson**

The dismissal of Postmaster General Burleson and the appointment of a man more in harmony with the progressive spirit of the times, is demanded in a telegram to President Wilson, sent Monday by the executive council of the Washington State Federation of Labor. The petition of the council states that it voices the sentiments of 99 per cent of the people of Washington. Samuel Gompers, president of the A. F. of L., was urged by night letter to use his influence in behalf of the organized workers of the country to impress upon President Wilson the necessity of retaining the government's ownership of the railroads and other public utilities that have been taken over. Gompers was requested to petition the president to make this policy a part of his program for the coming session of congress.

**Beautiful Women Music and Racing Ease Exiled Deputy**

PARIS, Nov. 25.—M. Louis Malvy, French deputy, who just missed a firing squad and got five years' banishment instead of "betraying the duties of his post," isn't having such a bad time. In fact, five years of banishment hold absolutely no terrors at all for the former secretary of the interior. Malvy is enjoying himself hugely at San Sebastian, in Spain, one of Europe's famed "pleasure grounds." Horse races, gambling casinos, theatres, rich dinners, music and beautiful women of all countries are at San Sebastian. Malvy writes optimistic letters back to his socialist supporters in Paris.

**Gen. Ludendorff Goes to Sweden**

COPENHAGEN, Nov. 25.—Gen. Ludendorff, former commander-in-chief of the German armies, has gone to Sweden, it was reported today.

**LARGE FORCE OF MEN MAY REMAIN AT LEWIS**

CAMP LEWIS, Nov. 25.—An official statement from the war department at Washington says that until the declaration of peace a substantial army must be kept under arms, ready for any emergency. This intimates that demobilization will not be conducted on as large a scale as was first believed.

**DOUBLE CRIME IS CHARGED TO MAN BY BRIDE**

PORTLAND, Nov. 25.—His bride of one month completely confessed to the police that John Cyril Liard, an English-Canadian, murdered Deputy Sheriff Frank W. Twombly the night of November 19, while escaping from the interstate bridge, leading to Vancouver, where Liard had robbed the bridge tender of \$124. He is in custody today. Mrs. Liard, a handsome young woman of 24, connected her husband with the holdup of a Northern Pacific train in the Seattle yards a month ago. The officials say he is one of the boldest criminals that ever operated in the Northwest. Statements of his wife and papers found among his effects, are said to show Liard intended to wage extensive blackmailing operations against prominent Portland men, under threat of death. Circumstantial evidence pointing to Liard's guilt, the officers arrested the couple at their apartment last night. The woman broke down and confessed, after a short cross-examination. She said she did not know what her husband was when she married him, in Vancouver, Wash., four weeks ago. Mrs. Liard told of being with her husband when he robbed the bridge-tender and later killed Twombly. She also related their recent trip to Seattle, where, she declared, Liard secured his gun of the Northern Pacific train booty, including war savings stamps and Liberty bonds. "Ever since the move, I have trembled for my life, fearing he would kill me because of my knowledge," she said. "I did not realize what he was when I married him, but later I learned."

**7,000 Returning American Troops Will Soon Arrive**

WASHINGTON, Nov. 25.—In a short time, 32 officers and 6,614 men of the air service, who have been training in England, will reach New York on the British liners, Lanland, Minnekahda and Orca, according to Gen. March, chief of staff. Some 13,000 troops, practically all of them belonging to the air service, are waiting to embark in England. Secretary Baker has announced that the British and American governments have agreed that transportation charges for shipping troops and supplies to and from Europe shall be so fixed that there shall be no profit made by either country for this service.

**Biggest Aviation Demonstration to Come Wednesday**

SAN DIEGO, Nov. 25.—The largest aviation demonstration ever held on the North American continent will take place here Wednesday when 170 planes will participate in a peace parade. Three squadrons of 10 machines each will lead the parade, and upon a radio signal from the commander, they will simultaneously perform the "Immelmann Turn" and loop the loop. During the parade everything possible in the form of "stunts" will be shown.

**Largest Military Hospital Is Opened**

NEW YORK, Nov. 25.—With accommodations for 4,000 patients, the largest military hospital of its kind in the world was opened here Monday. The building was formerly a big department store.
