Score British Women for Imitating Men

JAP SMUGGLING PLOT CHARGED

Says 2,000 Come Via Lower California

TOKYO.—(By Mail).—That over 2,000 Japanese have been smuggled from Lower California into the United States by pulling the wool over the eyes of the Japanese foreign office is one of the sensational charges of a suit brought in the Tokyo courts by a Japanese named Harada against the so-called Japan Mexico Industrial Development Co.

Harada also charged that Japanese Consul Oyama, of Los Angeles, issued fraudulent certificates in connection with the activities of the corporation.

Harada charged that the corporation entered the smuggling business as a side line, charging from \$500 to \$800 per head to bring each Japanese across the line. The foreign office issued a statement, however, stating that it believed the number of smuggled Japanese to be highly exaggerated, because it had no records, and the steamship companies had no records, which would indicate that any such number of Japanese had emigrated to Mexico.

Harada alleged the company was organized in 1912 to purchase 35,000 acres of land in the state of Sinaloa. The land was to be cut up into small tracts for settlers. The complaint states, however, that the land was arid, and that, furthermore, a valid title did not vest in the company, which merely pretended that it owned it. Large amounts have since that time been obtained from would-be settlers and investors, the complaint charges, one of the principal dupes being a postmaster near Oaka, who invested 70,000 yen. He was recently arrested on a charge of having embezzled large sums from the government.

Consul Oyama, it is alleged, certified to intending purchasers that the company's title was good, and has been giving the concern every assistance available.

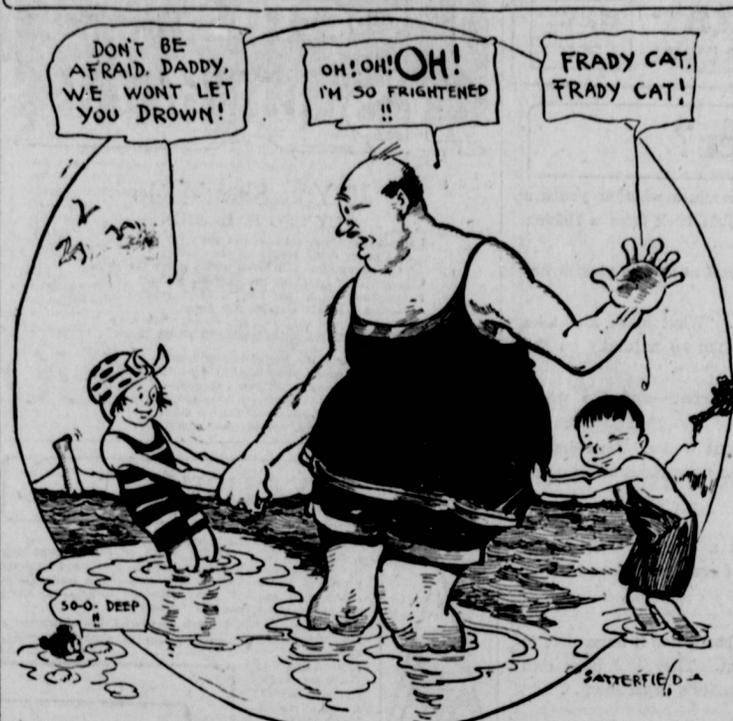

When the land was found by the would-be settlers to be arid, those connected with the company, it is charged, proceeded to charge from \$500 to \$800 to smuggle them into the United States by way of Lower California.

SEEK BODY IN BURNED RUINS

Lamp Explosion Believed to Have Trapped Two

ABERDEEN, Wash., July 12.—They're after George Bruel, "dead or alive."

While posers are combing the countryside for Bruel in the belief that he is at large, Sheriff Gibson is preparing to open up a cave under the burned ruins in which the bones of Martin Saari were found, on the chance that Bruel may have been buried therein.

Authorities charge that Bruel murdered his companion, Saari, and then set fire to their cabin. Bruel's friends maintain that the two men were making moonshine when their lamp exploded, and that Saari was trapped within the blazing cabin, while Bruel was pinned in the cave below.

Spent 25 of His 43 Years Jailed and Falls Again

BOSTON, July 12.—Joe Barrett, alleged Houdini of the art of opening safe meters without authority and extracting the coins therein, is back again. For Thin Waists and Sleeveless Gowns

(Toilet Tip) A safe, certain method for ridding the skin of ugly, hairy growths is as follows: Mix a paste with some powdered talc and water, apply to hairy surface about two minutes, then rub off, wash the skin and the hairs are gone. This is entirely harmless and seldom requires repeating, but to avoid disappointment, it is advisable to see that you get genuine talc. Mix fresh as wanted.—Advertisement.
