It is reported that the price of the Ford will be reduced again August 1. All right, as soon as they drop to two for a quarter we are going to invest two bits in a couple of 'em. Sutton Reporter.

Miss Russell made many friends during her short stay here who regretted seeing her leave. Miss Elsie Sanden is now the saleslady in the store.

This issue of the Ledger is certainly short of news this week. The paper is being printed a day earlier, and as the editor has been busy crating furniture, washing clothes, feeding dogs,

and collecting bills, besides entertaining John Hillerson and "King" Geo. Olson on war news, what could you expect.

### Always Water For Christening

There seems to be some confusion on the part of certain good people concerning the attitude of the W. C. T. U. with regard to the christening of ships with champagne. The "Outlook" says editorially, "The opposition of extreme temperance advocates has always been difficult to understand." It contends that inasmuch as "a bottle smashed on the bow of a battleship is one bottle that can never be drunk, such an event ought to be regarded as another blow to the consumption of liquor."

Miss Anna A. Gorden, president of the National Woman's Christian Temperance Union, being asked to give the white-ribboners' viewpoint, said: "Our friends, the non-extremists, are taking a narrow and superficial view of the question. They are losing sight of the symbolism of the rite itself. Consider the root meaning of the word 'christening.' One of the dictionary definitions of 'to christen' is: 'to name, as a ship, by a ceremony likened to baptism.' Always baptism in the Christian economy has been with water. If in days gone by spirituous liquors were supposed to give long life and good luck, the revelations of science have thoroughly exploded that theory. Water is a symbol of life, alcohol a symbol of disease, destruction and death, the enemy of life and efficiency; hence the christening of any ship with champagne is an absurdity and an anachronism."—Ex.

### Fads And Fashions.

Oyster white khaki makes a delightful summer suit.

New parasols have their edge turned up all around.

Nothing is better suited than voile for the present fashions.

The success of a hat is largely a matter of poise and tilt.

Roses are more in favor than ever for gowns and millinery.

The smock has taken the place of the sweater in the garden.

The gray sweater over the white dress is still in good style.

There are many charming and becoming adaptations of the suspender dress and they all afford ways of making over last season's dress.

### Despondency Due to Indigestion.

"About three months ago when I was suffering from indigestion which caused headache and dizzy spells and made feel tired and despondent, I began taking Chamberlain's Tablets," writes Mrs. Geo. Hon. Maceoon, N. Y. "This medicine proved to be the very thing I needed, as one day's treatment relieved me greatly. I used two bottles of Chamberlain's Tablets and they rid me of this trouble." Obtainable everywhere.—Adv.

### Against Booze.

"Fine!" That's the comment of the Macon (Georgia) "Daily Telegraph" not a prohibition paper—concerning the action of Georgia bankers in banishing intoxicating drinks from their annual banquets. "The truth about this booze business," it says, "is that the greatest factor of all has set its face against it—and that is the growing respect for personal efficiency in body and mind on the part of the American man, young and middle-aged."

### Out With Him.

Chicago's Chief of Police, Charles C. Healy, addressing a conference of his subordinates, took occasion to deal a blow at John Barleycorn, who has been "hail fellow, well met" with police force for so many years.

"John Barleycorn," he said, "is the worst enemy we have. He is a mocking liar, a seditious scoundrel, a traitor and a poltroon, and no man who wears the city star may keep him company. It is easy enough for you to do good work when John Barleycorn isn't with you. He cobwebs your brain, he dulls your eyes, he slaaks your nerves, and whispers false whispers into your mind. So blackball your friend who is not a friend, or else you may find yourself, too, on the outside of the department with your friend. Raus mit him!"

It is sometimes said that to prohibit the liquor traffic is to create an appetite for cocaine, morphine and other habit-forming drugs. Chicago has more than 7,000 saloons, yet, according to the Chicago "News" there are 80,000 dope-users in that city!
