STRIKERS GO BACK TO FORTIFICATIONS ON MOUNTAIN SIDE

Prepared to Prevent Non-Union Men Being Put to Work in Mines of Utah Copper Co.

Bingham, Utah, Sept. 21.—Three hundred strikers reappeared this morning in the fortification on the mountain side from which firing was done toward the Utah Copper mine on the first days of the miners' strike here.

The men are supposed to be part of the force which came down from the rocks to hear the address of the governor Thursday. The fortress was deserted yesterday. It is believed the reoccupation is due to predictions that non-union men would be put to work in Utah Copper today.

Superintendent Jackling denied this. More deputy sheriffs were sent out on the Bingham & Garfield railroad this morning to strengthen the patrol and prevent damage to the line in case strikebreakers were shipped in. No firing occurred since last night although the strikers retain all their weapons.

Assistant Manager R. C. Gemmill, of the Utah Copper company, arrived here this morning and General Manager Jackling is due later today for a conference of mine officials and members of the sheriff's posse. It is reported plans for putting strike breakers to work will be discussed.

INDICTMENTS FOR OPIUM SMUGGLING

San Francisco, Sept. 21.—Robert Donaldson, assistant superintendent of navigation of the Pacific Mail Steamship company, and Henry Gallagher, United States customs inspector indicted late yesterday by a federal grand jury on a charge of complicity in an opium smuggling conspiracy in which, it is said, many other men are implicated.

REBELS FIRE ON NAVAL FORCES OF UNITED STATES

American Marines Have Been Engaged in Fighting in Nicaragua—Delayed Reports Are Received.

Managua, Sept. 20.—(Delayed)—Three American marines were slightly wounded by insurgent bullets fired at Major Butler's battalion as the train bearing bluejackets and marines was passing through Masaya Thursday night for the purpose of opening up the railroad to Granada. The American force, arriving at Granada today, found the population on the verge of starvation.

Washington, Sept. 21.—Severe fighting between American naval forces and Nicaraguan revolutionists is believed to have occurred in the last few days near Barranca, although reports from the scene are so meager that officials here have no definite idea of what has happened. Rear Admiral Southerland is in the field, probably with upward of 2000 men, and if plans have not miscarried by this time he has cleared the route of the National railway of opposing rebels and relieved the famine threatened city of Granada.

European attention to affairs in Nicaragua at this time is believed to be one of the possibilities. The Washington government is sending relief to the beleaguered city, Granada, populated by many foreigners, and hoped to avoid any pretext for landing European military or naval forces on Central American soil.

The British consul general at Managua and the British vice consul at Matagalpa have reported two British subjects murdered by the rebels at Achuapa. It is expected, however, that the British government, before taking action on its own account will await the result of the American campaign.

A delayed telegram from Admiral Southerland, dated Managua, September 17, and reporting that American bluejackets and marines were fired upon as they attempted to open the railway, reached the navy department yesterday. Delayed reports said the Granada relief party had been fired upon last Sunday; that the officer in command had halted and sent to Managua for reinforcements, and that Admiral Southerland had gone to the rescue with two companies of marines and a detachment of sailors.

Whether there was more firing from the rebels before the additional American force arrived is not known, but it is possible the brush referred to in the dispatch received yesterday was the one that took place Sunday.

Upon his arrival at Barranca, Admiral Southerland sent word to General Zeledon, a rebel leader, that he proposed to open the railroad to Granada, and to keep it open, and that he would give the rebels 24 hours to clear the front.

While Zeledon hesitated, General Mena, former secretary of war of Nicaragua and the principal leader in the revolution, came northward from Granada with another large force of rebels and joined him. After a consultation they sent a formal defiance to Admiral Southerland, announcing their purpose to oppose his advance.

It is not known exactly how many sailors or marines composed the admiral's force at that time, but it is believed it did not exceed 200 or 400 men. At any rate, in view of the large numbers of rebels in his front, and unwilling to run the risk of temporary defeat, the admiral called for reinforcements from Managua, where it is believed there were still about 1500 sailors and marines available. That was the situation when the last cablegram was dispatched from Managua, three days ago.

O'NEIL TAKEN TO KOOTENAI COUNTY

Wallace, Sept. 21.—B. F. O'Neil, who is to be tried in the Kootenai county courts on charges in connection with the failure of the State Bank of Commerce, was taken from Wallace to be placed in the custody of officials in Coeur d'Alene yesterday. Sheriff Michael J. Maher had charge of O'Neil. His departure from Wallace was quite a contrast to his arrival here some months ago, when state officers brought him back to his home town from Canada. Then he was received like a hero and was everywhere greeted by a crowd of former acquaintances. When he went to the train yesterday there were practically no acquaintances on hand to bid him farewell.

RESENT TRICK PLAYED ON BORAH

Friends of Borah Indignant Over Action of Committee

TRY TO MAKE BORAH PULL HAINES THROUGH

Plan Is Arranged Without Knowledge or Consent of Senator, Who Is, Evidently With Design, Placed in Embarrassing Position.

Friends of Senator Borah have been unable to restrain themselves or to conceal their displeasure at the trick turned upon the senator by the Republican state central committee in sending John M. Haines, the Republican nominee for governor, to campaign with Senator Borah, without the request or knowledge of the senator, as they believe.

They point to the fact that it has been known all along that it was the desire of Senator Borah to conduct his own campaign and to make his own itinerary. The state committee, however, demanded the right to prepare his schedule and Senator Borah, so it is understood, out of deference to them, gave his consent. It was first arranged that he should go to Council and Meadows and word to his friends there was sent out to that effect. Without consulting him and without his knowledge this was changed and he was routed from Parma where he went to speak, to go to Leadore and Salmon in Lemhi county, and then to Custer and Mackay, in Custer county. The dates were so arranged that the senator could not possibly make the necessary connections and he was forced to return to Boise and get matters straightened out. He was then sent to Glenns Ferry with the understanding that he was to go from there to Mountain Home and then to Brunau, in Owyhee county, and then return to Boise, when a schedule was to be agreed upon that would accommodate him.

Standpaters Active. Again chaos was brought about and the Mountain Home and Brunau meetings were called off and the senator sent to Rexburg ostensibly because the county fair was in session, but as it now appears for the purpose of giving the standpat Republican leaders of that section an opportunity to demand that he come squarely out for Taft and in support of Haines. Among the leaders who made such demand upon him were National Com-
