A Dollar Works Wonders At This Store

OUR customers know it--we want others to. That's the reason we are asking you to bring your next dollar here and watch it perform. You'll think you are buying the whole store and there is quality in everything you get.

The Up-to-the-Minute Store Kraabel & Kraabel, Prop.

Now On Exhibition!

The World-Famous Rock Island (C.T.X.) Universal Plow

Everybody has heard of the "UNIVERSAL" plow—the plow that does perfect work in any kind of soil, on any kind of land. Being the only all-purpose plow in the world, it is naturally quite a curiosity to anyone who has never seen it.

We now have one of these remarkable implements on exhibition here at our store and will be pleased to show it to you any time you say.

The Only Universal Plow in the World

We have known a number of plows that do good work in certain soils and on some kinds of land. But this is the first and only plow we have ever seen that successfully does all kinds of plowing.

This plow does excellent work on tame sod, on stubble land, in a trashy last-season's cornfield, in gumbo soil, sandy loam, mixed land or in any other way or place you choose. In every case it turns each slice over, flat and smooth, without hitching.

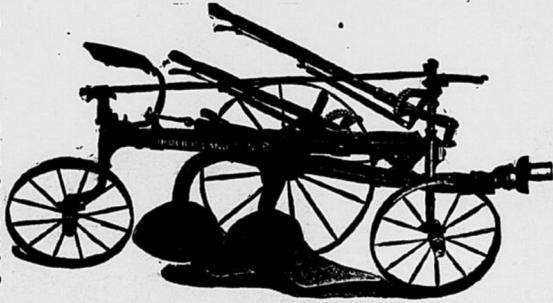

Saves Priceless Moisture

As it lays each slice clear over—flat and smooth—(no kinks) there is no air space between top and subsoil. It leaves the top soil in direct close contact with subsoil, and thus in dry weather, water comes up from below just like kerosene comes up a lamp wick.

It's a mighty important thing to see that your crops get plenty of moisture in hot, dry weather. If moisture don't come on top, bring it up from below. It's there and you can get it.

How It Works

Note the peculiar cork-screw, auger-like twist of the mould-board. A slice of any thickness spreads out evenly over the

surface without crimping and turns clear over, burying all trash completely. No spilling over into the furrow or clogging forward in the land. Lightest draft and easiest on the horses of any plow made. The Rock Island Plow Co. invented and control the shape of these mouldboards and they cannot be had on any other make of plow.

Gang or Sulky

We can furnish you a Rock Island "UNIVERSAL" in either style you wish, Single Sulky, Double or Triple Gang.

Not High Priced

This plow, which does practically the work of four plows, costs scarcely more than the ordinary plow. So you see it's economy in every way to own a "UNIVERSAL." Come in and let us make you a price.

Come In and See It

Why not come in and take a look at a Rock Island "UNIVERSAL" the first time you are in town? We will be glad to show it to you and to explain how it is saving money, work, time and making bigger crops for thousands of farmers. Any time you're ready to look at it, whether you want to buy or not, we are ready to show it to you. Come in.

HOPE GARAGE

Mr. and Mrs. M. S. Bothne and Mr. and Mrs. J. D. Foley spent Friday evening with friends near Hope.

Monday morning Jake Patterson and also Patterson & Ellsworth commenced threshing, which appears to be a favorite occupation just at present.

Elmer Anderson autoed up from Dazey yesterday, transacting business for the telephone company.

Mr. and Mrs. Julius Peterson, who have been publishing the paper at Luverne, N. D., are here for a visit with his mother and brothers—Alexandria Echo.

L. A. Wood and family arrived from Minneapolis the latter part of last week. He has extensive property interests in the neighborhood and will remain through the threshing season.

Thos. Nybeck is enjoying a visit from his brother this week. He has also had experience in the restaurant business but was forced to give it up because of poor health. For the past two years he has made his home in Minneapolis.

The two best yields of wheat so far

as we have been able to learn, is one of thirty bushels at the Andrew Jacobson farm, and one of thirty-five at that of Andrew Paulson which weighed sixty-three pounds to the bushel. Should any one of our farmer friends be able to report a heavier yield, by all means do so and we shall be pleased to publish the same.

W. H. Northrup, of Fargo, is here to superintend threshing operations on his farm a mile north of town.

Mrs. Mable Cook, a sister of Mrs. E. H. Dailey, left for Shelby, Mont., Monday, where she has been engaged to teach.

A medium sized audience was in attendance at the presentation of "His Haskins" Monday evening. Those who were present report it worthwhile.

Rev. Sigurd Olson, of Copenhagen, who has charge of the field, made his office a pleasant call yesterday. He went from here to Fargo for a short business visit.

One of Neil McKay's little boys came very near losing an eye when a knife in the hands of one of his playmates slipped and slashed him across the eyebrow. As it is, no serious results are expected.

Wycliff Smith visited in Hope last Thursday and Friday with the retiring minister there, Rev. S. Hitchcock, who has been at Hope ten years and recently accepted a call from New Rockford.

The Willow Lake Special School No. 18, will open its doors for the fall term on Tuesday, Sept. 7th. Miss Ruth Vall, of Stewartville, Minn., a graduate of the Normal School at that place, has been engaged by the board as teacher.

The local freight going east was ditches Wednesday night as the result of a burned out journal. Seven cars loaded with grain were piled into a promiscuous heap, five of which were totally demolished and later burned. The wrecker came up from Breckenridge and had the road cleared by Thursday evening. In the meantime all trains were dispatched via Vance, and traffic regularity maintained.

While firing at one of the outfits in the neighborhood, Gilbert Law had a close call from what might have been a serious affair. The glass in the water gauge burst, and some of the flying pieces cut an ugly gash on his chin. Dr. Nygard closed the wound which required two stitches, and Mr. Law will not be greatly inconvenienced.

Listen, all ye who have been prone to pity the "poor farmer" while we relate this bit of fact: From 34 ordinary North Dakota acres Andrew Jacobson coaxed forth sufficient wheat to exchange in the market for the exceedingly comfortable sum of \$621.48. "Can you beat it."

FOR SALE 22 Head of Scotch Short-Horns

18 cows and heifers and 4 bulls. These cattle are well bred and are good individuals: I guarantee them to be breeders. The bulls are from ten months to one year of age, also one large, white, herd bull four years of age, the sire of the first prize, yearling heifer exhibited by me at the 1915 North Dakota State Fair. Three of the cows have bull calves and ten cows have heifer calves at foot.

Also 20 head of extra good horses, grade Percherons and Shires with lots of size and quality, from two to six years of age, weighing from 1500 to 1800 lbs. Some are sired by the second prize Percheron stallion at 1914 Ill. State Fair, some mares with foal to 2400 lb. Shire stallion, some well matched teams. Write for particulars or visit the farm, one mile east and one mile north of Grandin, North Dakota.
