

# WILL PROHIBITION CORRUPT? QUERY RAISED BY INDICTMENT OF MAYOR WOODMAN IN LOS ANGELES

Chief Butler, Mayor Woodman, District Attorney Woodman. Mayor Frederick T. Woodman, indicted on graft charges; District Attorney T. Lee Woodwine, prosecuting the case, and Chief of Police John L. Butler, who is helping sift evidence.

LOS ANGELES, April 11.—The indictment of Mayor Frederick T. Woodman here on charges of underworld graft draws national attention to conditions which many American cities will undoubtedly have to face during the attempt to enforce country-wide prohibition.

Los Angeles predict, will be accompanied by scandals such as here dramatized, through the country.

"Sure there will be lots of municipal graft vice scandals. Any upheaval caused by passing of laws against whisky and narcotics is certain to bring graft and vice in their wake."

Whether a greater deterioration in character than that caused by intendants will result—this is the question raised in the minds of sociologists.

U. S. Started It Mayor Woodman's indictment accuses him of agreeing to accept a \$25,000 bribe for the protection of illicit whisky sellers, women of the half-world and gamblers.

The vice graft probe was started here when U. S. secret service men, acting on instructions from Washington, turned over to District Attorney Thomas Lee Woodwine information they obtained while digging into the sale of narcotics in this city.

In addition to the indictment of Woodman, the grand jury returned true bills against George Henderson, George Brown and Julius McAllister, negro politicians, and E. Schwartz, dye salesman.

It is charged in the indictment that Brown and Henderson turned over to Horace Karr, a newspaper man, \$2,000 to be paid to Woodman for protection. It is charged the mayor was to put a certain police sergeant at the head of the purty squad as the negro vice ring could operate. This officer denies he knew anything of the alleged arrangement.

Denies It All Woodman denies every charge and claims his indictment is due to a political plot to discredit his candidacy for the mayoralty at the coming municipal election.

Prohibition, leading citizens of

Expect Scandal "The trouble is so many good people go about their own business ignorant of the activities of others to make money from vice, prostitution and bootlegging."

Bert L. Farmer, president of the city council and former member of the legislature: "I anticipate the nation will see a great many scandals in connection with the enforcement of the country's dry law. We voted saloons out of this city a year ago. While, apparently, there is much improvement on the surface, we are hampered by having saloons at Vernon, Venice and Culver City, our neighbors."

Chief of Police J. L. Butler admits there are scores of bootleggers operating in Los Angeles, that bootleggers are busy and bunco men get their toll of victims; that there is gambling going on in the city, but says difficulty of getting evidence that will stand in court is responsible.

Mrs. E. M. Johnson, past president of the Wednesday Morning club, member of the board of community service, member of the Ibbell and Friday Morning clubs, says:

W. J. Ford, former assistant district attorney, grand knight of the Knights of Columbus, and well-known Southern California lawyer: "I am inclined to believe that other cities will go through the same experience as we are having here, assuming that the statements attributed to grand jury witnesses are true."

"Successful enforcement of any law lies in this fundamental thing—that public opinion shall be unanimously for that law. Prohibition has not yet reached that stage. Consequently, there will be found an outlet in other unlawful and more vicious ways."

"The remedy lies in education and the cultivation of a firm belief in the moral rather than the material things of life."

## Canada to Extend Credit to Allies

VANCOUVER, B. C., April 11.—Arrangements are now being completed by the Canadian government for credits with France and Italy. When these agreements are signed, and they will be settled by the time peace is completed, Canada will have extended credits for foreign business to five European nations to the extent of \$125,000,000. Credits have already been granted to Rumania, Greece and Belgium for \$25,000,000 each, and Italy and France will be granted similar amounts.

With the arrangement of these credits there promises to be a tremendous extension of Canadian foreign trade in Europe. Already large orders have been secured for Canada, and with the signing of peace a big rush for commodities which the war-stricken countries of Europe needs, is looked for.

## Wife Sails Away; Hubby in Pursuit

PORTLAND, April 11.—Seeking to recover his two children, Capt. James W. R. Mannion sailed from San Francisco yesterday on the Shinjo Maru, just one week behind his divorced wife. Recently Capt. Mannion obtained an order restraining Mrs. Mannion from taking the children back to the Philippines, where the couple were married, and later to Spain. Before the order could be served, she sailed. Capt. Mannion asked the district attorney to cable a warrant for Mrs. Mannion's detention at Hongkong, but was refused. He cabled to Honolulu, asking that she be held until his arrival.

## COAL AND IRON FIELD ALLIANCE IS PLANNED

(Special to The Star by N. E. A.) PARIS, April 10.—An anti-German triple alliance, giving France, Belgium and the grand duchy of Luxembourg mastery of the coal and iron trade, probably will be the outcome of a study of economic questions rising from the war. The study has been conducted by a committee appointed in Luxembourg. An economic alliance of this kind would control 55,000,000 tons of coal and 12,500,000 tons of steel annually, and place Germany at the mercy of the allies.

## FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily. Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine, as this strength is sold under guarantee of money back if it fails to remove freckles.

# My Garden

What Shall We Grow in Our Garden? CHAPTER 11 (Copyright, 1919, N. E. A.)

(Copyright, 1919, N. E. A.) My husband won't eat carrots and I like them.

He is fond of green onions and I like them boiled with a winter's meal. On most other things we are agreed. When it came time for us to decide how much of this and how little of that we were going to grow in our garden, naturally he wanted to grow garden onions in about every other row, and he marked off a tiny spot for carrots.

"Finally we compromised, as many another married couple has learned to do. We planted a lot of onions, because they're good boiled, too. And we had carrots enough to last us all winter."

What shall I sow? That's a question puzzling to many garden makers. If you're making garden to sell vegetables, grow those things you can harvest earliest, before the large truck gardens produce their big crops. If you are making a home garden, grow the things your family likes best.

But don't forget that some things take up altogether too much space for the average small backyard garden. Melons, cucumbers, squashes, pumpkins, are great growers. Better buy them and raise such small space eaters as onions, lettuce, radishes, beans, peas, carrots, parsnips, parsley, spinach.

That's true, too, of sweet corn. No one knows the real taste of sweet corn unless he takes it from his own garden stalks just before it is wanted in the kitchen.

So, if you have quite a fair-sized plot, and you like sweet corn and tomatoes, plant 'em. We did, but then, we have a garden 100 feet wide and even longer. In two 100-foot rows of potatoes we grow enough tubers to feed the family last winter.

And while we were talking about what to grow—

"Gee, me, don't forget to raise some pop corn for us," advised sonny.

And we did, for his special benefit, altho little sister helped him away with the harvest.

## DEMOCRAT CHAIRMAN PLANNING CAMPAIGN

COLUMBUS, Ohio, April 11.—Homer S. Cummings, chairman of the democratic national committee, was the guest of Ohio democrats here today.

Cummings addressed state and county committee members, democratic editors and public officials at a noonday luncheon at the Southern hotel. This afternoon he will confer with state leaders at an informal reception. This evening he will address a public gathering. Gov. Cox and United States Senator Atlee Pomerene, of Ohio, are also expected to speak.

## GIRL ELOPES, CHANGES MIND AND JAILS MAN

CHICAGO, April 11.—Because a 17-year-old girl exercised a woman's prerogative and changed her mind,

Joseph McCarthy faced United States Commissioner Mark A. Foote, charged with violating the Mann act. He said he and Gertrude Franz, 5531 Calumet ave., went to Milwaukee to be married. Then they ran afoul of the five-day residence clause in the Wisconsin marriage laws, and the next day the girl changed her mind. He was held for trial.

## Dog "Points" Black Bass, Asserts Judge

ATLANTA, April 11.—Judge E. L. Rainey, prison commissioner at the state capital, swore solemnly that when he and a friend were hunting

in the wilds of Calhoun county, their pointer dog cocked his ears, reared back and "pointed" what proved on investigation to be a big black bass, seven pounds, swimming in a shallow pool about as big as a washbowl, two miles from the nearest stream. The judge did not produce the fish.

## Corns Peel Off Painlessly

There's Only One Genuine Corn Peeler—That's "Geta-It."

There's only one happy way to get rid of any corn or callus, and that's the painless-peel-off way. "Geta-It" is the only corn remedy in the world

"8 drops of 'Geta-It'—Corn is doomed."

that does it that way—effectively, thoroughly. Why get down on the puny, tie yourself up into a knot, and have to fool with "package" plaster, greasy ointments that rub off sticky tape, and digging knives and scissors, when you can peel off your corn or callus in one complete piece, peacefully and surely, with magic, simple, easy "Geta-It"? It takes 2 or 3 seconds to apply "Geta-It"; you use 2 or 3 drops, and that's all. "Geta-It" does the rest! Get rid of that corn-pain at once, so that you can work and play without corn torture. Be sure to use "Geta-It." It never fails. "Geta-It" is guaranteed, money-back-corn-remover, the only sure way, costs but a trifle at any drug store. Manufactured by E. Lawrence & Co., Chicago, Ill.
