## ZEPPELIN CAPTURED.

Germans Make Air Raid on English Coast, No Casualties; One Brought Down.

London, Sept. 24.—One German airship, and probably another, was brought down during a raid over the eastern coast of England and the outskirts of London last night, according to an official statement. One airship was brought down in the southern part of Essex and it is reported another fell on the east coast.

No reports of casualties or damage has been received.

The text of the statement follows:

An attack by hostile airships was made on Lincolnshire and the eastern counties and on the outskirts of London. The latter attack was made from the northeast about midnight, and was beaten off by our anti air craft defense.

"One airship was brought down in flames in the southern part of Essex and a report has been received that another fell on the Essex coast. The latter report is unconfirmed.

"No report of casualties or damage have yet been received."

In the last raid by German airships over England three weeks ago a Zeppelin was brought down in the London

district. The crew of the Zeppelin were killed and later buried near the spot where the airship fell. Lieutenant Robinson, of the Royal Flying Corps, was responsible for the destruction of the raider and was awarded the Royal Cross for his exploit.

## TURNER GETS PUBLICITY.

"Real Life," a New York Newspaper, Gives Local Man Good Send-Off.

Manager H. N. Turner has been given some prominence in a newspaper published in New York which is devoted to moving-picture interests. We reprint here with as it appeared in "Real Life."

"The more unique advertising has been given to the Mutual's serial 'The Secret of the Submarine,' perhaps, than that contingent with its showing at the Electric Theatre of Linton, N. D. In order to stimulate trade among the farmers of the locality, the merchants and business men of the wide-awake Dakota town have instituted a series of free Saturday afternoon matinees at the Electric, tickets for which are given away with purchases. Installments of 'The Secret of the Submarine' and two reels of comedy constitute the programs which commenced on August 26th.

Another clever advertising dodge has been hit upon by the manager of the Electric in exploiting the other performances at which 'The Secret of the Submarine' is shown. On pieces of wall paper, cut doiger size, and headed by numbers, the following announcement is printed: 'We have removed the wall paper from the wall of the Electric Theatre for tonight to accommodate the crowds to see the 'Secret of the Submarine.'" Twenty-five admitted free. Bring this bill with you. If the number at the top agrees with the number we have marked 'free' you will be admitted free of charge."

Needless to say the Electric does a capacity business.
