## THE MAN BEHIND THE PLOW

is the most independent worker of which we know. He is his own manager and enjoys complete control of his business.

But while he is independent, yet he must take care of himself as a duty to himself and family. We believe the best way of doing this, so far as the farmer of this community is concerned, is to have an account with this bank.

If you will deposit the proceeds from the sales of your farm products in this bank you can then pay all your bills with checks on us. If you have not been using this method of keeping a check on your business you will appreciate the many advantages offered by such a system. It will save you considerable worry about the safety of your money or the danger of paying bills a second time. Your cancelled checks are a receipt for every dollar paid out.
