

WILLIAM H. TAFT BORN 1857

**Taft Praised Bankers' Work**

President William Howard Taft in his talks to American bankers praised the work they are doing.

Did you ever stop to consider what this country would be without banks?

There never were as many bank depositors in the United States as there are today.

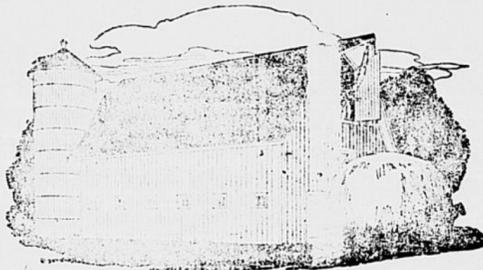

Are you a depositor?  
If you are not, see us today about opening an account.

**A Good Barn a Patriotic Duty**

FEED is expensive nowadays. Every possible ounce of it must be converted into beef or milk or working energy for the teams.

Stock-raising the protection of a good barn consume most of their feed in fighting the cold, or lacking the cool refuge of a properly insulated barn during the heat of summer, become indispensed and lose weight.

Feed converted into animal heat doesn't make beef or milk or money—it doesn't help to win the war.

The essentials of a good barn are good materials, proper construction, light, air and insulation.

Other materials than wood have been used in barn building but nothing has yet been found that makes as warm and dry a barn as a well built wood barn. And for long life and minimum of repairs, your barn should be covered on the outside with

**WHITE PINE**

Practical working plans, specifications and bill of material for the above type of barn, or any other farm building, will be furnished on request, together with complete estimate of the cost. We will gladly arrange the floor plan to suit your individual needs.

In terms of value a barn is cheaper now than it has ever been before. Come in and let us show you.

**HERE IS YOUR CHANCE TO LEARN ABOUT TRACTORS**

Tractor School to Help All Who are Interested in Power Farming

A tractor school is to be held in the warehouse of the Hope Implement Co., Hope, N. D. on February 11th and 12th, 1919.

This is a rare opportunity for tractor owners and all who are interested in farm power. You will get some valuable first-hand information on tractors. A tractor is not a complicated machine but there are a great many more things to know about a tractor than some of the ordinary farm machines. If the owner is to keep the tractor running properly he should understand it thoroughly. It is very important that all tractors are kept in good condition, especially is that true this year.

The tractor school to be held by the Hope Implement Company will be thoroughly practical in every way. The instructors are men who have been handling tractors for a number of years and not only know tractors from the standpoint of theory but have operated them and can give you the benefit of their practical experience.

Come prepared to ask questions. You are invited to put your problems up to the instructors and we assure you they will be in a position to be of help. It might be a good plan for you to make a list of the things you want to know about your tractor and have them ready at the tractor school. Time may not permit answering all the questions but they will be answered by correspondence or the information will be given you in the form of a book. Every possible effort will be made to give the tractor owners the information that will help them.

The company has prepared a book covering the principles of construction, care and operation of tractors, and all who attend the school will receive a copy of this book free of charge. It deals with the points of discussion that will be brought up at the school and will be of special advantage to the men who attend because they can study it after they have gone back home. Authorities say that this book is the best one on tractors now in print.

The tractor school will be absolutely free to all who care to attend. There will be no fees or charges for any of the instruction. All material will be furnished free. There will be nothing offered for sale and there will be no selling talks. The school is conducted purely for the benefit of those interested in power farming and is not limited to those owning or operating tractors.

Make your plans now so that you can spare the time to be at the school. It will be worth your while.

Don't forget the date! Plan to come and learn more about tractors and engines. The school opens promptly at 8 A. M. —Advertisement.

**NOTICE FOR BIDS**

Notice is hereby given that the Board of Education of Colgate Special School District will receive sealed bids for the construction of an addition to the old school house, 14 x 38 ft., and the erection of a stage, also for the laying of a new floor in said school building. Plans and specifications are on file with the clerk. Bids will be received up to the hour of two o'clock P. M., on Saturday, February 15th, 1919.

The Board reserves the right to reject any or all bids.

Dated at Colgate, N. Dak., this 5th day of February, 1919.

By order of the Board,  
T. O. KELLY, Clerk

Barley and Wild Oats are hard to separate with a fanning mill. Bring a sample in and run it through our Colfax Wild Oat Separator and see the result. Will also separate Wild oat from tame oats.

HOPE IMPLEMENT CO.

O. Sathre, W. D. S46 ft. of N107 ft. Lot 3, Blk. 19, First Addition to Finley, \$800.
