**Deposed Woman Prohibition
Director Returns With a
Series of Charges**

SAN FRANCISCO, Oct. 13.—A woman's rage today was added to the already much involved investigation of alleged irregularities in prohibition enforcement in California.

The woman is Mrs. Glad Kimball Warburton, who last week was discharged as state prohibition director after three weeks of service as the only woman in the United States holding such a position. Mrs. Warburton had started for Washington. But she did not get beyond Ogden, Utah, and last night she stepped from a train here, announcing she was ready for a finish fight.

"I have come back to face my accusers," she announced. "I have come back to confront them and to hunt in their teeth their false charges and their vile insinuations. All of the iniquities said to have been perpetrated in the office of the prohibition director, are attributed to me. In fertility of imagination this crowd puts Elinor Glyn in the shade."

**IS ANXIOUS TO TELL
IT TO GRAND JURY**

With that as an introduction, Mrs. Warburton proceeded to charge a long list of alleged irregularities in the issuance of permits for the withdrawal of liquor from bonded warehouses, and said she was anxious to tell the grand jury "the whole story."

While Mrs. Warburton was making her statement, Harry Brodski, former mayor of Redondo Beach, Cal., now under arrest charged with conspiracy to violate the Volstead act, was issuing a statement which further enlivened the situation. Specifically he wanted to know whether any crime had been committed in the alleged withdrawal of 51 barrels of liquor from bond for the supposed purpose of refreshing delegates to the democratic national convention.

In between charges today there was considerable interest evidenced in who will be named permanently to the office of prohibition director. John L. Considine, who succeeds Mrs. Warburton, holds only a tem-

**Artillery Unit Off
on Honolulu Trip**

TACOMA, Oct. 13.—The 10th regiment of field artillery, a unit of the Fourth division, under command of Col. Wright Smith, which has been stationed at Camp Lewis for two months, left here today by train for San Francisco, where it will embark on the transport Great Northern for Honolulu.

Temporary appointment. William Humphreys, prominent Los Angeles man, was most frequently mentioned for the permanent appointment.

**Reported Wealthy,
Slain at Age of 97**

PARIS, Oct. 13.—Mme. Augier, who was 97 and was reputed to have amassed some wealth, was murdered in her villa in a suburb of Paris, where she lived alone. The old woman was found dead and gagged and bound in her bedroom. All the furniture had been ripped open in the search for her supposed wealth.

It is only a few years since in Korska they thought it hardly worth while to give a girl baby a name.

**WINEMAKING IN

**Home-brewed Cider Also
Authorized—in California**

SAN FRANCISCO, Oct. 13.—Manufacture of dry wines and cider in the home for home use, without regard to alcoholic content, was sanctioned today by Justus Wardell, collector of internal revenue for this district.

Wardell made public instructions from Washington which he accepts as an official interpretation of certain provisions of the prohibition act and under which heads of families may, upon making proper declaration, manufacture up to 200 gallons of dry wine.

This construction of the dry law is regarded by revenue officers as being intended to permit the foreign element to continue the old country practices without molestation. Under the ruling the home manufacturer also is exempted from any federal tax on up to 100 gallons.

In spite of the ruling it is believed making of wines in homes will not become as general as in pre-prohibition days, because wine grapes which then could be purchased for as little as \$9 a ton, now cost from \$140 to \$155 a ton.

**WON'T PERMIT
WINE-MAKING
IN WASHINGTON**

TACOMA, Oct. 13.—"That may be fine in California, but it won't do in Washington."

This was the statement of Federal Prohibition Director Donald A. McDonald here today, when informed that Justus Wardell, internal revenue collector of the California district, had ruled home manufacture of dry wines up to 200 gallons is permissible under the dry law.

"We have received no instructions from Washington about permitting home manufacture of dry wines," he said. "But Washington state has a dry law that prohibits the making of all alcoholic liquors. Altho the federal law may permit a little wine making in homes, the state law most emphatically denies citizens of this state that right. People who make wine are liable to arrest by county and city officers."

**Confession Charges Bribe of
\$30,000 Given**

CHICAGO, Oct. 13.—Existence of a liquor ring, alleged to have operated here and in the East under protection of federal officials, was being investigated today.

That an employe of the internal revenue collector's office here was given a bribe of \$30,000 for forging a permit allowing a shipment of \$125,000 worth of whiskey from Louisville to Chicago was charged in a confession alleged to have been made by H. A. Sadler, New York broker.

The confession implicated officials of a Louisville distillery and many saloonkeepers here. Sadler, according to the reported confession, also obtained permits in New York city by paying \$500 to an insurance broker.

**Marriage Laws on Island of
Jersey Strict**

LONDON, Oct. 13.—If you get married on the island of Jersey, here are some of the things you are in for:

1. You take your partner literally until death do you part, as there is no divorce under the Jersey law.

2. If you are a woman, you cannot start a banking account without your husband's permission.

3. You will have to live with your husband's mother, unless he can provide her with a flower house.

4. Your husband will be entitled to sell your property and grab everything you possess unless you have your possessions divided under the Jersey separation act.

The marriage laws of this island have remained practically unchanged since they were handed down by the Norman conquerors centuries ago.
