

PREPARATIONS FOR WAR AT BINGHAM MADE BY DEPUTIES

Clash Has Not Yet Come But It Is Feared the Effort to Disarm Strikers Will Bring It

Bingham, Utah, Sept. 25.—Despite the active preparations for war, another day has progressed so far peacefully in the copper miners' strike for higher wages. Announcement by the county commissioners that firearms were to be taken from the miners led this morning to a declaration that "There will be shooting before it was accomplished."

Bingham, Utah, Sept. 25.—As a result of the fear expressed by operators that the sheriff's posse might not be able to control the situation in an emergency, county officials paid a visit to the camp yesterday where 4500 copper miners are on strike, and carefully went over the situation. The strikers observed the movements of the party with little show of interest.

The party consisted of John C. Mackay, Oscar Carlson and Walter J. Burton, county commissioners; Sheriff Joseph Sharp and Deputy Sheriff Alex Steele. "We believe that the county will be able to cope with any emergency," said Mr. Mackay.

"We are favoring neither side in this trouble, but are determined to spend the county's last dollar in keeping the peace. If need be, we are ready to increase the number of deputies to 1000 men."

The commissioners said that the deputies here were to receive instructions to destroy all breastworks improvised by Greeks on the mountain side, and to arrest every man found carrying weapons. Beginning immediately, the program is an aggressive police campaign to pave the way for the resumption of work. This, it is admitted, may be met with resistance.

Meanwhile the leaders of the strike were busy holding conferences. A number of telegrams were exchanged with union officials in other cities. They stated tonight they were prepared to checkmate any move the Utah Copper company might make. "If it is a waiting game," said J. C. Lowrey, executive board member of the Western Federation of Miners, "we can stand it as easily as the company."

Newark, N. Y., Sept. 25.—That Governor Wilson won a sweeping victory in the New Jersey primary yesterday is evident from the returns which sifted into Democratic headquarters early today. In the fight to prevent the nomination for United States senator of former Senator James Smith, Jr., Wilson carried the state by a plurality of not quite 20,000, winning every county except one. The returns from 511 out of 1799 districts give Representative William Hughes, the Wilson candidate, 17,029 to 11,751 for Smith. It is believed that practically all Wilson candidates for nomination throughout the state outside of Essex county were successful. All told each party selected 12 candidates to congress. The vote was light all over the state. Pointing to charts, models, photographs and life-size casts illustrating the effects of disease, he declared he would rip out the whole thing, with the exception of the section on the eugenics. "Do you suppose that chamber of horrors is a moral, reforming or even educational effect? he asked. "I do not believe fear is a high ethical concept to appeal to. Our efforts must be turned, not toward dragging young to do right, but toward incultation to that right thinking which leads to right doing.
