PLOWS

JOHN DEERE and EMERSON

Buy the kind of plows that have stood the test of time; the kind that will scour in difficult land; the kind you find an agent for in every important town and for which you can get repairs.

Now On Exhibition!

The World-Famous Rock Island (C.T.X.) Universal Plow

Everybody has heard of the "UNIVERSAL" plow—the plow that does perfect work in any kind of soil, on any kind of land. Being the only all-purpose plow in the world, it is naturally quite a curiosity to anyone who has never seen it.

We now have one of these remarkable implements on exhibition here at our store and will be pleased to show it to you any time you say.

The Only Universal Plow in the World

We have known a number of plows that do good work in certain soils and on some kinds of land. But this is the first and only plow we have ever seen that successfully does all kinds of plowing.

This plow does excellent work on tame sod, on stubble land, in a trashy last-season's cornfield, in gumbo soil, sandy loam, mixed land or in any other way or place you choose. In every case it turns each slice over, flat and smooth, without hitching.

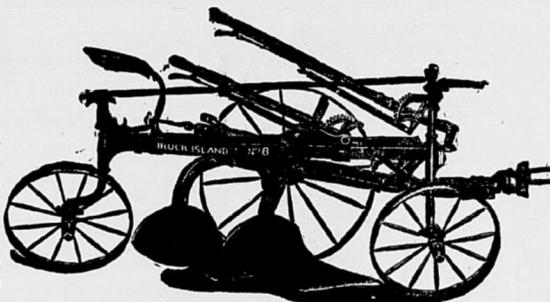

Saves Priceless Moisture

As it lays each slice clear over—flat and smooth—(no kinks) there is no air space between top and subsoil. It leaves the top soil in direct close contact with subsoil, and thus in dry weather, water comes up from below just like kerosene comes up a lamp wick.

It's a mighty important thing to see that your crops get plenty of moisture in hot, dry weather. If moisture don't come on top, bring it up from below. It's there and you can get it.

How It Works

Note the peculiar corkscrew, auger-like twist of the mould-board. A slice of any thickness spreads out evenly over the

surface without crimping and turns clear over, burying all trash completely. No spilling over into the furrow or slopping forward onto the land. Lightest draft and easiest on the horses of any plow made. The Rock Island Plow Co. invented and control the shape of these mouldboards and they cannot be had on any other make of plow.

Gang or Sulky

We can furnish you a Rock Island "UNIVERSAL" in either style you wish, Single Sulky, Double or Triple Gang.

Not High Priced

This plow, which does practically the work of four plows, costs scarcely more than the ordinary plow. So you see it's economy in every way to own a "UNIVERSAL." Come in and let us make you a price.

Come In and See It

Why not come in and take a look at a Rock Island "UNIVERSAL" the first time you are in town? We will be glad to show it to you and to explain how it is saving money, work, time and making bigger crops for thousands of farmers. Any time you're ready to look at it, whether you want to buy or not, we are ready to show it to you. Come in.

Old Poems Re-writ.
Oft in the chilly night,
Ere slumber's chain has bound me,
I lay and swear at the phonographs
In other rooms around me.

One View of It.
Mrs. Bacon—I understand one can learn different languages from the phonograph? Mrs. Ebert—Well, since our neighbor got his I know my husband has used language I never heard him use before.—Topaka Journal.

What He Thought.
Sundry School Teacher—What do you suppose Jonah thought when he found himself inside the whale? Small Pupil—I guess he thought he'd want to sleep in a folding bed and it had closed up.—Chicago News.

DR. L. G. HERBERT

Preacher, Lecturer, Author, and Poet is Coming Soon.

Dr. Herbert has more titles than these to his name, but there is not any one of those above which are honorary, though Dr. Herbert has a habit of hiding his literary aspirations under a bushel. He dashes off a short story or a poem any time as an appetizer. He writes his own funny stories, because he does not have to steal the other fellow's. He has a couple of

Dr. L. G. Herbert

books now on the press and even Dr. Herbert himself admits that they will be among the six best sellers. As to the preaching part of it: Dr. Herbert was pulled away from a pastorate in Ohio to preach to the greater church, the Lyceum. He is great, he will please, and no one should miss him.

DR. L. G. HERBERT.

A Tribute by Wheeler McMillen in the Ada, Ohio, Record.
Ada people have known and loved Dr. Herbert since his boyhood.—Ada Record.
He's a grand old boy.
This prince of joy.
This man from the land of vim.
He's a scrapper at bunk.
He's a radium chunk.
His tinkery's full to the brim.

His speeches are full
Of a push and a pull
That make a man get up and climb.
His heart is a lyre,
His soul is affire,
He carries a call sublime.

His visions are wide,
His train is untied,
His message is meant for men.
He has hammered along,
With a thought and a song,
With eloquent voice and pen.

His smile is a flash,
Unvalued in cash,
But a glimpse of a heaven here.
The grasp of his hand,
A cusp of the grand,
Is the grip of a king's own peer.

He's a fighter at grouch,
He's a slugger at slouch,
He preaches the gospel of CAN.
He's no use for the grump,
He believes in a bump,
He stirs up the Will in a man.

He sees that the new,
In offices and pew,
Is the need of the modern day,
And with words that enthuse,
He's proclaiming the news
In his Twentieth Century way.

Mr. and Mrs. Victor Hanson went to Fargo Thursday evening of last week, where Mrs. Hanson will undergo an operation for appendicitis.

Arrangements were completed this morning whereby J. D. Foley disposed of his interest in the Luverne Hotel building to Ole Nybeck, who will immediately provide the necessary furniture and equipment to open a first class rooming house and later a lunch counter in connection.

Shortly after one o'clock last Wednesday night a crew from a neighboring machine started a rumpus in Andrew Jensen's poolroom after a demand had been made that they return some of the pool balls they had surreptitiously swiped. Jensen, ably assisted by others, finally threw the bunch outdoors after a lively tussel in which blows were freely exchanged and several sore heads had been given with the aid of some cues lying handy. Being put out aroused the ire of the rough riders and they vowed a speedy vengeance which they immediately put into execution by heaving several large rocks thru the front windows, and later thru the back one. By this time Andrew decided that he had stood enough, and so he brot his revolver into action, and peppered away at a lively rate. This cooled the ardor of the frenzied ones and they jumped into their rig and drove away in a southerly direction.

The authorities decided to await the dawn before taking any steps to capture the house wreckers. At latest reports they are still at liberty, doubtless congratulating themselves on getting away with it. It is reported that they will soon be brot to justice and it is earnestly to be desired that they taught a lasting lesson as to the rights of others.

When Baby Has The Croup.

When a mother is awakened from sound sleep to find her child who has gone to bed apparently in the best of health struggling for breath, she is naturally alarmed. Yet if she can keep her presence of mind and give Chamberlain's Cough Remedy every ten minutes until vomiting is produced, quick relief will follow and the child will drop to sleep to awaken in the morning as well as ever. This remedy has been in use for many years with uniform success. Obtainable everywhere.—Adv.

The young man who is courting a girl and means business, doesn't care for competition.
