The lecture Monday evening by Dr. Gray proved to be one of the best numbers on the course. He was greeted by a good sized audience and spoke of his own experiences in the slums of New York while posing as a hobo.

C. E. Anderson, who resides on Section 17 Willow Lake Twp., 2 miles north of Luverne and 11 miles southwest of Hope, will hold an auction sale on March 9th. He will offer 20 head of good work horses, 12 head of cattle and a complete line of farm machinery. Adv. 2t

The weather man went on the job last Friday and ordered a change of weather that was very acceptable, five days of warm sunshine that made a big reduction in the snow drifts. We hope that February will have several more spells of good weather.

Mr. J. W. Ingison, of Minneapolis, visited at the home of his brother, S. L., last week. Sunday evening he occupied the pulpit in the Methodist Church. We are informed that this is the third time that Mr. Ingison has preached in our city, the first time was twenty-five years ago, the second, seventeen years ago. His auditors report a very interesting sermon.

The patrons of the Hugo Twp. Schools were surprised and pleased a short time ago when their schools were visited by Miss Raean. In spite of the fact that the thermometer registered about 30 below, she made the trip from the County Seat on foot both coming and returning.

NARROW ESCAPE

Mrs. O. E. Dowling and daughter, Esther, narrowly escaped serious injury Tuesday afternoon. They were in the buggy preparing to return home when they discovered something wrong with the bridle. A friend was called from the sidewalk to fix it and while doing so the horse bolted. As the horse started the little boy, who was with them, was lifted out and placed safely on the ground but the two women were left in the buggy with no means of stopping or guiding the animal which dashed down Steele Ave. It turned the corner at the Philip residence and the occupants of the buggy were thrown out when they went over an ash pile.

Altho badly shaken up and stunned, neither were severely injured and after resting a short time at the Philip home were able to return to their own home.

SMOKE FUND

Owing to the numerous other activities we have rather neglected the smoke fund the past few weeks. We should not forget this entirely as the number of boys in France is increasing daily and the least we can do for them is to see that they are supplied with tobacco. Any letter from there tells how hard it is to get American tobacco. Previously acknowledged \$83 00

Our Service

And What It Means to You.

We are here to supply you with artillery for your big drive.

Right on your firing line, we take care of your Implement needs in the fight for more food

Over in France one of the biggest factors in the fighting is the ordnance department. Its work is to keep the soldiers on the front supplied with artillery, shells, etc. Its stores are right behind the firing lines. The speed and certainty with which it can supply high-grade guns and munitions mean everything.

Our store is the ordnance base for you, of this community, who are to join in the big drive for more food next spring. Your fight will be just as important as any in France. And your artillery supply is just as important. We are here where we can help you keep your farm artillery at the highest point

of effectiveness. Here's an extract of the latest bulletin from Uncle Sam to his farm fighters: "Use of the most improved farm machinery, always desirable, is of special importance now. Many of the latest machines embody improvements which will often justify their purchase from the standpoint of economy, even though the old outfit is still serviceable."

Our store has the most improved, the highest quality farm artillery for you—the kind that Uncle Sam requires. Come in and see it, and select what you need.
