

## IN PIONEER DAYS

From the Record, Oct. 7, 1892:

The editor of the Record came back from Winona to find his younger boy very sick, the trouble being croup, from which he has not yet recovered. For this reason our columns are quite slim this week. ## Hague Happening

Correspondence of the Record, Oct. 2.

J. J. Volk sold his Ford Coupe to Frank Klein.

Miss Anna Keegan, from Huff, N. D., opens the Miller school today.

Teacher F. C. Gaylord, from Hull, took the train for Linton from here Saturday, returning in the afternoon.

Conrad Erk has a new 4-passenger Buick in his garage, and we learn he has contracted for the agency of the Buick line.

Peter Bosch and Adam Vetter autoed to Zealand Sunday, the latter to have his injured hand treated. Mr. and Mrs. H. B. Kiefer accompanied them.

John Sahli, who had entered the University of St. Johns at Collegeville, Minn., was obliged to return home on account of not finding things congenial to his health.

Miss Lizzie Fischer returned from Eureka, Saturday, with two children of Carl Fischer's. Miss Fischer was gone over a month, and assisted her brothers during her stay.

Ed. Miller returned from Eureka Saturday to spend Sunday in Hague. Mr. Miller is busy painting elevators at Eureka and will have more work than he can handle for the fall.

Jesse Payne, from the river, who supplied young trees for our town's people last spring, was here to make good his promise to replace any tree that would not grow. As the year was favorable to the growth of trees, he needed to replace very few.

Jos. Pfeifer and family, from Aberdeen, arrived with their Maxwell Saturday and spent the day with Pete Bosch and family, visiting relatives at Strasburg over Sunday and returning home Monday. Mr. Pfeifer remained in Hague to construct a house for John Eberle.

A great prairie fire which got its start in a smoldering heap of ashes from a thrashing rig assumed a threatening aspect during the high wind Saturday afternoon. For a time it was thought that the fire would advance toward town. Many of the people driving out to learn how dangerous it was when they were satisfied that the farmers had diverted the course so that the fire would spare the town there were left to do the fighting for

their own effects. We could not learn how extant the fire was, but are informed that much hay, grain and many buildings were burned.

Cashier H. B. Zenk returned from Milwaukee Wednesday after a stay of several months at a Sanatorium. Mr. Zenk is much improved and feeling well, but is still required to take treatments. Assistant Cashier J. J. Volk feels relieved in having some of the responsibility of the last two months taken from his shoulders.

Late reports say the fire of Saturday was estimated to have been one and a half miles wide and six miles long, those suffering heavily being Christ, Herning and Billy Clyde. The latter lost his house and a newly constructed barn with all his other effects. Eva Volk had three claims swept perfectly clean. The fire was checked by five thrasher crews, farmers and plowed land.

The business associates of the Thompson yards that were making their way through the country visiting such places as Linton, Strasburg, etc., also called on our agent of the yards, F. E. Schlagel, Monday. Our people sat up and looked for awhile. Not having the time allotted them for a reception as our neighboring towns, we can only say that the visit of these gentlemen and the interest they showed in the rural towns was highly appreciated by our people.

Adam Vetter met with quite a serious accident Thursday evening while slaughtering a cow. The axe handle to the axe used to give the dead blow, broke and it appears only stunned the cow. When the knife was applied the cow suddenly rose to her feet and it happened, though nobody knows how, that the knife badly cut up the wrist and entered deep into the fleshy part of the hand. Mr. Vetter was taken, after first aid, to Zealand, where Dr. Grace fixed up the severed artery and put the wound in shape with five stitches. Mr. Vetter returned to Zealand Sunday for further treatment.

To farmers hauling grain to Cannon Ball: We will make the following rates—crossing, round trip, two teams, \$2.50. Crossing, round trip, three teams, \$3.00. Good landing and service. Ferry Boat Ida one mile south of Cannon Ball, N. D. House & Brewster. Adv.

Mrs. Scott and son, Roy, autoed out to visit Mr. and Mrs. Longwell last Sunday. Mr. and Mrs. Jarvis and children also took dinner at Mr. Longwell's.

Mrs. Allie Marquardt received word last week from her brother, Guy, that his little girl was dead and Allie departed for Canada immediately to be present at the funeral.

Floyd and Alice Ott came to Sunday school last Sunday in the cold. We would like to have some of the older people in this community get interested like the children are.

Sunday and Monday were cold disagreeable days. It was a reminder of approaching winter. Any one who has potatoes in the ground better get busy or they are liable to get some frozen potatoes before they are aware of it.

## MOVIES OF MARIE.

Correspondence of the Record, Oct. 3.

Thrashing is pretty well along.

Where are the Marie teachers?

Meril Towne had a narrow escape when the rake tongue broke and she was thrown behind the horses. However, a few bruises was all.

the importance of teaching typewriting to your children? Every business house has one or more machines, and all of the business of the world is taken care of on the typewriter—a boy or girl who cannot run a typewriter is getting behind the times.

I furnish complete instruction books for learning "Touch Typewriting" with each machine. There is only one way to learn typewriting—get a machine and practice.
