**Good Bye Dirt!**  
Here Comes  
**Richards' Magic Washing Stick**

**RICHARDS' Magic Washing Stick**

is one of the most wonderful inventions of the age. It is absolutely unique. Never before has there been speed without harm. Never before have women had anything which REALLY made dirt disappear as quickly, as harmlessly, as EASILY as with this extraordinary dirt loosener. It does HOURS work in MINUTES. It positively will not fade colored clothes—shrink or harden woolen, and will not rot or weaken lace curtains so they tear easily, but keeps them STRONG besides absolutely clean.

3 Sticks for 25c—less than 2c a washing  
Sold locally and guaranteed by

point to keep in mind is that the horse has a small stomach that holds only a few gallons. The digestion is largely done in the stomach. If the grain fed is pushed out of the stomach before it is digested whether it be by water or hay some of the value of the feed is lost.—North Dakota Experiment Station.

**Who Started The War**

There has been quite a number of stories circulated as to who started the great European War and here is another one that has just started on the rounds:

"The Crown Prince was having a little chat with his father, the ruler of Potsdam, and apropos of nothing said: 'Father, who started the war?'"

"I know", said his father playfully, "but I won't tell."

"Did Cousin George start it?" persisted the youth.

"No," said the father.

"Did Cousin Nicholas?"

"No."

"Did Franz Joseph?"

"No," reiterated the old man.

"Well, who did then?" insisted the son in a petulant tone of voice.

"Well, as you insist, I'll tell you son. You remember when Teddy Roosevelt came out of Central Africa and called on us several years ago, I showed him our magnificent army, our great and glorious navy, I showed him our Zeps and the submarines and the gas bags and all our big guns and everything. He was greatly impressed and when we were through he slapped me on the back and said, 'Bill, my boy, you you can lick the whole world.' and like a d... fool I believed him."—Ex.

## Built for the Business Farmer

The Dort was built for the business farmer. For 30 years Dort had been building farm vehicles. He knew what the farmer wanted for vehicles and what he needed in an automobile.

If an automobile is going to be a business asset to the farmer he must be able to use it every day in the year; when the roads are deep with snow; when the temperature is far below zero; and again in the spring when the frost is coming out of the ground and the mud is so deep and thick that the average car will sink to the hubs and be hopelessly mired.

The Dort is built for these conditions. It is a real farmer's automobile. The price, \$665, puts it within the reach of every business farmer. Its light weight insures low cost of operation.

From every standpoint of mechanical excellence and appearance the Dort merits a careful investigation of the Business Farmer.

See the Dort at our show rooms.

**A Symbol of Health**

The Pythagorians of Ancient Greece ate simple food, practiced temperance and purity. As a badge they used the five pointed star which they regarded as a symbol of health. A red five pointed star appears on each package of Chamberlain's Tablets, and still fulfills its ancient mission as a symbol of health. If you are troubled with indigestion, biliousness or constipation, get a package of these tablets from your druggist. You will be surprised at the quick relief which they afford. Obtainable everywhere.—Adv.

**Watering the Horses**

It has been demonstrated that if a horse is given grain first and then watered some of the grain is pushed from the stomach into the intestines before it is digested. This would indicate that the horse should at least have some water before being fed grain. Again, if the horse real thirsty and is allowed to drink to excess, it will not eat as much as it should. Too much water when a horse is overheated is also dangerous. The

**Willys-Knight**

Model 84 B  
**\$1125**

Roadster \$1095  
J. O. B. Toledo

## It Improves With Use

There is a delightful thrill in the smoothness with which the Willys-Knight motor "picks up" without "choking"—without the slightest vibration.

There is great satisfaction in being able to throttle it down to a walking pace on high gear.

But the remarkable superiority of the Knight sleeve-valve motor lies in the fact that—

Though all other motors grow noisy and lose power and smoothness—

The Knight sleeve-valve motor grows steadily quieter with use and increases steadily in power, smoothness and all-around performance.

The factory's enormous production made it possible to price this wonderful car at \$1125 for the touring car, and \$1095 for the Roadster.

Ask us to tell you about the Willys-Knight.
