

GRANGE WILL ACT ON LEGISLATION

President Harland Calls Meeting of Committee for Next Saturday.

Intending to devise ways and means for carrying out a campaign of education for direct legislation for this state, President H. Harland, of the Idaho State Grange, has issued a call for a meeting of the state committee to be held in Boise next Saturday, Sept. 28. The committee meeting will be one of the most important the grange has held and President Harland states that all whose interests in direct legislation are requested to meet with the committee, for the grange is anxious to get into and remain in touch with the friends of legislation of this kind. It is very probable that the meeting will result in the drafting of a tentative program for direct legislation to be considered by the Twelfth legislature.

The State Grange has taken the initiative in direct legislation so far as it is beneficial to the farmers as a whole and during the primary campaign candidates for the legislature were pointedly asked whether or not they favored and would support certain measures. The list of questions submitted to each candidate to show how he stood on direct legislative measures, is as follows:

First—Do you favor, and if elected, will you endeavor to procure during the coming session of our legislature, a public utilities commission, whose business it shall be to supervise all steam and electrical railroads, express companies, telegraph, telephone, light and power companies?

Second—Do you favor, and if elected, will you endeavor to procure during the coming session of our legislature, a board of control to have supervision over all state educational, penal and charitable institutions, in place of a board of trustees for each individual institution?

Third—Do you favor, and if elected, will you vote for the direct election of United States senators?

Fourth—If elected, will you advocate the reduction and consolidation of our many departments into the smallest number compatible with efficiency, thus reducing the unnecessary expense of the state, and our tax burden?

Fifth—Do you favor giving useful employment to convicts, a percentage of the proceeds to be reserved as a fund to be given them on their release from prison and the remainder to go to the state?

Sixth—If elected, will you use your influence to procure a reasonable number of persons representing the agricultural interests on the various commissions and boards?

The state committee of the grange will call its meeting at 1 o'clock sharp Saturday afternoon at the Idaho hotel. It is believed the meeting will result in the carrying out of extensive plans for the conducting of a campaign of education for direct legislation.

But Not Financial.

"Why do you suspect Finson of being a tightwad?"
"Because he is always so quick to offer his 'moral' support."—Birmingham Age-Herald.

Another Peril.

"But, Peter, you should be grateful that you were saved from drowning, and not cry like that."
"Yes, but there come my aunts and now I'll be kissed all the afternoon."

MAY BE PROBE INTO BOISE TRUSTS

(Continued from First Page.)

busters. They would have the present grand jury continue the probe for one, two or three months if it were necessary. In short, they demand a complete, thorough, and analytical study of the combinations that are said to exist in this state contrary to the state law.

Are After Results.

They want a probe that is a probe, one that will find out things, that will result in indictments, that will bring convictions, that will put a few of the heads of these combinations in jail and a few others will have to pay heavy fines, if the facts shall warrant. They want results.

Some time ago, an independent plumber took a \$1200 contract to do work on the Central fire station. His price was reasonable. He was awarded the contract by the city council. When he came to buy his goods and material, he found that he could not buy from the jobbers who sold to the other plumbers of Boise. He discovered what he thought was a plumbers' trust and he said so. He told the city council about it. He was finally forced to abrogate his contract, at least to a certain extent.

This, to the minds of the trust-busters, seems to show on its face that there is a plumbers' trust, affiliated with the plumbers' trusts of other cities and with the markets and jobbers of the east and far western cities. They want this matter probed and probed deep.

They declare that Boise is merely a part of a great telephone trust, that an independent concern here was frozen out by what they say was an enforced purchase of 50 cents on the dollar of the stock, that it has raised the price of telephones so high that they are beyond all reason, it seems to them, and they want that probed.

Their plans would include a wholesale trust-busting campaign. It is pointed out that the anti-trust law requires the county attorney to investigate such cases under the supervision and control of the attorney general and that \$1000 was appropriated at the last session of the legislature for the prosecution of cases under the act.

The law makes it a misdemeanor, punishable by a fine of \$5000 and one year imprisonment to monopolize or attempt to monopolize or combine or even conspire with any other person to control the market or any part of the trade or commerce of this state. All property owned under any contract formed under such an agreement is, by law, forfeited to the treasury of the state.

The same fine and imprisonment are provided by law for the man who plans to or does attempt to drive any other person out of the business field by any illegal methods whatsoever or cuts prices, or sells his goods at less than a fair market value, or sells his product in such a way that the purchaser has not the free control over it. The law also plainly makes the corporation books and other papers subject to frequent inspection by the attorney general and by the county attorneys of the different counties of the state.

With a law as strong and as comprehensive as the anti-trust law of this state now is, the trust-busters demand that the county attorney and the grand jury conduct a searching investigation and gather all of the facts possible in any time that it takes them to do so. That there are trusts in Boise and this state, they firmly believe, and they want them busted.

MOOSE WILL CONDUCT AN ACTIVE CAMPAIGN

"One thousand new members." This is the slogan adopted by Boise Lodge, No. 227, Loyal Order of Moose, which already has a membership of nearly 500, although instituted here less than two years ago, and now that a specially directed movement is on foot under direction of James J. Gahan, national director of Idaho, who came here a few weeks ago, it is expected that the beneficial organization will have a phenomenal growth during the next few months.

Since its organization the growth of

OLD TIME REMEDY DARKENS THE HAIR

Gives Color, Lustre to Faded and Gray Hair—Dandruff Quickly Removed.

For generations Sage and Sulphur have been used for hair and scalp troubles. Almost everyone knows the value of such a combination for keeping the hair a good even color, for curing dandruff, itching scalp and falling hair, and for promoting the growth of the hair. Years ago the only way to get a Hair Tonic of this kind was to make it in the home, which was troublesome and not always satisfactory. Nowadays, almost any up-to-date druggist can supply his patrons with a ready-to-use product, skillfully prepared in perfectly equipped laboratories.

An ideal preparation of this sort is Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for scalp troubles and thin, weak hair that is losing its color or coming out. After using this remedy for a few days, you will notice the color gradually coming back, your scalp will feel better, the dandruff will soon be gone, and in less than a month's time there will be a wonderful difference in your hair.

Don't neglect your hair if it is full of dandruff, losing its color or coming out. Get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, and see what a few days' treatment will do for you. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Agent, Chas. L. Joy & Co.

the Moose lodge has been steady and it is considered one of the strongest organizations of its kind in the nation. Idaho has 13 lodges, while in the United States there are 1100 lodges, with a total membership of 500,000. Its period of activity has been within the last six years, until now there is not a state in the union in which the order is not represented.

The Boise lodge has been an exceptionally live wire since it was organized and it boasts of one of the finest lodge halls in the city, which is located at Sixth and Idaho streets. This hall is fitted up with elaborate club rooms and dances are held there twice a week, while during the winter months smokers will be conducted and other social events held for members and their families.

One of the progressive movements of the order is its plan to establish a national Moose school for the education of sons and daughters of members of the order, who may be dependent. A site of 1000 acres has already been selected for this school and the additional members for which the order is striving throughout the country will aid greatly in realizing the end, and it is expected the school will be opened within a year. A home for aged and infirm members of the order and their widows is also contemplated by the order, which during its six years of existence, has accomplished every movement it has attempted.

Kansas City Livestock.

(By J. A. Rickart)
Kansas City Stock Yards, Sept. 21.—Cattle received here this week, 74,395, last week 72,000, same week last year 69,400. Medium killing cattle broke 15 cents yesterday and the general market is closing the week in a hoisting manner. There has been no prime fed steers here this week, but that kind are quotable up to \$10.75. Quarantine cattle took on a little strength the first part of the week, but slumped off a little yesterday. The run of quarantine cattle took on a little yesterday. The run of quarantines bears the stamp of the end of the season, and it is said few good droves remain to come from below the line. Mixed shipments are the rule, and quality medium to common. Some cattle are being held back for winter feeding, since the cotton crop in North Texas and Oklahoma has turned out so promisingly. Plenty of hay in the mountain country, and the biggest crop of sugar beets on record are operating to hold back cattle in the west that might be put forward in a lean year. Plenty of feed in the corn belt will detain many feeders at home, the whole situation presenting a set of conditions pointing to moderate runs of cattle from now through October and November. Insistent inquiry from feeder buyers puts a stimulus into the market that offsets any bear influence of the killing interests, even when such influence is allowed to come to the surface.

Hogs received this week 24,500, last week 24,300, same week last year 27,600. Up to the middle of the week the market was under the influence of the decided bear raid that has been operating for a week or more, and which succeeded in putting prices down 40 to 50 cents. Since Wednesday the market has shown great recuperative powers, and the gloomy talk indulged the middle of the week has been largely discounted. Dealers who were getting reconciled to the \$5.50 hog have picked up their ears again. The market is 10 cents higher today, top \$8.70, bulk \$8.45 to \$8.65, run 2500. Sheep received this week 53,100, last week 69,500, same week last year 42,900. Sheep have held steady this week, but lambs see-sawed a little, closing today at the best point of the week, with best range lambs selling at \$7.45, Montana wethers sold at \$4.85 on several days this week, and feeding lambs bring \$6.10 to \$6.40.

The margin between fat and feeding lambs, fairly reasonable, is entirely wiped out when it gets into yearlings, fat and thin ones selling close together, at \$5 to \$5.50.

Those Boxes.

(From Judge)

Wills—"How are the new cigarettes?"
Gills—"Fine! This last box I bought contained a flag, two pictures of ball players, a cardboard paper knife, a toy balloon and a puzzle."

Wills—"But how do the cigarettes themselves smoke?"

Gills—"I don't know. You see, I had to cut each one to pieces to see whether it contained the Great Grand Free Coupon which would entitle me to the next box free."

One Advantage.

(From Judge)
One advantage of indulging in day dreams is that your pipe never goes out.

Lady Baltimore Cake

The Most Popular Cake This Season
By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

This is considered by most cooking authorities the finest cake that can be made, though in reality it is not at all difficult.

K C Lady Baltimore Cake
One cup butter; 2 cups granulated sugar; 1 cup milk; 1 teaspoonful rose water; 3/4 cups flour; 3 level teaspoonfuls K C Baking Powder; whites of 6 eggs, beaten dry.

Cream the butter and beat in the sugar gradually. Sift together, three times, the flour and baking powder, and add to the butter and sugar, alternately with the milk and rose water. Lastly, add the egg whites. Bake in three-layer cake tins. Put the layers together with the following frosting.

Note—The cake is a large one and sells at Women's Exchanges for \$1.50.

Frosting for Lady Baltimore Cake
Three cups granulated sugar; 1 cup boiling water; whites of 3 eggs; 1 cup clotted cream; 1 cup chopped nut-meats; 5 figs cut in thin slices.

Stir the sugar and water until the sugar is dissolved, then let boil without stirring until the syrup from a spoon will spin a long thread; pour upon the whites of the eggs, beaten dry, beating constantly meanwhile. Continue the beating until the frosting is cold; add the fruit and spread upon the cake.

The K C Cook's Book contains ninety just such delicious recipes—bread, muffins, cakes and pastries. You can secure a copy free by sending the certificate backed in every 25-cent can of K C Baking Powder to the JAGGER MFG. CO., Chicago. Small cans do not contain Cook's Book certificate.
