

BOY LIVES AFTER HE IS BURIED

Happy Father So Excited He Faints; Sheriff Made Costly Mistake

MANZANOLA, Kan., April 22.—Recently the people of Manzanola turned out in force to the funeral of "Billy" Johnson and high were the flowers banked upon his grave.

It's a strange story, shrouded somewhat in mystery. BODY IS FOUND HANGING TO TREE

"Billy" is the son of Mr. and Mrs. Charles Johnson, one of the best known families in the county.

Several weeks ago his roving disposition got the better of him and he drifted to Provo, Utah, where he obtained work upon a farm.

From time to time he made calls upon his father for money and always money was sent him, usually in amounts of \$50.

A little more than a fortnight ago Mr. Johnson received a telegram from the sheriff at Provo stating that "Billy" Johnson was dead.

His body, hanging to a tree, had been discovered a week after his disappearance from the farm where he was employed.

The body was frozen stiff and the face had turned black. "THAT'S NOT MY SON," SAYS FATHER

The undertaker at Provo wanted \$25 before the body was shipped. This sum was sent and the body arrived. When the casket was opened in Manzanola the father closely scrutinized the face and exclaimed: "That's not my son!"

Half of those present firmly believed it was "Billy" Johnson's body, while the others could not recognize the features. True, there was a scar on one hand, the same as "Billy" had, but this one was raised, while the scar on "Billy's" hand was sunk.

The father gave himself the benefit of the doubt, and funeral services were held. A few days later, while the Johnsons were at dinner the telephone rang. Mr. Johnson answered.

"Hello, is that you, dad?" came the voice. The astonished father could hardly answer he was so excited, and faint before he could finish his message.

A neighbor who happened to be at the home took the receiver and resumed the conversation. She found Billy was stranded in Denver. He was kept "on the wire" until the father regained consciousness.

Arrangements were made for Billy to remain at the hotel in Denver until the father could get there. WHOLE TOWN OUT TO WELCOME "DEAD" BOY

Johnson went up to the state hospital and brought his son home. He was quite alive and well, and the smile he wore when he stepped off the train at Manzanola, extended from ear to ear.

Reforms, Makes a Million WHISKERS ARE FATAL TO BIRD

Woman Crook Turns Good

Sophia Lyons, the woman who came back, and two scenes in her romantic career.

DETROIT, April 22.—"Once a thief, always a thief is the blackest lie ever hatched."

So says Sophia Lyons, 34 years an international crook, 43 years more a successful business woman.

"Good name is the thing to be guarded. Once lost, its loser is banished beyond the pale—shut off from the condition in which lies the only desideratum—contentment."

Late in her 20's, following her determination to seek "big game," she traveled thru Europe, acquiring the learning that enabled her later to move in the hazy edge of the "beat circuit" of America and Europe.

Armed with this "culture," she preyed upon society to her heart's content. But Sophia Lyons didn't escape the law. Arrested 100 times in the 28 years of her criminal life she has been in jail.

Forty years ago, after her release from the House of Correction here, she determined to "go straight."

"The first employer to whom I applied had me thrown out bodily," she says. "Finally after a long search I found a \$10-a-week job in a real estate office. When I left the office a few years later I was making \$1000 a week."

Since that time independent real estate dealings have netted her almost \$1,000,000. With it the 34-year-old woman has established homes for wayward girls in many parts of the country and carried on prison reform work in a large degree, at her own expense.

Out of her total income each year she sets aside \$1,000 for her own expenses and devotes the remainder to charity.

Her husband is ill in Wabash and she is without funds.

PHILADELPHIA, April 22.—The burial ground of St. Michael's Lutheran church has been closed. It opened 200 years ago. Many who made colonial history are buried there.

PARIS, April 22.—Five robbers, one of them a woman, who have terrorized hotels in Paris, and along the Riviera, by the use of a heretofore unknown "aphysiating revolver" have been apprehended.

Until six years ago, head hunters flourished among the natives of New Guinea.

FIND USE FOR OCEAN TIGERS

Hides of Sea Fish Used in Lieu of Cow Leather

PORT MYERS, Fla., April 22.—Sister in devilish dancing pumps. Dad in sharkskin shoes. Mother in stungaree slippers.

These things will soon come to pass. A plant at Sanibel, Fla., is making them now.

These fish, heretofore useless to man, are being caught and brought to the plant. Their skins are tanned. The tanning process was invented by Alfred Ehrenrich, president and promoter of the Ocean Leather Co.

Ehrenrich has become wealthy by selling the European and South American rights to his process.

His company has plants at Brumawick, Ga., and in North Carolina, and plans others at Key West and New Orleans.

Bull cases and other leather goods will be made. Shark skins are used for the manufacture of a medicinal oil.

PARIS, April 22.—Five robbers, one of them a woman, who have terrorized hotels in Paris, and along the Riviera, by the use of a heretofore unknown "aphysiating revolver" have been apprehended.

PAGE WALT MASON KANSAS CITY, April 22.—Teachers in Emporia schools wear skirts so short that it is difficult to distinguish them from their pupils, according to Miss Florence Wright, county superintendent of instruction.

CHICAGO, April 22.—A precarious profession is that of the artist's model in America. So says Belle Marquies, model, who is returning to France.

It's precarious because, she finds, there are more models than are needed.

"Posing in the nude or in drapes is demanded only by the superior and schools," says Miss Marquies.

"Often a girl is hired to pose because she has a certain type face.

Probably when the ruling permitting the medicinal use of beer gets into general operation, there'll be a new clause specifying homeopathies doses only.—Kansas City Times.

That artist may never want her to pose again.

"Artists almost always regard the regard a straight line, a pillar or any inanimate object.

"Artists' models are usually sweet, pleasant, puritanical girls. Disappointment kills the model's career."

He Wants Classical Music in the Slums LONDON, April 22.—Sir Hugh P. Allen, principal of the Royal College of Music, has offered to take a street piano down to Whitechapel, London's worst slum, in order to prove that the children would appreciate good tunes.

He describes the air to which the Whitechapel children now dance in the street as "filthy."

Standard time was adopted by the United States in 1893.
