

RIGHT MEN WERE SENT TO FOLLOW COL. ROOSEVELT

Harlan and Bede, Discredited in Their Own States, Represent Ultra Standpat Sentiment of Party.

(Capital News Special Service)

Chicago, Sept. 24.—Managers of the Taft campaign could not have picked two more representative men than John M. Harlan of Chicago and ex-Congressman Adam Bede of Minnesota to follow Colonel Roosevelt through the west.

John Harlan began his political career in Chicago as a Progressive before that term was applied to politics. It meant that he represented the element among the people who were tired of being misruled and misrepresented.

Merriam is an out and out Progressive, and as Harlan was supported by the same people who supported Merriam it may be perceived that Harlan really to all appearances represented the Progressive and reform element of Chicago.

Such positions are rare, but it was Judge Peter S. Grosscup, the judge who reversed the \$29,000,000 fine which Kenesaw Landis had imposed on the Standard Oil company, who appointed him.

Harlan Was Needed. Stock and bond holders, receivers and all others were represented in this case, but the court decided that Harlan was needed as special attorney for the court and he was given the place with no stipulation as to fees.

Then Mr. Harlan went on the stump—just as he is on the stump now. But then he was stumping the district of William Moxley, Mr. Lorimer's member of congress—the man who succeeded Lorimer when that worthy went to the United States senate with a ticket that was later held to be invalid.

That is the status of John M. Harlan, who is campaigning the west in an effort to discredit Roosevelt. It is hardly conceivable that even the Taft managers expect him to get more than a few jeers or made to order applause from well organized cliques.

ANOTHER SCHOOL BOY HAS DISAPPEARED

Another boy, Leonard Frymyer, has run away from school because he was afraid of the teacher. His father, John Frymyer of Star, has asked the sheriff's office to look out for the boy and thinks that he has gone to Emmett or Payette or some other place where there is a good deal of fruit packing at this season.

The description given to the office includes a pair of deep blue eyes, light hair, light complexion, a slender build, knee trousers, a white hat and a gray suit.

He says the boy and his teacher have had a few disagreements ever since the beginning of school and that the boy finally determined that he would not go any more. He is but 12 years old but he started for school yesterday morning and probably made his way to a railroad station and worked through to some fruit packing city.

TALE OF DOMESTIC TROUBLE IS TOLD

The pitiful tale of the domestic unhappiness which has existed for five years in the home of Mr. and Mrs. Henry Stevenson, now residing at 506 South Fifth street, was told in Judge Bower's court this morning when Stevenson was placed on trial on the charge of assault upon the person of his wife on Sunday and which Deputy Prosecuting Attorney Coffin moved to dismiss after listening to the testimony for the reason that it was not sufficient to warrant a conviction.

Going back for a period of five years both Stevenson and his wife told of the domestic unhappiness which had prevailed in their home, which has caused one divorce in February, 1910, and of their re-marriage at Weiser something over a year ago and how since coming to Boise they had again been unhappy.

Stevenson stated that he would be prepared to show tomorrow that he took three quarts of milk daily at his house, that his grocery bill amounted to about \$30 per month, that his monthly meat bill was about \$7 per month and that while he owed money for goods and his family was an expensive one to keep up, that he had always provided sufficiently for them.

The experience of great western fair associations has proved that financial prosperity does not depend upon catering to the gambling element. We had received the assurance that gambling would not be countenanced at the fair this year. It is our strong conviction that the present policy of the directors of the fair association in authorizing any form of gambling is as ruinous to the real purpose of the fair as it is harmful to the morals of the community. We therefore enter publicly our earnest protest."
