TREATMENT OF A COLD.

Some Good Advice by a Well-Known Physician.

A well-known physician says that a cold can be easily treated at its outset, but if neglected may lead to la grippe and pneumonia. He says that the best home treatment for the cure of colds and la grippe is Krause's Cold Cure Capsules. He uses them almost exclusively in his practice as they do not affect the head as does quinine, nor upset the stomach.

This remedy is prepared in soft, soluble gelatine capsules, which are easily dissolved by the warmth and fluids of the stomach. They are much preferable to little, hard, sugar-coated pills or tablets that always offer objectionable resistance to assimilation. Krause's Cold Cure positively cures cold in the head, cold in the chest, cold in the throat or cold in any part of the body, and it will prevent the development of bronchitis or pneumonia. It is for sale at all first-class drug stores at 25 cents a box. Sold by Hull & Woodruff.
