Mr. and Mrs. Gould Postpone Sunday Tea

Mr. and Mrs. Carl Gould have postponed the tea they had planned for Sunday afternoon, March 6, until Sunday, March 13, from 4 until 7 o'clock, due to the conflicting dates of the benefit tea for the Seattle Symphony orchestra, which will be given at the home of Dr. and Mrs. Frederick Bentley next Sunday.

Pretty Wedding Solemnized

A pretty wedding was solemnized on Saturday evening, February 26, at the residence of Mrs. R. Cairns, when Mrs. Mary Adeline Foster became the bride of Mr. Joseph Jacob Miller of Bremerton. Rev. H. D. Brown reading the service in the presence of twenty relatives and friends.

The wedding march was played by Mrs. Libby Beach Brown. After the ceremony a dainty collation was served.

Mr. and Mrs. Miller will make their home in Bremerton.

SAVE MONEY AND TIME IN YOUR KITCHEN

One source of waste on a gas stove is generally overlooked. It is the loss of heat by radiation before the saucepan reaches the boiling point. This is especially true in cold weather and in the case of a big metal pot.

Hot air always rises. It is, therefore, possible to effect a considerable saving of gas by covering tin saucepan lids with asbestos. To do this a sheet of asbestos one-sixth of an inch thick is needed. From it, with a sharp-pointed knife, circular pieces the sizes of various saucepan lids may be cut. A hole made in the center allows the knob to come thru.

The asbestos must never be placed over an open pot, as the steam would soak it with moisture, but used as a covering for a tin or granite lid it will shorten the time for cold water's reaching the boiling point by more than five minutes.

Apples baked for a saving of gas but of the cook's time as well.

BAKING

It is impossible to say that there is a given time baked for which to bake given bake-stuffs. Quick biscuits or muffins may be baked in what is known as a "quick oven" or in a cool oven with increasing heat. Both methods prove equally good.

The size, shape and composition of the article being baked has much to do in determining the temperature. And the oven itself is an important factor. The thin gas oven requires a higher temperature than the heavy oven of a big range.

BREEZE ALONG BRISKLY

Treading on air, so high it was thin air, too; gay, carefree, humming as she went, alive with Spring and all that goes with it—in fact, she fairly vibrated with happiness. Her joy was contagious. Everybody in her vicinity felt a new thrill of joy. We asked her the great secret of her joy. Had she been left a legacy? Had Jim spoken the magic word, or what was it?

"No; but for two years I've been longing to step into a store and, when I give a new thrill of joy, we asked her the great secret of her joy. Had she been left a legacy? Had Jim spoken the magic word, or what was it?"

"Just look me over. Happy? Say they don't spell the word big enough to express how I feel. Now I am trying to make others happy by telling them and giving them Cherry's address, which is 207 1/2 Rialto bldg., on Second ave., between Madison and Spring, over the Pig'n Whistle."—Advertisement

Miss Anna Michaels, who has been visiting in the city for the past two weeks, left for her home in Victoria, B. C., today.

Mr. and Mrs. E. T. Stannard have returned from a short trip to California.

APPLES

Use apples! There is no fruit more satisfactory from every point of view.

Lime and iron both are found in apples. Lime is essential to digestion and iron to life itself.

And from a purely mercenary side apples are one of the cheapest fruits. A very diversified number of acceptable desserts use this fruit as a foundation. Served with top milk or cream "Brown Betty," "Apple Grunt," "Apple Tapioca," "Apple Custard" and a dozen or more others are delicious and nutritious as well.

Apples baked for the children's lunch is a dish that is a real stand-by, and should not be overlooked by any mother.

Catarrh Germs Move Out When Hyomei Moves In

No stomach dosing. Hyomei is made chiefly of oil of eucalyptus taken from the eucalyptus forests of inland Australia, and combined with other excellent antiseptics.

In inland Australia the atmosphere is so impregnated with balsam thrown out by the eucalyptus trees that germs do not thrive, and in consequence coughs, colds, catarrh and other nose and throat afflictions are practically unknown.

Breathe Hyomei and get the same pleasant germ-killing effect as you would get in the eucalyptus forests. Hyomei is sold by Hartell Drug Co. and druggists everywhere on a guarantee of satisfaction or money refunded.

CLEVER COMEDIAN ON PALACE HIP BILL

The management of Loew's Palace Hip promises an exceptional entertainment treat to their patrons in the big double vaudeville bill coming to that theatre tomorrow, seven acts, including several headliners, being announced. An outstanding feature will be the offering of the noted musical comedy and vaudeville star, Harry Hines, who bills himself as "the 5th variety." "Absolutely nothing serious allowed" is the subtitle his act carries.

The Gypsy Trio will present another stellar feature. Two men and a pretty girl form the trio.

A big special added attraction is announced in "The Whirl of Variety," a scenic musical revue. "Superstition" is the title of a rollicking farce in which Bond-Berry and company will appear.

Jack and Mary Graham are a versatile pair, who include the latest songs, dances and comedy in the gleanings of "fragments from musical shows."

Victor and Dena will offer a character specialty full of comedy glints. Jack Gregory and company will appear in an exhibition of juggling and hoop rolling.

Pour boiling water on oranges and let them stand five minutes. This will cause the white lining to come away with the skin so that a large quantity can be quickly sliced for sauce or pudding.

AFTERNOON DRESS

Here is an interesting afternoon frock in brown crepe de chine and Canton crepe. There is, first, a plaited skirt of crepe de chine to which is attached a plain bodice of the same with long, flaring sleeves of chiffon cloth.

The tunic, which is open in front to reveal the plaited skirt as a panel, is embroidered in dull gold thread.

CHAPPED HANDS

A cook often has great difficulty to keep her hands from chapping. The many times she must wash them and plunge them in water during the preparation of a meal makes the skin very tender.

A simple precaution that costs nothing but time is to be sure one's hands are perfectly dry after each washing. A dry hand is not so susceptible to cold and will not chafe so quickly.

EARLY GARDENS

It is advisable to start your garden early. The best way, of course, is to sow seeds of early vegetables in a hot-bed.

But you can start plants, vegetables and flowers, indoors. Fill a shallow box (or two) with rich garden soil, to the depth of two or three inches.

Sow seeds in tiny rows. Place seed-box in warm place (not too hot), near window so sunshine can reach it. Water every morning liberally, and again more lightly toward evening, if soil has dried.

When seedlings are up, transplant to sheltered, sunny location in yard, covering with glass on cool days, and with old carpet at night.

From earliest times the violet has formed a confectionery delicacy.

DOTTED ORGANDIE BIDS FOR POPULARITY

The daintiest as well as most novel of the new fabric being shown for spring is dotted organdie. Embroidered in colored silks it becomes the most delectable of assets to any woman's wardrobe.

Sometimes the dots on the white organdie ground are of one color, but more often yellow, blue, rose, orchid and pale green dots are all scattered indiscriminately together with the most charming result imaginable.

Flowers, as much as vegetable, are used in preparing rice dishes in China and Japan.

Are You Weak, Worn or Worried? Is Your Blood Thin and Watery

so that it makes you nervous, sleepless or easily fatigued? Don't wait until you collapse but commence to fortify your starving blood with iron today. How to do it.

If you are undergoing STRAIN, STRESS OR TROUBLE, don't forget that it is probably sapping the iron from your blood and that your RED BLOOD CORPUSCLES are likely DYING BY THE MILLIONS.

WHEN YOU FEEL THE FIRST WARNING SYMPTOMS—when you commence to lose your strength or vitality; don't sleep well at night; are highly nervous or irritable; get the "blues" easily; when your eyes begin to lose their luster or brilliancy and the lids are pale inside (a most important symptom) then is the time you should act; and not wait until you go down in a state of complete nervous prostration or physical collapse.

A New York physician says that MORE THAN ONE-HALF THE POPULATION OF AMERICA PERISHES BEFORE MIDDLE AGE and that one of the chief contributory causes of this terrible waste of human life is the devitalizing weakness brought on by lack of iron in the blood.

THERE ARE 50,000,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON. When your blood is starving for iron no mere tonic or stimulants can put you right. You must have iron. To get iron you must eat the husks of grains and the peels and skins of fruits and vegetables as our forefathers did or take a little organic iron from time to time and not more such iron-containing foods as spinach and apples. Be sure the iron you take is organic iron and not metallic or mineral iron which people usually take. Metallic iron is iron just as it comes from the action of strong acids on small pieces of iron and is therefore an entirely different thing from organic iron. Organic iron is like the iron in your blood and like the iron in spinach, lentils and apples. It may be had from your druggist under the name of Nuxated Iron.

Nuxated Iron represents organic iron in such a highly condensed form that one dose of it is estimated to be approximately equivalent in iron content to eating half a quart of spinach, one quart of green vegetables or half a dozen apples. It's like taking extract of beef instead of eating pounds of meat.

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron from three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

Over 4,000,000 people annually are using NUXATED IRON. It will not injure the teeth nor disturb the stomach. Your money will be refunded by the manufacturer if you do not obtain perfectly satisfactory results.

Beware of substitutes. Always look for the word NUXATED on every package and the letters N. I. on every tablet. Sold by all druggists.

Restaurant Men And Their Profits

An Aditorial BY C. S. COLEGROVE—RESTAURATEUR

ARE restaurant men profiteers? Or do they play fair with the public? Some folks think prices should be slashed more than they have been, owing to editorials in certain newspapers. But should they? And why should the restaurant men fail to present their side of the case? Let's see:

I have just read in the National Restaurant News an article by W. H. Charlton on co-operation among restaurant men, in which he declares how futile it is for individual caterers to speak their minds, or individually write letters of protest, without the general co-operation of their fellows.

BUT—suppose one's fellows are unable to get together for the good of all. I ask, shall a man full of initiative stand still and wait for this get-together spirit, or had he best speak out of his own accord, and freely discuss the subject and others in which the public is so vitally interested?

I, for one, shall speak and write alone, for the benefit of the Seattle eating public as well as the benefit of the Colegrove restaurants and all others. I am going to write a few educational editorials on the restaurant business and its general profits, positively showing the exact figures, as I write from time to time. For your sensible, fair and unbiased judgment, I submit the following figures today:

Distribution of gross profits for all of the COLEGROVE RESTAURANTS for Year 1919:

55.78%	was paid to labor
26.88%	was paid to landlord
17.34%	constituted general expense
0.00%	was Colegrove's gross profit

Remember, these are gross figures—not net! Figures by A. L. Hanson & Co. Certified Accountants

Now, for the benefit of all other caterers, I would like to say that if the general public believes me to be an average caterer, with an average amount of intelligence, it must accept the figures presented above as typical of most of the restaurants in Seattle.

Please don't misconstrue this as a plea for high prices. It isn't, because prices are not high, in spite of the opinions of some publications to the contrary. There have been some very generous reductions, especially in the Colegrove restaurants, where our coupon book plan saves our patrons as much as 20%. And we shall reduce whenever possible, and consistent with good business. Just remember: Full value, for your money, at Colegrove's, always.
