to establish a sales and service agency in this community

WILLYS-OVERLAND, INC., is the only manufacturer that produces two of the eight most popular cars in the world—Willys-Knight.

COMPARISON with other cars in the same price class as to materials, construction, riding qualities and economy of operation is but further evidence of the reason why there is such a demand for Overland and Willys-Knight cars.

75 PER CENT of all automobiles sold today are but three different makes! Overland is one of them. 90% of all automobiles sold today are of eight different makes! The Willys-Knight is another of them.

WILLYS-OVERLAND, Inc., is the only manufacturer which in the Overland and Willys-Knight, produces two out of the eight most popular cars in the world.

INVESTIGATE the used cars on the market and you will discover that used Overlands of present design move at good prices and Willys-Knight cars are rare among used car stocks.

UNLESS you are familiar with the splendid performance records of the present-day Overland and Willys-Knight, you cannot fully appreciate the reason for the public preference of these two cars.

And at their new prices, they offer sales possibilities greater than ever before in their history.
