MUTINEERS IN CHINA ARE SHOT DOWN BY THE LOYAL SOLDIERS

Two Hundred Who Entered Into Conspiracy Against Government Are Put to Death Without Trial

Wu Chang, China, Sept. 26.—More than two hundred mutinous soldiers were executed without the formality of a court martial by loyal troops in consequence of the outbreak among soldiers encamped beyond the walls of this city Tuesday. The remainder of the mutineers fled to the open country. The mutineers were cavalrymen and numbered more than 2000. They had arranged with artillerymen inside the walls to join the movement, but the gunners failed to keep their promises. General Chi Men permitted the gates to be opened as arranged by the conspirators. The mutineers were admitted and immediately shot down.

Mutiny of Troops.
Peking, Sept. 26.—The troops encamped outside the gates of Wu Chang, capital of the province of Huh Pe, mutinied Tuesday night and attacked the city.

A strong force of General Li Yuen Hang's regiment engaged the rebels and after several hours of fierce fighting dispersed them. Two officers were executed for failing to divulge their knowledge of the movement.

It is believed the attacking party only intended to loot the city, but most of the towns in the interior have no defenders from such outbreaks in which both the republican and former imperial troops indulged. The republican spirit apparently is not appreciated by the classes from which the soldiers are recruited.

The object of the present loan is ostensibly for the purpose of paying off and discharging this menacing army, which is very large.

The Chinese appear to be well pleased with the success of the new loan negotiations.

Little head has been paid to the fact that contrary to the constitution this contract has not been submitted to the national assembly.

It is believed that President Yuan Shi Kai prefers a comparatively small loan because his authority is not yet sufficient to control, while a government organization for handling the money does not exist since the late government bank closed its doors.

Pathetic conditions prevail throughout the country. Occasionally detachments of soldiers engaged in looting and wanton destruction. Trade is greatly hampered and thousands of persons are dying from starvation who could be saved by the employment of a few foreign engineers.

The political situation, which is absorbing the republican leaders, has curious and interesting phases. The Manchu princes recently gave a dinner in honor of Dr. Sun Yat Sen and toasted the republic. But the imperial guard lined the streets during Dr. Sun's visit, this being regarded as the safe course. The troops of the court, contrary to the abdication terms, remain in the forbidden city. President Yuan evidently desiring their presence there.

Leader of the Progressives in Idaho Is Confident of Success

MARTIN TO OPEN STATE CAMPAIGN

Nominee for Governor Declares That New Party Is Out to Win.

G. H. Martin, Progressive nominee for governor, is in the city today in consultation at headquarters of the Progressive party concerning his campaign which he will begin with a speech at Caldwell tonight, which will also be attended by a number of the candidates upon the state ticket.

Mr. Martin brings word that the Progressive movement has swept the north and that he will come down to the southern section of the state with more than 5000 plurality for governor. Upon request of the Capital News Mr. Martin consented to state some of the acts done by him as an attorney to show his sympathy with progressive ideas and the progressive movement, the idea being conveyed to him that specific acts would show better than any amount of wordy declarations. It will be noted from what he says that the nominee for governor upon the Progressive ticket bears the unique and wholly unusual distinction of having been employed as an attorney against corporations and special interests instead of attorney for such interests. Mr. Martin said: "One thing has given me greater pleasure than my nomination to the governorship on the Progressive ticket, and that is the expressions of good will and hearty assurances of support of the people of my own county of Bonner. It is a great satisfaction to have the support of my own people regardless of party or faction."

G. H. MARTIN.

"The situation in the north is very favorable to the entire Progressive ticket. Roosevelt and Johnson will poll a tremendous vote in the northern part of the state. The sentiment in favor of the state ticket is growing rapidly, and it will receive support from many sources outside of members of the Progressive party."

"I observed that some of the Republican candidates for state office are questioning my progressiveness. I desire to say that I was a member of the Iowa state convention which first nominated A. B. Cummins for governor."

ADVANCED STEP BY CANDIDATES IN BONNER COUNTY

Supplementary Planks to State Platform Adopted and Strong Indorsement Given Senator Borah.

The Republican county candidates of Bonner county passed strong resolutions of indorsement of Senator William E. Borah and launched a platform in direct contrast to the all but meaningless one of the Republican state platform convention. They went on record as in favor of a public utilities commission and pledged to work for its enactment.

The resolutions, copies of which have been received in Boise, follow: The candidates of the Republican party of Bonner county, assembled in conformity to law, hereby indorse the promises of progressive legislation, contained in the state platform of our party, and supplement those promises by the following declarations:

"Pledged by our state platform to the principles of the direct primary, we show our loyalty to and support of the state and county tickets selected by the electorate on July 30, 1912.

"We point with especial pride to the record of Idaho's most distinguished citizen, Honorable William E. Borah, and pledge ourselves to use all honorable means to secure his reelection to the United States senate."

"We are opposed to undue and improper activity of special interests in political and legislative affairs; we favor the enactment of a stringent corrupt practice law and laws requiring the public registration of lobbyists."

"We favor such legislation as will make practical and effective the initiative, referendum and recall should the constitutional amendments providing for these reforms be adopted in the coming election."

"We heartily favor the creation of a state commission for the regulation of all public utilities, particularly such utilities as are engaged in the work of transportation. We favor full publicity concerning the capitalization, management and earnings of all public utilities and the ascertaining of their true value, to the end that the same valuations shall be used for taxation purposes as are used in fixing just and equitable rates for service."

"Recognizing the propriety of governmental encouragement of policies of development and growth rather than those of speculation, we favor the abolition of all poll taxes and the exemption from taxation of a substantial part of improvements on real property."

"We appreciate the great importance, particularly to north Idaho, of the questions of drainage, land clearing and road and bridge construction and promise to do everything in our power to assist in the solution of these vital problems. We especially favor the employment of state convicts in the construction of public roads."

"We favor the selling of state lands on liberal terms to actual settlers only, and the loaning of state funds solely for development and improvement purposes."

"In county affairs we pledge our candidates to the greatest economy consistent with efficient service, and to an impartial and non-sectional administration. We solicit the support of all citizens who desire just and equitable local government and the development of our state and county."

TRAIN FIRED ON BY STRIKING MINERS

Lexington, Sept. 26.—One hundred striking miners, armed with magazine rifles, held up and attacked a train at the Roserun iron mines, in Bath county, late yesterday. The strikers lined both sides of the track and challenged the 10 guards on the train to battle. The engineer was ordered to run the train through the lines. As he did so the strikers fired in the guards' car, but it was protected by iron plates and no harm was suffered. As a result of the holdup it is likely troops will be requested by the mine owners. A recent request was refused by Governor McCreary.

Minister Weitzel reported to the state department today that Rear Admiral Southerland had accepted the surrender of Mena and 700 followers at midnight Sept. 24. This is taken to indicate the collapse of the revolution.

Officials here believe Mena requested that he be permitted to surrender from fear of summary action by the Nicaraguan government and Admiral Southerland doubtless thought it advisable to get him out of the country as soon as possible. Granada is now completely under the control of United States forces.

REVOLUTION IN MEXICO GAINS IN STRENGTH IN THE NORTH

Madero, in Asking Congress to Authorize Loan Virtually Admits Inability to Cope With Situation

Mexico City, Sept. 26.—Stringent measures, such as the government's recent suspension of constitutional guarantees and the execution of numerous rebels have failed to have the deterrent effect anticipated, and the revolution in the north, which two months ago was confined principally to the state of Chihuahua, has spread to Sonora, Coahuila and other states.

Only yesterday President Madero asked congress for an appropriation of 20,000,000 pesos, or a loan authorization, admitting that there was less than 30,000,000 pesos in the national treasury. The national government is convinced that General Higinio Aguilar, of the regular army, who recently disappeared from the capital, is at the head of a large body of rebels operating between Puebla and Oaxaca.

Heretofore the switchmen have been neutral.

The federals, with cannon and one machine gun, made a strong defense, but the rebels finally routed them. Reinforcements of 200 soldiers have been sent from Tenancingo.

Reports here are vague as to the losses, except that Captain Miguel Isaguirre, a young officer, angered by the taunts of the rebels, is said to have made a sortie with a small command and to have been shot down, together with practically all his men.

The rebels are reported to have burned several houses in the town and a large textile mill a short distance away.
